**Portion of Krupp Plant At Essen Destroyed.**

Amsterdam, Jan. 10.—Fire destroyed the wheel works shops of the Krupp gun plant at Essen according to advices here today, and also damaged other buildings.

**Canadian Apples in South Africa.**

W. J. Egan, Canadian Trade Commissioner, Cape Town, South Africa.

The first shipment of apples from Canada for this season arrived on the S.S. Kwara, Oct. 15. They were all from British Columbia, and consisted mostly of "Wealthys" with some "Gravensteins."

The packing was of the very best and the shipment was healthy, being almost free from scale. The apples were of good size but did not come up to the requirements of the South African market in color, and unfortunately a large percentage of the shipments was frozen in cold storage. The fruit which carried without freezing realized from 15s to 17s a box. On the Johannesburg market prices ranged from 19s to 24s.

This shipment of 1,160 boxes is the first on record to consist of Canadian fruit only. The contention of several jobbers has been the impossibility of securing fruit for the early boats, and many severe comments were made in reference to the recommendations that the cold storage space on our steamers should be reserved for Canadian fruit. Although the above-mentioned shipment was unfortunate, dealers now admit that a suitable apple can be procured for the early sailings as well as for the end of the season. As they are all prepared to purchase Canadian fruit, they are now advocating that it alone should be carried in the cold storage of Canadian steamers during the limited season of delivery, from October to December 15, which under normal conditions can dispose of 35,000 to 40,000 boxes of a good, hardy, medium size well-colored apple.

**The Future of Fruit Growing**

"I do not believe that there are any grounds for pessimism as to the future of fruit growing in Ontario," said P. W. Hodgett, of Toronto, recently while addressing a meeting held in connection with the recent Lambton County Horticultural Exhibition. "The business will have its ups and downs, as in the past. Gluts there have been many times, growers discouraged and orchards neglected, but to the man with energy and push and stick-to-it-iveness, along with common sense, the future is just as bright as it ever was. When we consider what our apple growers are up against in marketing the miscellaneous assortment of apples planted in Ontario thirty or forty years ago, one almost wonders that we have made the success we have. Small orchards, of many varieties, fully fifty per cent not wanted in the present markets at any price, trees neglected through ignorance or lack of care, in early days poor marketing facilities, etc., all have been against us.

"With new orchards of larger size, fewer and better varieties and improved methods of marketing, Ontario can still more than hold her own in all markets of the world. The west is handicapped by expensive labor and land, and the extreme east by a more unfavorable climate. Ontario has large local markets, and is favorably situated for export and prairie markets. Nova Scotia is well situated for its export trade, but lacks both local and prairie markets. The west also lacks local markets and has extremely heavy transportation charges to British and European markets. With everything in our favor I would not hesitate to continue planting with varieties in demand and in blocks of large enough size to provide straight or mixed cars as the various markets demand.

Of other fruits, the present situation is favorable to pears, sweet cherries, strawberries, and not as good for plums, sour cherries, red currants and American gooseberries, except for local markets. The peach has always been an uncertain

quantity, large profits or heavy losses coming at times. The future outlook would not deter me from continuing in the fruit business and increasing my acreage under the favorable conditions of Lambton county."  
—Canadian Horticulture

**French Counter Attack Took the Enemy by Surprise.**

Chalons-sur-Marne, France, Jan. 11.—The fact that regiments of the imperial guard were among the 60,000 men that attacked the French lines in Champagne on Sunday indicates how carefully the Germans selected their troops for this great assault. A considerable number of prisoners taken by the French belonged to the famous guards.

The attack followed one of the heaviest bombardments the Germans yet have inflicted upon the French positions. It lasted 24 hours. The promptness of the French reply with concentrated fire from their three inch guns stopped the first waves of the attack on the parapets of the German trenches. Only at the fourth attempt did the Germans, after heavy losses, get up to the French trenches.

The surprising promptness of the French counter-attack caught the Germans before they could organize the positions they had won. Many were obliged to surrender and only a few got back to their own lines.

**YOU CAN CURE CATARRH**

J. H. Taylor, 54 Bond St., Toronto Breathed and Cured a Long Standing Case of Chronic Catarrh That Defied All Other Remedies, Also Toronto New York Specialists.

Without taking a drop of medicine into the stomach, J. H. Taylor, 54 Bond Street, Toronto, tells how the distressing troubles of Catarrh were overcome by simply inhaling Hyomei air. It's the history of tens of thousands similar cases on record, proving that Hyomei can be depended upon to cure Catarrh, Coughs, Colds, and Croup. It has no equal for any distress of the breathing organs.

Mr. Taylor says: "Some years ago while on a hunting trip in Northern Canada, I contracted a severe cold that settled in my head and finally affected my throat. It rapidly developed into catarrh and caused a miserable throat weakness. My head would become clogged during the night and there was a catharral dropping from the nose into the throat. Many days I had been unable to breathe other than through my mouth, and the constant hawking and spitting was almost unbearable. I had been treated by the best throat specialists here and in New York, but nothing benefited my condition. I obtained Hyomei, and soon found relief, the throat dropping ceased and my head began to clear. I continued with Hyomei for six weeks and after that time I was well in every detail. There has been no return of the trouble since, and I feel grateful in speaking well of Hyomei as it cured me when all else failed."

A complete Hyomei outfit costs \$1.00, and J. A. Clark will refund your money if it fails to cure.

**SIGNALS OF DISTRESS**

**Kentville People Should Know How to Read and Heed Them**

Sick kidneys give many signals of distress. The secretions are dark, contain sediment. Passages are frequent, scanty painful. Backache is constant day and night. Headaches and dizzy spells are frequent.

The weakened kidneys need quick help. Don't delay! Use a special kidney remedy.

Booth's Kidney Pills cure sick kidneys, backache, and urinary disorders. Kentville evidence proves this statement.

James Foster of Gasperau N. S. says: "For several months I had been very much troubled with lame and sore back which inconvenienced me very much in working. The pains in my back were so severe at times that I would have to stop my work. The kidneys secretions had also been highly colored and contained a heavy sediment. I had tried various remedies to relieve me but without receiving any benefit from them. I then learned of Booth's Kidney Pills through an advertisement and procured a box at J. D. Clark Pharmacy and found in them almost immediate relief. Today I feel as if I had a new back as it does not trouble me in the least. The kidney secretions have also returned and I feel better generally. Sold by Dealers. Price 50 cents." The R. T. Booth Co., Lt. Fort Erie Ont, Sole Canadian Agents.
