Worthy to be Written in Letters of Gold

Tete a Gouche, N.B.—You do not praise Catarrhzone highly enough; it is worth to be written in letters of gold. One small bottle has done more for me than all the doctor's medicines I have taken in the last three years. I was a sufferer from Bronchitic Asthma, but by using Catarrhzone I have been entirely well, I feel my cure has been a perfect one. A. J. Kemp.

Catarrhzone alone is the only cure for Catarrh, Asthma, Bronchitis and Lung Troubles. An absolute cure guaranteed with every complete outfit. Large size, \$1.00; small size, 25c; at druggists or by mail. A trial sent for 10c, by N. C. Polson & Co., Kingston, Canada, or Hartford, Conn., U. S.

Oh, it takes a lot o' people foh t make dis worl go roon.
An dar ain much use complainin bout de task dat you have foun.
Some folks in order mo beels kin go ridin when its fair,
And some mus haul de rocks and keep de road way in repair.
—Washington Star.

It is intended to apply to the Stock Exchanges in Montreal and Toronto for the listing of the Stock and Bonds of the Company.

Montreal, 4th March, 1901.

GOVERNMENT BOUNTY.

If the production from the Company's works be as estimated, 300,000 tons of Pig Metal and 60,000 tons of Steel Blooms in 1901, and thereafter 400,000 tons of Iron and Steel per annum, made from foreign (Newfoundland) ore, the bounties to be received from the Canadian Government will be as follows:—

1901	\$ 870,000
1902	2,075,000
1903	1,850,000
1904	1,450,000
1905	1,000,000
1906	635,000
1907	235,000
	\$8,095,000

CAPITALIZATION.

The Bonds, as well as the Common Stock, have been issued and paid for; with the money thus obtained, and the proceeds of the Preferred Stock, the cost of organization, construction of the works, and the purchase of mining properties will be entirely defrayed, and about one million dollars remain for working capital.

The Bond issue, \$8,000,000, is secured by a mortgage to the National Trust Company, Limited, covering all the property of the Company.

The General Manager, Mr. A. J. Moxham, has written as follows:—

Mr. H. M. WHITNEY,
President, Dominion Iron & Steel Co., Limited, Montreal, Canada.
Dear Sir, I am glad to advise you that No. 1 furnace is in successful operation, and we have been able to measure results by accomplished facts. Whatever doubt may have existed as to the manufacturing possibilities at Sydney are now removed. Speaking in detail:
1st. Iron Ore—The developments at Bell Island, both by the drilling done and by headings put in, have demonstrated the certainty of the ore supply. The ore under cover is of better quality than we had counted on as standard. It exists in a bed of full depth, low in silica and high in iron. Notwithstanding the fact that we mined last year only about 120,000 tons, and that we unloaded this by hand instead of by machinery, and that we charged off into this small tonnage the expense of a long strike at Bell Island, the cost of the ore delivered at our dock, f.o.b. steamer, was only \$1.62 a ton. Our estimate is based upon the figure of \$1.25. This result shows our estimate to be a safe one. The works anticipated, works kindly in the furnace, and guarantees to us a large product per furnace.
2nd. Lime Stone—We have two supplies—Georges River and Marble Mountain. We are operating at present with the Georges River stone at a cost of 60 cents a ton, which is within our estimate. The unusual purity of our flux has enabled us to control both the silica and the sulphur in our pig metal to an unusual degree, and with the use of a minimum amount of flux. We have in our very pure flux an asset of great value.
3rd. Coal—We are operating our bi-product ovens with unwashed coal, nevertheless the coke manufactured is of excellent physical quality. It is capable of hard driving and of maintaining the burden in the blast furnace without trouble. While slightly higher in sulphur—as must be the case until we wash it—our pure flux, as stated, renders this no disadvantage to us. We have demonstrated that the question of washing is not a necessity, but purely an economic question. The coke from washed coal will be fully equal to the celebrated Connellsville standard, the sulphur will be no higher, the ash lower and carbon higher.
4th. Labor—The plant is constructed with every modern labor-saving device, and, after that interval of time necessary to get every new plant well organized in its labor department, our cost sheet will challenge comparison with that of any steel plant elsewhere.
5th. Cost of Production—I am confident in my opinion, at once expressed, that after crediting the value of the bi-products from the coke ovens, the cost of our pig iron should not exceed \$5.50 per ton after everything has been reduced to steady practice. The quality is all that could be desired.

In conclusion, we are safe in counting upon a reasonable profit from the start and a handsome increase in the same as the product reaches its maximum.

(Signed),

A. J. MOXHAM, General Manager Dominion Iron & Steel Co., Limited.

Why is the boy bad?

Be cause of a proverb he once read in a book.

What did the proverb say?

It said, "The good die young."

That is why the boy is not taking any chances.—Chicago Post.

Yes, sir, said the sad looking man, I am one of the few people who can tell with accuracy how the stock market will go.

How do you manage it?

Easily. I get interested in a stock and put up my money. Then I can sit down and feel mortal, certain that it will go the other way.—Chicago Post.
