CHOICE LOTS FOR SALE.

The lots still left in the Athletic Ground Survey are undoubtedly the best value offered in the city at the present time. Why is it that you can buy certain properties in the city to day for just one-half of the original cost? Simply because some persons were foolish enough to select a lot in an undesirable locality because it was cheap, and then build a good house on it. Such properties must be sacrificed when put on the market in order to affect a sale. Be Wise, Get a Good Location. The best residence property is always the cheapest. When you want to sell you will have scores of purchasers. The man who would build a good house on this property worth from \$500 to \$1000 could readily dispose of it before it would be ready for occupancy, at an advance of \$500 to \$1000, and still give the purchaser good value, as the actual value of these lots is certainly double what is asked for them. Call at the Business College to see the plans and get prices.—D. McLACHLAN.

TO OUR CUSTOMERS.

We have just put in, at great expense, a WONDERFUL MACHINE, heated by steam, work only passing through the rollers once; the result—WORK IS EASIER, WILL NOT BREAK, and will last much longer than when ironed by the old method, heated by gas, which has to pass through the rollers eight times.
P.S.—We have also added a newly invented machine to iron the edges of Collars and Cuffs.

The Parisian Steam Laundry Co. of Ontario, Limited.
London, Hamilton and Toronto.

WE HAVE ON HAND A LARGE SUPPLY OF

LIME, CEMENT, SEWER PIPE, CUT STONE.

&c. All of the best quality and at the LOWEST POSSIBLE PRICES.

Township Councils.

HARWICH COUNCIL.

A meeting of the council of Harwich was held on an adjourned court of revision on the assessment roll and for general business. The minutes of May 9th and 26th were read and adopted.

The engineer's report on the construction of the Scott drain was received and read. No person desiring to withdraw or add their names to the petition it was moved by Clark-Bentley that the report, plans, etc., be adopted and the clerk prepare a by-law for same.—Carried.

The engineer's report on the McCoubrey drain was read and after the reading Silas Rumble withdrew his name, thus leaving less than the required majority on the petition. Moved by Clark-Bentley that the report, plans, etc., of the engineer on the McCoubrey drain be not adopted, and that the petitioners pay the cost of survey, etc., as per drainage act by-law for same.—Carried.

Communications were received as follows: W. H. Harper with bond for guarantee of treasurer, Jas. Leslie amount \$2,500 on Railway Pass Assurance Co., the premium being \$12.50 per annum. The bond seeming in every way satisfactory was accepted on motion of Campbell and Hufman. A. A. Dresser with estimates for bridges on east townline; R. Taylor re H. and D. McCully's fence on road at creek; H. C. J. at Toronto giving notice of quashing of local option by-law of the township, also with notice that the taxing of the costs in connection with the same would be taxed at Toronto on the 15th inst.; A. P. Stephens and H. Soobie re damages to land for travel over it during the injury to a bridge; Pere Marquette railway asking for information re Scott drain; E. R. Snook stating that he had not oil tank in connection with the same would be taxed at Toronto on the 15th inst.; A. P. Stephens and H. Soobie re damages to land for travel over it during the injury to a bridge; Pere Marquette railway asking for information re Scott drain; E. R. Snook stating that he had not oil tank in connection with the same would be taxed at Toronto on the 15th inst.; A. P. Stephens and H. Soobie re damages to land for travel over it during the injury to a bridge; Pere Marquette railway asking for information re Scott drain; E. R. Snook stating that he had not oil tank in connection with the same would be taxed at Toronto on the 15th inst.

The clerk of Blenheim served a copy of the engineer's report on the McCoubrey drain on the 15th inst. Moved by Clark-Bentley that the report, plans, etc., of the engineer on the McCoubrey drain be not adopted, and that the petitioners pay the cost of survey, etc., as per drainage act by-law for same.—Carried.

R. Tedford made complaint as to trees being cut on the 7th and 8th concessions, L. E. Moved by Clark-Bentley that the parties who cut trees on road allowance of 7 and 8 concessions be notified to attend the next meeting of council on July 11th, to make explanation.—Carried.

H. Bentley reported re drainage at 18 and 19 side road at Mull that the sewer under the railway was too small and should be enlarged to a 36 inch pipe. Repor adopted and clerk instructed to notify the M. C. railway to that effect.

N. Huffman reported re grievance of R. Sewell as to drainage, the sewer of the L. E. & D. railway having blocked up his outlet, and recommended that the board take proceedings to remedy the matter; also reported re claim of G. A. Morgan for damages to rig on road near Fargo, that a fresh but moved the plank out toward the road causing the accident, and recommended no action be taken. The report adopted on motion of Clark and Campbell.

Jas. F. Smyth made application to have the Proctor drain repaired and improved. The report adopted on motion of Clark and Campbell.

Campbell-Clark that the clerk write to W. G. McGeorge, C. E., to prepare plans, specifications and estimates re bridge over McGeorge creek and McCargon drain on the townline between Harwich and Howard, and report on or before July 2nd.

Huffman-Campbell, that the reeve and Campbell be a committee to meet the Howard council at their meeting on July 2nd prox., to inspect plans, etc., re bridges on townline and call for tenders.—Carried.

Clark-Bentley, that the clerk notify the R. E. K. James, commissioners that the local option by-law had been quashed by the H. C. of Justice.—Carried.

Bentley-Campbell, that a committee of the whole council be appointed to investigate the bridge over Indian creek near the Eau and also inspect the grievance of J. Laird and also the grievance of J. Bentley and J. Townsend, to meet at 10 o'clock on Monday, June 20th.—Carried.

Huffman-Campbell, that as the time for the completion of the R. L. Smyth and Geo. Smyth ditches has elapsed and the work is not completed that the clerk notify the township engineer to proceed and sell said work.—Carried.

Clark-Bentley, that the time for the completion of the Duke, Howard and Lewis drains be extended for two months from date.—Carried.

Also that in regard to the grievance of A. McNeven the council request the parties to take steps to put it either under the D. & W. act or the drainage act.—Carried.

It Must Come.

As inevitable as the changing seasons of the year is the change which comes to every woman. And just as one anticipates the changes of other seasons it is wise to anticipate this change of season and prepare for it. In this way the discomforts and disasters suffered by many women at the period of change can be avoided or overcome.

Dr. Pierce's Favorite Prescription, a medicine for every season of woman's life, entirely meets the needs of women at this period of change. It cures the physical ills and relieves the mental anxiety and depression usually associated with this critical period. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep.

\$500 REWARD FOR WOMEN WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable uniform success, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription are ready to offer a reward of \$500 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

J. S. Carlisle, Esq., of Manchester, Coffee Co., Tenn., writes: "I have been using your medicine for the last sixteen or eighteen years in my 'Pocahontas' and 'Lafayette' combined. Your 'Favorite Prescription,' 'Golden Medical Discovery' and 'Pleasant Pellets' are the best medicines for the diseases for which they are recommended that I ever used. They have been a life-saver to me at times of change of life. I have been recommending your medicine to many afflicted women and have also guaranteed that if it did not cure I would pay back the money spent for it. I have told our druggists that if the people came back and said Doctor Pierce's medicine did not give satisfaction, to give them back their money and charge it to me. I have never been called upon to refund. I have never found anything to equal the 'Favorite Prescription' for diseases of women."

Dr. Pierce's Common Sense Medical Adviser is not free on receipt of 31 cent stamps for the paper covered book, or 50 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

Treas. Raleigh, Harwich assessment Laurie drain	392.29

The court of revision on the assessment roll was taken up, and on motion of Huffman-Campbell, the following changes were made and the court of revision closed:

Assessment of A. Crawford, dog struck off; J. A. McBrayne, dog struck off; Mrs. Della Burk, assessed as owner of ne pt 3, con 2, W.C.R., in place of Loanm Burk, deceased; S. and Smith Ashby struck off from assessment with Mrs. Coughlin at Fargo; Wm. Mann on railway lands at Erieau reduced from \$200 to \$150; Thos. Fullerton, as tenant on ne pt 1, 2, 4 W.C.R.; Levi Jalpe, as tenant on pt 5, 2 R.T.; Art. Jenner, as tenant on pt 1, 2, 18, 3 L.E.; Grant Nablo, M.F., pt 18, 13 L.E.; Jno. Clark and Alex. Clark, as owners on cor 20, 9 L.E.; Jas. Holmes, owner pt 19, T. L. R.; W. Kelbrath, tenant blk. b. 10 and 11, 2 R.T.; J. E. O'Keefe, R. Smith, Chris. Smith, A. Sheldrick, Arch. Park, and J. A. Elliott as owners of pt lot "C" W.C.R.; Pere Marquette railway assessment, reduced from \$60,000 on account of erection of coal hoists at Erieau.

The following by-laws were provisionally adopted on Harwich, Scott and Lucas extension drains.

Meeting adjourned.

Geo. M. Baird, Clerk.

Skirt Management.

"Inherent grace is no greater in French girls than in English girls," says an authority. "But in the dainty art of carrying their skirts in their hands while taking the air of the boulevards French girls are incomparably superior to their English cousins. The secret is that the French maid's petticoat is made to clear the ground, while the English girl's drop skirt is as long as the outer garment. The English girl must lift both skirts to prevent their trailing in the dirt of the streets. She grasps a great bundle of unwieldy cloth so heavy and clumsy that almost invariably she pulls it around in a way that plays havoc with the effectiveness of her gown. The French demoiselle has only the outer skirt to care for."

To Waterproof Shoes.
The following is a useful recipe for preventing rain penetrating through the soles of boots, which with the modern expeditious modes of tanning are often very spongy. Melt together in an old pan two parts by weight of tallow and one of common rosin. Warm the soles of the boots, and apply the liquid warm, but not hot, and so long as it will sink in. A pair of badly hammered, porous soles will take up as much as four ounces of the mixture, which will prevent the absorption of as much water. Repeat the application as the soles wear, and it will greatly increase their durability. The upper leathers may be treated in the same way, but the rosin diminishes their pliability.

Don't brood over the past, or dream of the future, but use the present and get your lesson from the hour.

Minard's Liniment is used by Physicians.

A rather large cigar box makes a most useful and dainty looking receptacle for gloves or ribbons. If it happens to retain an odor of tobacco put it in the sunshine for a little time before proceeding to decorate it. Then cover the outside of the box with pretty colored linen. The inside is glued firmly and the outside stretched tightly and held in place with little brass nails. The lining of the box will be all the better for a little padding of cotton wool sprinkled with sachet powder. The softness of the padding is attractive looking, and the perfume imparts a pleasant fragrance to the contents of the box. Smaller cigar boxes, covered with chamol leather or the wrist parts of long tan or gray evening gloves and prettily lined with satin, padded with cotton wool, make charming little jewel cases. These boxes should contain in one corner a small wash leather pincushion for brooches and lace pins and in another corner a tiny bag for rings.

MRS. ROBERT L. PARSONS.

A Business Woman Who Believes in the Broad Field For Women.

Mrs. Robert L. Parsons, head of the Chicago School of Physical Education and Expression, regards the indisputable fact that more and more married women are becoming prominently identified with business and professional life yearly as the natural culmination of many slow growing causes. It would be almost impossible, she believes, for other conditions to prevail.

"Ambition, the sense of pleasurable power in successful accomplishment, these spur on the business or professional woman just as they do her husband or brother. The broader education

MRS. ROBERT L. PARSONS.

tion now general among women gives at once the means and the possibility of telling work in the field outside the home. Of what use is this education unless applied to some practical purpose? This, I believe, is the underlying thought that lives in most thoughtful women. It is but another expression of the creative impulse common to all.

"As to the right or wrong of married women entering the business world it would seem difficult to me to come to any abstract decision. One woman can scarcely judge for another. Personally I cannot understand how any mother of young children can care to leave them for the sake of any outside endeavor, but there are plenty of women with no ties of this kind. And, as to the theory that the married woman in business is unjustly occupying the place of the unmarried worker who must earn her own bread and butter, the moment work becomes in the slightest degree individual or distinctive this theory is disproved. And I cannot think that the repression or elimination of the creative impulse that sends the otherwise unoccupied married woman out into the larger field could be productive of any good."

—Chicago Record-Herald.

Be Independent.
The idea of the propriety of house-keeping as the work for women owes its origin to a very natural feeling that woman as well as man should do her part of the world's labor. It is only just. But man chooses his field; why not the woman? For what reason is she bound to confine herself to one kind of work if she can do another kind better, more profitably to her family and more to the advancement with her nature and abilities?

Wherever a woman can best employ her powers, there is her sphere. As she lives best for herself, so she lives best for all those associated with her. The idea has obtained too long that woman's duty is to some one else. If it were in truth a thing so noble and excellent she would not so long have had a monopoly of it, says the Business Woman's Magazine.

"Woman's cause is man's cause; they must rise or fall together."

Are not women the mothers of men? There are many things women should know and practice.

Banish fear, worry and doubt. Think your own thoughts. Live your own life. Others may advise, but they cannot see life from your point of view.

Saving Steps.
"Never go empty handed." This is what mother used to say to me so many times when I was a child. If I was going upstairs I must look about me and see if there wasn't something downstairs that belonged upstairs that I could carry up and put into its place, and so on from one part of the house to another. She always said it would be a great help in one's housekeeping and save lots of unnecessary steps if they would just remember that little rule, and, although I fall in many ways to practice all the good things she taught me, I very often find myself saying to the children as they help about the work, "Never go empty handed."

Children have such a wonderfully unconscious way of walking right over things instead of picking them up and restoring them to their proper places. So I shall often repeat the little rule to them, partly to help them and partly to relieve my own feelings at their carelessness, and if they do not always obey the injunction now while they are young they may in after years remember it as one of mother's little helpful rules.—Boston Brown Book.

For a Ribbon Box.
A rather large cigar box makes a most useful and dainty looking receptacle for gloves or ribbons. If it happens to retain an odor of tobacco put it in the sunshine for a little time before proceeding to decorate it. Then cover the outside of the box with pretty colored linen. The inside is glued firmly and the outside stretched tightly and held in place with little brass nails. The lining of the box will be all the better for a little padding of cotton wool sprinkled with sachet powder. The softness of the padding is attractive looking, and the perfume imparts a pleasant fragrance to the contents of the box. Smaller cigar boxes, covered with chamol leather or the wrist parts of long tan or gray evening gloves and prettily lined with satin, padded with cotton wool, make charming little jewel cases. These boxes should contain in one corner a small wash leather pincushion for brooches and lace pins and in another corner a tiny bag for rings.

Stained Spectacles For Beauty.
"Tinted spectacles," said a New York optician who makes a specialty of them, "are mainly for women who demand that their beauty as well as their sight shall be considered. A light gray or a pale blue eye looks very weak and unattractive through ordinary eyeglasses. By slightly tinting the lens we can add very much to the color of the pupil of the eye and to the general attractiveness of the face. The tinting does not at all interfere with the magnifying properties of the glass. In fact, some oculists send us prescriptions for tinted glasses, maintaining that for blue or gray eyes they are far superior to the ordinary crystal glasses. Blue eyes absorb more light than brown eyes, so that any tempering of the sun's rays is sure to be beneficial."

The Boy's Room.
When a boy's room is not furnished with a couch the boy is extremely apt to lie on the bed to read, the chances of his removing his shoes or protecting the white spread before lying down being extremely slender. Rather than indulge in vain remonstrances banish the white spread altogether and substitute denim, blue, if it can be made to fit into the color scheme of the room. Have the center of the spread plain, with a border twelve to eighteen inches deep of figured denim, fleur-de-lis or something similar. The denim takes on a better color, as repeated washings dull its first brightness. It does not easily wrinkle, and the comfort of the boy is insured.

Starts the Hair.
Hair experts say that if women keep on wearing pompadours it is only a question of time before they become bald. To be sure, it will not be quite so far reaching as a man's, but had enough to destroy their good looks. As a forehead reaching to the middle of the crown is not considered a mark of beauty, it behooves women to "watch a little out" for the receding hair line. One way of preventing its becoming noticeable is when arranging the hair for the night to brush it in the opposite direction from which it has been worn all day. This rests the hair and keeps it from becoming warped in one direction.

The Dainty Desk.
Old brocade, or, rather, brocade in old time colorings and patterns, as well as tapestry, is being utilized with marked success for women's desk fittings. Blotters, paper and envelope racks, letter books, calendar frames, notebook racks, stamp and pen boxes, etc., show coverings of these soft luscious fabrics, dull gilt braid being employed for the finishing touch. Chintz is likewise used for desk sets, but the more delicate tinting of the other materials, tapestry particularly, has won for them a greater measure of popularity.

Cold Cream.
No toilet table is complete without a jar of cold cream made of oil of white poppy, four ounces; oil of almond, two ounces; white wax, one-half ounce; balsam of Peru, two drams. Melt the wax, add the oils and beat together until they form a cream, then add the balsam and lastly a little rosewater. This is an emollient which may be used with good effect once or twice a week, after the bath, to whiten and soften the hands, neck and arms.

A Medical View of Whipping.
Against this subordinate sway of savagery, this proposition to rule little children by terror and by pain, the Medical Record most emphatically protests. The whip inspires terror of itself and not of the crime. Its physical effects, quite aside from the pain engendered, are bad and may be deplorable. Its moral influence is shameful and degrading.—Medical Record.

Clean Laces In Naphtha.
Lace will not thicken if washed in naphtha. Immerse in the fluid and let the lace remain for an hour or two. Then gently squeeze between the hands, rinse with clean naphtha and pull into shape. It will dry almost immediately.

Running is one of the best exercises in the world for girls. It contributes for one thing that elasticity without which grace is impossible and spurs every bodily function to its appropriate duty.

Wood alcohol rubbed on a polished table stained or marred by a hot dish will restore the finish if followed by a polishing with linseed oil.

The keynote of your home harmonies is sounded by the hall. See that the tune is welcoming and pleasant.

Fashion worn without taste is characterless and often hideous.

Two in one
SHOE POLISH
the perfect Dressing for both
Ladies' and Men's Shoes that takes the place of the liquid-and-paste polish.
It does the work in half the time, twice as easily and twice as well.
