## **NIAGARA FRUIT TOOK HONORS**

At the Great Exhibition Just Closed at Toronto.

H. Marshall, of This City, Carried Off Many Firsts.

### Of Course the Standard of Other Years Not Reached.

Niagara district has scored another riumph for its fruit at the National Exlibition this year. Whatever may be aid to the contrary, the display this ear was quite up to the standard as ar as quantity went. Compared with ormer years not so much may be said. Perhaps of all the display plums rame learest to being in the best state of ma hrity. Then pearins, apples, pears, juinces, grapes, in the order named. If he grapes had only been colored the they would have made a norable how. To eastern Ontario must be con eeded the palm for all that is nest in ipples, and although not so large truit perces, and account not so large truit was shown as has been seen, the sauties were beautiful and exam. The exhibitors were delighted with their new quarrers, and too much cannot be said in raise of it.

On entering the fruit display this year, from the flower and plant section, the intario Agricultural Department had a mome the hower and plant seerer, the matrix of Agricultural Depathment had a lery tasterully arranged show of fruit in glass jars, consisting of all the varieties grown in Ontario. Some twenty lifferent sorts of fresh tomatoes, carefully ticketed, helped this exhibition out conderfully. Neat placards were arranged about, giving various information in seference to truit commerce, etc. The whole section was edged with palms and lowers, and was a very creditable one adeed, instead of cramped space of the ild dingy building, with the fruit scattered ail over, the whole display is now spread before the visitor.

One bad feature that cannot be passed ever, is the placing of fruit indiscriminately. This has lately been a feature, if such it may be called, at several big hows, For instance, on a table, you will find a collection of fall apples, then applies in half-a-dozen diasses, next a collection of plums, and again some more fall apples. The object of fruit exhibitions is not to score one variety of apples, or a collection of amples against

ection of plums, and again some more all apples. The object of fruit exhibtions is not to score one variety of apples, or a collection of apples against a ollection of grapes or plums. Keep the actions together; grapes all their own; tipples their own. Those interested, as well as the judges can then see just where they are at.

Arranged on the east side of the building were some fine fall collections of

Arranged on the east side of the building were some fine fall collections of Iruit, made by the St. Catharines Horicultural Society, and the Cold Storage Co. of the same vicinity. These two collections took first and second prizes espectively. A feature of the fruit prize tshibit was the samples of Triumph and Richmond peaches, and Washington Jums. Sweet Bough, Mann, St. Lawence, McIntosh apples, and Rogers No. 19 grapes, took the eye in the other. W. E. McCalla, of St. Catharines, had the others going all the time in this section, and was a good third for a single axhibitor.

chipitor.

A casual glance over the red, blue and rellow tickets showed St. Catharines nen away to the front, close followed by Queenston, Homer and Homilton. Of the choice of the choi nen away to the front, close followed by Queenston, Homer and Homilton. Of the above, L. Hagnes, Bunting, Ferminger, F. G. Stewart, R. H. Dewar, of Fruitland; H. Marshall, of Hamilton, took the lion's share in plums, pears, peaches and grapes. H. Dempsey, Rednersville, and P. C. Dempsey, of Trenton, along with some Dixie and Lindsay men, were the fortunate ones in apples. Just a few of the very choicest plates of fruit, and the exhibitor might be mentioned:

of fruit, and the exhibitor might be mentioned:

Northern Spys, P. C. Dempsey, first; Rox Russett, and R. I. Greening, H. Marshall, Hamilton, firsts; T. G. Bunting, of St. Catharines, took the red ticket for five varieties of peaches, five of each, the same for two varieties, and first on single plates of St. John's. These last were by long odds the best peaches on the tables. Fifteen varieties of grapes, three bunches of each, L. Haynes, St. Catharines, first; F. G. Stewart, Homer, second; Clapps Favorite Pears, five, Geo. H. Wild, Hamilton, first; Sheldons, Howells, Seckles, H. Marshall, firsts; twelve plums, Abundance, L. Haynes; Climax, S. Prest Stamford; Côl's Golden, Geo. Wild, Hamilton, second. Damsones, Wild; Reine Claude, Haynes; Pond's Seedlings, Bunting, Grapes, Campbell's Early, Mooro's Early, Merrimack, F. G. Stewart, firsts; A. O. V. Pears, baskets, H. Marshall, first. Bartletts, Marshall. Box fancy Ontario apples, Marshall. Plums, Bradshaw, baskets, Marshall.

In the estimation of several fruit men, H. Dempsey's show of forty varieties of apples, was a really fine one. It is said that there was not a wormy apple in the whole collection. Of course it is a the second of the control of course it is a the develoe collection. Of course it is a the

Bunting. Grapes. Campbell's Early. Moore's Early, Merrimack, F. G. Stewart, firsts; A. O. V. Pears, baskets, H. Marshall, first. Bartletts, Marshall. Bunts, Bradshaw, baskets, Marshall. Bunts, Bradshaw, baskets, Marshall. Bunts, Marshall. In the estimation of several fruit men, H. Dempsey's show of forty varieties of apples, was a really fine one. It is said that there was not a wormy apple in the whole collection. Of course it took the honors. F. Haynes, of St. Catharines, had fifteen first prizes in grapes alone. Stamford vicinity gobbled the ribbons in beaviest bunches, however. Pears as a whole were not very satisfactory. Bart. Letts, Louise, and Augonleme, were best. In plums, Burbanks, Bradshaw and Washingtons, were No. I. Taken altogether plums were grand. R. H. Dewar, of Fruitland, had on show here some German prunes, of a beautiful blue, finely rounded. Mr. Dewar took first among a host of plates.

Well worthy of the enthusiasm of the crowds was the showing of fall apples from Albany and Dixie. No grander fruit than the Alexanders, Duchess and Astrachans were ever seen at any fruit show anywhere. The warm colorings of these sections, stood out in brave contrast to be greener displays of winter fruit. Perhaps, best of all, for four days, was tions of praise meted out by the people of half a continent on behalf of the little golden spot of Lincoln and Washingtons and Vashingtons and of Lincoln and Washingtons of Lincoln a

10 and 12 James St. N.

### GOOD TEMPLARS.

GOOD TEMPLARS.

Last evening was flower night at International Lodge, and many handsome floral offerings were taken by the members. But handsome as the flowers were, there were none handsomer than the ladies who graced the meeting with their presence. The following programme was presented; Plano solo, "Kilties' Serenade,' Miss L. M. Boniface; song, "Norine Maureen," Miss Mary Morison; recitation, "Scotch Words," J. Fleming, song, "True, True Till Death," W. Armstrong; recitation, "The Road to Heaven," Mrs. F. Skedden; song, "The Midshipmite," D. Housego. During the evening two candidates were imitated and, three propositions for membership were received.

### PRESIDENT WAS FINED.

First Stage of the Miners' Case in Cobalf.

Cobalt, Sept. 6 .- The first stage in Cobalt, Sept. 6.—The first stage in what Mr. Ardngh, counsel for the defence in the case against officers of the Miners' Union, characterized as the most important law case that has been tried north of Toronto, was concluded this afternoon, when the charges against Roadhouse and Hewitt were adjourned until such time as the trial case against McGuire had been leard on appeal before a higher secure. At the morning sitting Magistrate Brown had held that he had jurisdiction in the case, and had sentenced. President McGuire, of the the had jurisdiction in the case, and had sentenced. President McGuire, of the union, to six months' imprisonment or a fine of \$500. Mr. Ardagh, for the defence, appealed, and it was decided this afternoon that until it is seen whether the chigher court, will uphold or quash Magistrate Brown's decision judgments in the numerous other cases should be suspended.

This atternoon witnesses were called by the prosecution to show that employees from the Buffalo, Cobalt Lake and LaRose mines had been at the meeting on the square addressed by Road house.

Magistrate Brown asked that an understanding should be made on both sides that no public meeting of any kind should be held or any other proceedings taken which would alter the situation In any way while the cases were before the courts. After a conference with 0rganizer Roadhouse, Mr. Ardagh declared that his clients had consented not that his clients had consented not that his clients had consented not to on the other side of the line many Jana.

ganizer Roadhouse, Mr. Ardagh declared that his clients had consented not to hold any public meetings whatsoever while the matter was before the courts. They would also undertake that the appeal should be heard with all possible expedition.

### LIFE FOR BOY.

15-Year-Old Lad Sentenced to Life Imprisonment at Hard Labor for Murder.
Bath, Me., Sept. 7.—Sidney K. Preble,
a 15-year-old boy, was sentenced to 4fe
imprisonment at hard labor by Justice
Whitehouse in the Supreme Court today, following his conviction for murder
of his companion, Norris W. Heath, 18
years old.

At the trial it was testified that the
boy was mentally deficient. This may
have accounted for his action when
hearing the evidence. He bowed three
times to the court and a broad smile prisonment at Hard Labor for Murder.

times to the court and a broad smile stole across his face for the first time since his trial began

## HUM OF BINDERS.

CUTTING NOW GENERAL THROU OUT MANITOBA

me Wheat Marketed-Late Indicate Much Improvement —
Threshing Will Commence at Some
Points Early Next Week.

Points Early Next Week.

Winnipeg, Sept. 6, Cutting is now well under way throughout Manitoba, and it is estimated that at Deloraine and other points at the end of that line eighty per cent. is now in the stook. At Rosenfeld, Man., over 600 bushels of new srain have been marketed, and threshing will be general the lirst part of next weed. N. R. cutting is under way from Humbolt to isattletord, and some grain is expected to run forty bushels. The bulk in that district will be from twenty-five to thirty bushels to the acre. All reports received indicate ideal harvest weather, and no serious damage is reported by frost. In many districts the yield will run higher than was first anticipated.

Througnout saskatchewan reports state that, cutting will be general in a few days, and in a large number of the stook. Latest reports from Battleford district state a heavy reinatorm has delayed wheat-cutting, but the barley is all cut and cats well under way and the sale of binders double that of last year. In the country south of the Saskatchewan a large number of new settlers have an immense area of new breaking under wheat, and some aplendid crops will be harvested.

LETTING OUT THE CAT.

LETTING OUT THE CAT. Mr. J. R. L. Starr's License Report is

Still a Secret.

Toronto, Sept. 7.—Mr. J. R. L. Starr, appointed by the Ontario Government leak winter to investigate the circumstances attending granting of licenses in Toronto, has handed in his report to the Government, and it is expected that its contents will be made public some time to-day. The report, which is a voluminous one of some thirty typewritten pages, is as yet a close secret. There is a good deal of speculation as to how the commissioner will deal with the Pyne incident. It is freely aserted that some very plain words have been asted about the impropriety of the action of the Munister of Education in urging upon the license commissioners the granting of a hotel license to the impropriety of the action of the Munister of Education in urging upon the license commissioners the granting of a hotel license to the hand many convictions against him for which are many convictions against him for the property of the action of the Munister of the good-will of premises holding but a yearly license, and to the necessity for some license asystem that will put a larger proportion of this uncarned value into the public fill.

A complete change in the method of lasuing and controlling licenses may follow the presentation of Mr. Starr's report. While it will undoubtedly be held that the attempt to bribe Dr. Wilson failed, it is vary well known that in northern Outario of late there have been some very suspicious incidents, in which the names of commissioners may be about bashed and the duty of issuing, licenses in the Parliament buildings.

CHAINED HER TO BED.

Montreal Men Defends Condact, Which Will be Ventilated in Court.

Will be Ventilated in Court.

Montreal. Sept. 6.—The Society for the Prevention of Cruelly to Women and Children is taking up the class of Ed. II. Quidna who chained his wife to her bed.

Quinn tells the following story:

"The chain was aborg her nightdress and so sick that she could undress in it. Wower married eight years ago, faid or seven years about the court of the court of the seven was ago Recorder Weir auspended senience. She took tree proportion to the decide of the court of the court

Seattle, Wash, Sept. 6.—Hundreds of Japanese coolies are crossing the international boundary into this country from Canada, despite the vigilance of the immigration force, which has been doubled within the past sixty-days.

The Japanese come to Canada, especially to British Columbia, ostensibly to secure employment on the radironals, but in reality many of them, at least according to the claim of the Government officials, to get into the United States.

The northern boundary between British Columbia and Washington is a most difficult stretch of country to protect. On the other side of the line many Japanese are employed in fisheries, logging camps, clearing land and in agricultural pursuits, so it is a comparatively easy task for the coolies to smuggle across the line during the night and mingle with their countrymen already in this country, every one of whom stands ever ready to assist in getting some brother. Asiatic into the United States.

K. Kassi is now held at Port Townsend for trying to smuggle in five hundred Japanese in this way. He will be arraigned to-morrow before United States Commissioner Bowman. Three Japanese captured near the border lines were brought to this city resterday, and after a hearing were detained to await the necessary deportation papers from Washington, D. C.

The Outlook for Money.

The Outlook for Money.

(Toronto, Saturday Night.)

Toronto, Sept. 5.—The action of the stockmarkets indicates a slight improvement in
the outlook for money. The staement has
been made this week in banking circles that
the acute state in the stringency 12 money
hag been passed, and that for a formonthe
at least easier conditions will prevail. Local
bankers, however, are not of one mind in
tha belief. Some say they fail to see anyting been seased, and that the stringency is
likely to a yet, and that the stringency is
likely to a yet, and that the stringency is
likely to a yet, and that the stringency is
likely to a yet, and that the stringency is
likely to a yet, and that of the run into November. Those who think had run into the
foreseen events that bring about diessier;
When danger is scented ahead, and there
is time to make preparation to meet it, it
is surprising how decile the monster becomes.
Applying this theory to the money market,
applying the strengthme have gone a great way
towards extengthme have gone as great way
that the distress anticle stream and aftowards strengthening the situation, and af-ter all the distress anticipated may already have partly or wholly passed away. For months at least our bankers have been con-fronted with a very serious financial problem. It has been only too apparent that immediate action was necessary to avert disaster, and the only way open was liquidster. This contraction of oredit has been severely right to business circles, but at the same time it was found necessary under the circum-stances, and the general situation has been improved.

BRADSTREET'S TRADE REVIEW.

BRADSTREET'S TRADE REVIEW.

Montreal—The tone of business here continues satisfactorily in all lines. The wholesale movement is good and manufactures are as busy as ever. Retail trade is naturally a little slow, although not more so than is usual at this time of the year. Harvesking operations are interfering with country trade. Collections are not coming forward well, but this, is now almost to se expected and improvement is looked for as the crops are marked. Collections are not coming forward well, but this, is now almost to see expected and improvement is looked for as the crops are marked. There is now liktle apprehension regarding the continued firmness in the money market. Shipments of drygoods continue very heavy and even now excellent orders for fall and winter lines continue to come in. Values in all textiles are exceedingly firm and the mills have large orders are generally steady to firm. Hardware lines are moving briskly. Prices of metass are steady despite an easier tone to foreign markets and the demand holds active. Toronto-Trade here has been considerably affected by the annual Exposition which has brought large numbers of country merchants and visitors to town and in all lines of wholesale trade there has been considerable ordering. The retail trade here has also reaped considerable benefit. All branches of trade report a continued excellent outlook for future business. The drygoods trade continues brisk. The fall millinery business has been the heavest in years. Orders have been large and generally for an excellent class of goods. A good trade is wery scarce. A good trade is moving in hardware. Metals are active on generally steady. Country trads has a quiet tone but vollections are generally fair. Receipts of preduce are light and prices not film. If the proper is the proper in the film. Housecleaning.

Toronto, Sept. 7.—Mrs. Jane Wooley, 50 years, 151 Parliament street, was stricken down by illness while at work housecleaning at Mrs. H. V. Taylor's residence, 367 Sherbourne street, and died a few minutes later. Feeling herself growing faint, she staggered across the street to A. frost, but harvesting may be completed before this happens. The drygoods trade is brisk and heavy shipments of groeries are being made. Values are firm. Collections are still out the slow side. Collections are still support to the slow side. Vancouver and Victoria—A brisk business is moving in all lines here. Continued activity in the mining and lumbering industries is responsible for a brisk demand for whole-sale goods for all parts of the province. Values are generally firm. Considerable agitation, sgainst Japanese immigration is on foot and the matter is becoming a big political factor.

Quebes—Wholesale trade is fairly active

tation against Japanese immigration is on foot and the matter is becoming a big political factor.

Quebes—Wholesale trade is fairly active and fail shipments are considerable. Country remittances are etill slow. City trade is active, which is usual at the season, the opening of achools. Building trades are well empliced and labor is in demand.

Hamilton—The volume of business there continues heavy. Wholesale goods are moving well, while refail trade has a quiet tone. Collections are fair. Large shipments of villed lines are going forward and the outlier flower a good season's trade.

Life flower a good season's trade.

Large shipments of wholesale trade is now move and volume of wholesale trade is now move and activity is mahned in all local flowers. Boo and shoe mer report excellent orders for wincer lines. They are now busy shipp. Collections are fair to good.

Obtawa—While refail trade has a slightly quiet one, wholesale lines are still moving well. Collections are generally fair. Country trade-fa quiet. Crops were generally well saved, although the lack of rain during the latter part of the summer did some damage.

## **COBALT NOTES**

Messrs. Moore and Wells, of Cobait, who have been given the contract of the Cobast. Concentrate, 4 Co., of Yoronto, to lay the foundation and outle the traine work of a new concentrator in the camp have practically commenced operations.

Reports of the gold finds at Night Hawk Lake have been verified by Mr. J. T. Arm-strong, formerly of Cobalt, Mr. J. L. Camp-bell, of Hatleyoury, and Mr. J. S. Waison, and Mr. J. S. Waison, and that district.

Mr. Bert Riley, of Cobalt, and Mr. James Kennedy, of McDougall's Chutes, who have returned from a northern trip, state that they discovered placer gold in great quantities that will run at least three dollars to the ton. The find was made in Munroe and Eulboid Townships, in an old river bed, and the territory, pley say, is unlimited.

According to Mr. McEwan, of New Lis-keard, the reports from Larder Lake are more promising than ever before. The Lucky Boys' Mine is considered among the most promising properties. Thereon an ex-ceptionally good vein has been discovered. It runs from the Chesterville Claims right through those of the Luck Boys', and is about 20 feet wide, carring immense quan-tities of low grade ore, showing free gold.

John Lemieux, who is the engineer in charge of the Larder Central Goldfields, writtes to Hawes, Gibson & Compan, Toronto, that a number of experts from the United that the Compan of th

Reports still continue to come into the camp of new finds about the camp and in the outlying districts. A fairly rich vein containing native silver is said to have been recently discovered on the surface of the Badger property, while on the City of Cobait Mine one of the main veins in the shart which only measured about half an inch width at the surface has now, at the chart which only widened out to about 6 inches. A chang of whether out to about 6 inches.

the general strike of Comit miners will soon be a thing of the past. All the interest, that asems to be attached to it now is the court proceedings asginst Organizer Road-road the other leaders of the union, and even the other leaders of the union, and the same was a week ago, when the same the same as teas a week ago, when the past week Organizer Roadhouse has apparently lost a good deal of ground, and it is generally felt that if he is left alone he will die a natural death, and as a consequence he will leave the camp uncrowned with the laurels of victory or at least with only the credit of having won a partial victory.

Wabana Iron Ore Field.

Wabana Iron Ore Field.

Sydney, N.S., Sept. 6.—The work of the directors of the Dominion Iron & Steel Company has been concluded, and the majority of them have returned home. At the meetings held during the last two days many matters of importance not only regarding the operation of the plant, but the development of the raw material of the concern, were discussed. According to Senator Forget, it was definitely decided to undertake, as soon as convenient, the further development of the iron ore at Wabana, not only for the purpose of supplying the Sydney plant, but for sale and export abroad. The directors appear confident that the properties at Wabana are practically inexhaustible, and see in this departure a new source of revenue. It has also been concluded to go forward with the development of the coal areas, so that the company may not be dependent on outside collieries for this most important element in the successful operation of the plant.

Winnipeg Civil Servants Have Organized

an Association. Winnipeg, Sept. 6.—The Dominion civil Winnipeg, Sept. 6.—The Dominion civil servants of Winnipeg have organized an association to improve their financial position. The inaugural meeting took place last night at Manitoba Hall, over two hundred persons being present, including the heads of departments and a large representation of the rank and file. The association comprises the customs, postal, public works, Indian affairs, lands and inland revenue employees. Immediate steps are to be taken to inform the Civil Service Commission on the relation of, the cost of living to the salaries received, and the commission will be induced if possible to come to Winnipeg to hear grievances.

Plans are outlined by Hon. John Anderson for a National Bank of Newfoundland.
