In our report of the proceedings of the last meeting of the Town Council the resolution authorizing the issue of Water and Light bonds was somewhat mutilated, by the accidental omission on the part of the printer of three or four lines from the body of the resolution, making it appear as if the bond was redeemable on the 15th day of March in each and every year, whereas the bond itself being redeemable on the 15th day of March 1934.

On Sunday evening, North Star Lodge of the I. O. O. F. marched in regalia to the Methodist Church, where the pastor, Rev. H. E. Thomas, delivered a very practical and impressive sermon from the text "The Man, Christ Jesus". In extending a welcome to the Oddfellows, of whom there were quite a number present, he pointed out that since the foundation of the order 85 years ago an amount of money reaching well up in the millions had been expended for the benefit of the widow and fatherless, and the order had found its way into almost every country in the world. The choir rendered appropriate music for the occasion and Mr. Britton sang a solo.

The nomination proceedings to fill the vacancy in Ward Three, passed off very quietly on Tuesday, D. Murray M. D. and Archibald Ferguson being the only candidates nominated and consequently were declared elected by the Town Clerk. Mr. Ferguson is a new man at the Council Board but no doubt will make an efficient Councilor as his business abilities are well known.

In accordance with the provisions of Regulation 20 (2) of the School Law Manual, I hereby appoint Friday May 13th to be observed as Arbor Day.

Dickie's Shaft-Holder

The Latest and Best Improved

THERE'S MONEY IN THIS FOR YOU

Invented by WM. DICKIE, of Campbellton, N. B., Canada.

The above cut shows a new and useful improvement in Shaft-Holders, which is simple in construction, cheap to manufacture, durable in use, and ornamental in appearance.

This Shaft-Holder, it will be noticed has a slot through it, which makes it very light. The lining is held in place without the aid of screws, rivets or other fastenings. When the lining is worn out it can be readily replaced, without disturbing other parts of the device.

Any part breaking can be readily replaced, and at a small cost.

When made of light metal the device is very ornamental and sets the harness off to advantage. Shaft-holders are generally the most cumbersome and awkward part of that portion of the harness.

This valuable invention is fully protected by a strong Canadian patent, and other foreign patents pending. It is for sale either outright or on royalty and on most reasonable terms. For particulars address:—

Cock-a-Doodle-do.

We are justified in crowing over our competitors. Our cocks, stopcocks, etc., are cock of the pipe. Our joints don't leak. Sewer gas we land out. We don't find it in the house except when we fix some other fellow's plumbing. Ever have your house tested for sewer gas and leaks? That's one thing we do. Then we fix things. It's worth the cost.
