

**The Biggest Kind of a Change
that Ever Happened to Any Magazine
Has Happened This Month to**

THE SCRAP BOOK

THE SCRAP BOOK for July is issued in two sections—two complete magazines, each with its own cover and its own table of contents. One of these sections is an ALL-ILLUSTRATED magazine; the other is an ALL-FICTION magazine. Each is a mammoth magazine in itself. The one presents an overwhelming array of human interest articles and illustrations; the other an enormous tonnage of fiction—160 pages of absorbing stories.

Ten years ago I created a new type of magazine—the ALL-FICTION magazine. Now I am creating another distinct type—the ALL-ILLUSTRATED magazine. This is the age of specialization. The conventional magazine, with its smattering of illustrations and its smattering of fiction and its smattering of everything else, is no longer enough of any one thing to make it satisfying. The ALL-FICTION magazine and the ALL-ILLUSTRATED magazine, joined together as a unit, strengthen each other, and make something really big and forceful and convincing.

The Only Way to Know a Thing is to Try It

The two-section magazine idea is brand-new to the world. It is not quite new with me, however, as I have given it, at odd times, four or five years of thought. It first came into my mind in response to a desire to couple, in some way, the strength of the all-fiction magazine with the illustrated features of the conventional magazine. It has been a difficult problem to work out. Now that the idea is perfected, I wish to see what there is in it. It looks to me to be very good, but the only way to know a thing is to try it.

Two Magazines for a Quarter—Easy Money

The price of this two-part magazine is twenty-five cents, which is equal to twelve and one-half cents a magazine. Most magazines which were selling at ten cents have been advanced to fifteen cents. **THE SCRAP BOOK** in two parts means two magazines for twenty-five cents against thirty cents for two fifteen cent magazines.

A Fool's Identity.

Some of the best known people pass unrecognized by those to whom they should be known. Harold Frederick sat one night at dinner next a man whose very silence and taciturnity caused him the more closely covertly to survey him. Not a word was exchanged between the two. "Who was that hopeless idiot that I sat next to at dinner?" asked Frederick at the close of the meal. "That hopeless idiot was Cecil Rhodes," he was answered. It was the fact. The Colossus had been in one of the moods in which he would not talk, and Frederick, though he had seen his portrait a hundred times, had not recognized him.—St. James' Gazette.

FIRES IN NORTH PUT OUT.

Many Lots Burned Over—Settlers Had Hard Time.

Toronto, June 22.—Word has been received at the Parliament Buildings that a heavy rain is following along the line of the T. & N. O. Railway between New Liskeard and Moose Lake, and all danger of further fires in that district is over for the present.

Deputy Minister of Lands Aubrey White was informed from Webbwood that ten or twelve lots were burned over in the Township of Dunlop, and that Scott and Brown, jobbers, had five horses burned to death in Porter Township.

Mr. Henderson, Government agent at Sudbury, wrote that Moore and Moltrop had \$10,000 worth of supplies destroyed by a fire in the Township of Hurley.

At Chapleau the fire approached so close to the mill that it was with the greatest difficulty that the people saved their homes. The whole population had to turn out to fight the flames, and it was only after hours of hard work that the danger was averted.

Chief Fire Ranger Macdonald wired the department yesterday that the fires in James Township were all out. The damage in this district has been very heavy, but no detailed estimate is yet possible.

The chief ranger reports that five miles of the crown revenue between Silver Lake and Red Lake has been burned over, but most of the timber destroyed was Jack pine and the pine was practically left untouched.

A corps of specials was sent north yesterday by Hon. Frank Cochrane to make an estimate of the damage done. Their report, however, is not expected for a couple of weeks at the earliest.

The report that three people were burned in one of the fires has not been substantiated, and the department is not inclined to place much faith in the rumor.

GOVERNMENT 'PHONES SUIT.

Boards of Trade Approve Action of Alberta Government.

Prince Albert, June 22.—Associated boards of trade closed a very important convention here on Thursday, and it was decided to meet in Medicine Hat next year.

The business included a resolution approving the action of the Government of Alberta in taking steps to provide a Government telephone service and calling upon the Saskatchewan Government to take a similar action. This was unanimously passed.

The abolition of local improvement districts and substitution thereof of regularly organized municipalities was also urged. It was decided to ask the Dominion Government to name the point of redemption in case of the new provinces and nominate deputy receivers-general to reside at such points. More roadways through forests, increase in number of fire rangers and other steps to preserve timber were also demanded. Provincial Governments are to be asked to provide 50 per cent. of the cost of hospitals when the balance is provided by municipalities; this is in addition to ordinary Government grants for maintenance.

The Dominion Government will be asked to establish several customs outposts in Alberta and Saskatchewan, to facilitate handling customs business. Demand will also be made for more adequate postal service throughout new portions of the western provinces.

B.N.A. ACT SECOND READING.

Winston Churchill and Harnar Greenwood Support It.

London, June 22.—The British North America Act, as amended, passed the second reading yesterday. Winston Churchill and Harnar Greenwood supported it, pointing out that whilst the Government could not interfere between British Columbia and the Dominion, the way was still open for any province to make better terms if possible.

The "inalienable and unalterable" were omitted, because it was impossible to bind the sovereign Parliament. Mr. Greenwood indicated with pride as a Canadian the dignified and quiet way the Canadian Prime Ministers, including Mr. McBride, had brought the matter to the Colonial Office. Mr. Greenwood said the bill must pass by July 1. He said the Government intended it to pass.

Don't Like Lemieux Act.

Ottawa, June 22.—R. W. Bouterell, who is the only grand officer of the Brotherhood of Locomotive Engineers in Canada, returned yesterday from Quebec, where that body has been in session. The meetings were private.

He says that generally the engineers were not satisfied with Mr. Lemieux's Labor Disputes Act, but decided to leave the matter over for further discussion.

The locomotive engineers will hold their convention in Ottawa next year.

Dies of Lockjaw.

Belleville, June 22.—George Wilson Mitchell, son of James K. Mitchell of this city, died in the hospital early yesterday morning. He was 17 years old. Two weeks ago he stepped on a rusty nail, which penetrated his right foot. Lockjaw developed.

Was Instantly Killed.

Walkerville, June 22.—Harry Eastman, an employee of the Canadian Bridge Co. here, was struck by a falling girder yesterday and killed almost instantly. He was a young man, and only lately married.

Cattle Man Suicides.

Fredericton, June 22.—John Boyle of J. Boyle & Sons, cattle dealers, shot himself through the heart here yesterday morning, and died almost instantly. He fell off a wagon recently and his mind had been affected.

Booth Back to London.

London, June 22.—Gen. Booth of the Salvation Army returned to London yesterday from a tour of Japan and Canada.

To Clean Kitchen Range.

When cleaning the kitchen range, if the iron work is discolored by heat brush well over with soap, then cover thickly with black lead and allow this to dry before removing it. Repeat the process once or twice if necessary. If ammonia is used with the blacklead, a surface of very intense black will be

obtained. To remove grease rub with a rag dipped in soap. To get rid of tarnish scour with a little vinegar while the stove is warm and then wipe well with a rag wetted in cold water. To remove varnish stains from the hands rub with a little methylated spirit, wipe on a rag and wash thoroughly in soapy water.

Mice Like Bird Seed. Did you know how easily mice are lured by bird seed? It's rather a suggestive idea in the setting of traps. If a deep ruffle is tied tightly under the cage and held over the feed cups by an elastic it will help to keep them away appreciably, and what a little tragedy it must be for the wee canary to see peeping in at him and stealing his provender a mouse, even though he is only of infinitesimal proportions. None of us likes thieves in the night. When a new box of seed is opened, it should be emptied into a clean tin box and the seed poured into the cup through a funnel. In this way none is wasted, and there is no invitation to four footed partakers.
