SHERLOCK HOLMES TO-NIGHT.

Among the many peculiar characters in the "Sign of the Four," a play that has won an international reputation, is a one-legged man. It took Manager Edward E. Rice several months to secure the services of an actor minus one limb. Finally after he had sent three agents on a hunt for this particular kind of a professional, an actor with one good leg and part of another walked into Mr. Rice's Broadway office one day and applied for a position. Needless to say he was immediately placed in the cast of the "Sign of the Four," and he, despite his affliction, possesses much histronic ability. This is one of the most important parts of the drama.

Dodd's Kidney Pills Cured W. J. Dixon's Rheumatism

He was so Bad he had to use a Stick to Walk and Could not Lace His Shoe.

Barwick, Ont., Oct. 30.—(Special).—These cold, wet fall days are full of Rheumatism and nothing can be more timely than news of an effectual cure of that curse of the Canadian climate. Such a cure William John Dixon, of this place, is certain he has discovered in Dodd's Kidney Pills.

"I had an attack of typhoid fever," says Mr. Dixon, "and after I got over it Rheumatism set in. I had pains in my back and in my right hip so bad I had to use a stick to walk and had no comfort in sleeping. I could no more than dress or undress myself for nearly two months, and for three weeks I could not lace my right shoe or put my right leg on my left knee.

"Acting on my brother's advice, I began to use Dodd's Kidney Pills, and after taking three boxes I was able to walk around and do my work. Now I am well and I recommend anyone who has Rheumatism to try Dodd's Kidney Pills."

Report adopted.

Moved by Sykes and Wellwood, that whereas in the past it has been the practice of the Council to pass a by-law at the beginning of each year appropriating certain sums of money for the improvement of roads and bridges in each division, and it has been the practice of the commissioners to spend a considerable portion o fsuch appropriation in ditching and tile draining along the road, which is more for the benefit of the adjoining lands than the road, and in our opinion the practice is not a proper one, therefore, be it resolved; that in the future all ditching and tile draining along the road to be paid out of the appropriations shall not be done until the consent of the Council is obtained by resolution, and the clerk prepare a by-law to conform with the resolution.—Carried.

Council adjourned.

A. E. ROBINSON, Clerk.

IT WILL KEEP

It is not always necessary to use a whole bottle of Scott's Emulsion. What is left will keep. We have seen a bottle of our Emulsion three years old that is still good. What other preparation of cod liver oil will keep sweet and permanent for half that length of time? Scott's Emulsion is always reliable because it's always absolutely pure.

We'll send you a sample free.

Not a Messenger Boy.

A beggar accosted a man on the street the other day and poured out a tale of woe, to which the gentleman patiently listened. Then he took out a card bearing his name, which was that of a well known philanthropist who contributes largely to an organization working for the relief of the poor. This he handed to the man after writing an introductory note thereon. The beggar turned away with disgust written on his face and the parting remark:

"Say, d'ye t'ink I got time to beat it up to dat joint? I'm too busy workin' dis pike to waste me time dat way. Wot d'ye t'ink I am—a messenger boy?"

YOUR WORN-OUT STOMACH.

What it needs is the strengthening influence of Dr. Hamilton's Pills—they work marvels where the stomach and digestion are poor. In one day the appetite increases and the whole system is rapidly strengthened. No stomach specialist could write a better prescription than Dr. Hamilton's Pills of Mandrake and Butternut. At all dealers in a yellow box, price 25c., or five boxes for one dollar.

AUTUMN MODES.

Natty Millinery and Distinguished Tailor Suits.

Early autumn millinery shows much diversity. That comparatively small round hats and toques will be popular seems probable from the showing of such shapes as the one here sketched. The cavalier hat is predicted as the picture hat for the season, and higher crowns mark some of the new models.

For autumn traveling the most practical and satisfying scheme is that of the Frenchwoman. The dress is tailor made, a coat and skirt combined, in a fine serge or light cloth. The jacket should be close fitting, well shaped to the figure at the back and displaying a straight buttoned front. These fronts are shaped toward the side and fall quite straight in front, which gives a pretty roundness to the figure. The loose, floppy sack coat is never adopted by the chic Parisienne, excepting when

AUTUMN HAT.

fashioned as an evening wrap, a traveling overcoat or motor coat. Worn with this coatee is a blouse chemisette of linon, embroidered with a dainty cravat and collar, which is finished by a shapely belt in tan leather or white kid, fastened in front by a deep buckle. The skirt is cut closely round the hips, allowing plaits or volants en forme toward the base to give the necessary fullness. It must not be made too short, but well off the ground, sufficiently to display a well shaped boot or shoe, not a dancing slipper. A neat tan or black boot or shoe is the most practical, comfortable and the prettiest for such use.

The short, close fitting coats require to be exquisitely cut, and, this granted, there is no doubt that they cannot be surpassed for quiet elegance and comfort. For what exists more awkward, tiresome and hot than a long heavy tweed coat in conjunction with a skirt of the same substantial fabric during the autumn days, when the sun's strength is still overpowering?

Salad Points.

Mold tomato jelly in a shallow pan. When firm cut in cubes and scatter over a bed of cress or shredded lettuce. Pour over it a French dressing.

Unpeeled radishes, sliced thin, mixed with a few pearl onions and served with a French dressing, make an appetizing salad.

A salad that suggests a flower is made by placing a hard boiled egg cut in two in a cup of lettuce leaves. Serve with mayonnaise.

A salad of beans, celery and onions is good, the beans having been baked with a little salt pork.

Chop some celery, blanched almonds and cabbage, add shredded lettuce and mix with a cooked dressing.

Beets and pearl onions are nice combined, as also are asparagus tips and carrots, the carrots cut in tiny pieces. Pour over it a French dressing.

In Trunk Packing.

In packing a trunk, use heaps of paper with tailor made garments, and pack them as much like a man's suit as possible. Never forget that wrinkle, and many other wrinkles will be avoided. And of materials, remember serge and most voiles pack magnificently, alpaca always creases, faced cloth wants care, cashmere does crumple, but soon shakes out. Velvet, of course, must never be creased at all; crepe de chine travels very well on the whole; silks vary, and anyhow should be treated with discretion.

Silk or Voile Evening Skirt.

This skirt shows a quite plain model cut in the prevailing fashion, with considerable fullness around the feet,

which starts from just beneath the hips. The skirt has a fairly long train and is set to the waist with a few gathers in the immediate back.

Hot Buttermilk.

Hot buttermilk will often give relief to a person suffering from a cough. It works wonders taken either hot or cold by persons troubled with indigestion. It will often cure stubborn cases of constipation, says a person who claims to have gained ten pounds in as many weeks while taking a quart of buttermilk daily.

Eat Apples.

A recent authority asserts that the generous use of apples will improve the disposition, removing all disagreeable feelings and making existence more enjoyable for all. He also declares that apples are an infallibe cure for the drink and tobacco habits and that their use as a daily article of diet will have a wonderful effect upon the whole system.

BROKEN SLEEP — TIRED NEXT MORNING.

Sleep not only rests, but builds up the body. Cut down the hours of sleep, and you cut down health in the same proportion. Rebuilding then ceases, nerves go to smash, you grow tired, weak and wretched.

To restore sleep you must get more bodily strength, more nutritious blood, healthier nerves. Ferrozone solves the whole problem, makes you sleep soundly, gives endurance, vim, ambition. No more morning weakness—instead the fire of youth will run in your veins, supplying abundance of energy and vigor. Witchery expresses the instant effect of Ferrozone; try it.

Raising Children by Law.

An experiment is being made by the town of Huddersfield, England, in municipal child-raising. According to a writer, the town authorities have determined to send physicians and women health officers to the home of every poor family where a child is born, and the mother is to be instructed in the care of the child. A day nursery has also been established, where children will be cared for. The Mayor of the town has offered a bonus of $4 to every child born in one of the districts that shall attain the age of one year.

SELL YOUR COLD FOR $1?

You surely won't stop at a dollar bill to cure that horrid, sniffeling cold? Go to any druggist and get "Catarrhozone" and your cold will be a thing of the past. There is almost witchery in the swift way Catarrhozone kills colds. But when you consider the penetrating, healing and antiseptic qualities of Catarrhozone perhaps it's not so wonderful. Certainly there is no remedy half so prompt for colds and catarrh as Catarrhozone. Refuse a substitute and insist on having only "Catarrhozone."
