things that these tonic pills do. Try them for any trouble caused by thin blood. You can get these pills from any dealer in medicine or by mail postpaid, at 50c a box, from the Dr. Williams Medicine Co., Brockville, Ont.

HEAVY ELECTRICAL STORM
The heavy electrical storm which visited Moncton on Saturday morning about 10:30 and lasted until noon is considered by the older residents to be the most severe storm of its nature to visit the city in the past fifty years. The damage reported was slight.

GOOD MONEY IN GOOD FARMING

"Let's Get to Work and Pay Off the Mortgage"

NINE years ago Canada's national debt was about one-third of a billion. It is more than two and one-third billions today.

Our debts have greatly increased—our revenues must also go up. The farmer has to bear his share of the increased burden. That means he must increase his revenue.

Complaint has been heard that farmers under present conditions in Canada cannot make farming pay. And yet many thousands of Canadian farmers do make it pay.

How Is It Done?

Patient and industrious "carry on" will do wonders, but something more is needed. Too often "patient industry" is coupled with "dull persistence" in poorly thought out methods. Farmers today more than ever, must plan ahead, as well as "plug along"; indeed they have no option, if they wish to succeed.

Co-ordination of head and hand will mean real success. Farming in Canada has paid and pays now on many farms. It can be made to pay on almost every farm. Canadian agriculture has passed through low profit-making eras successfully in the past and can do so again.

With the increased cost of production, the higher standards of living now prevailing cannot be maintained by poor farm management, "boarder" milkers, scrub beeves, poor quality hogs or non-profitable hens.

That even under present conditions profits may be made is testified by many skilful, observant and non-plunging farmers, who believe more in the policy of "slow but sure" and "pay as you go" rather than speed, with excessive borrowing and the often consequent disaster.

The results on our Experimental Farms also bear testimony to the value of thorough, skilful work.

The Farmer Must Manufacture

But crops alone are not enough. The farmer must change his crops into less bulky and more high-priced products—milk, pork, beef, mutton, poultry, etc.

With fair yielding cows dairying shows good profits in Canada. The average cow has increased her yield 25% in the last ten years. She can quite readily go up another 25% and more, and there's where the profit lies. Better feeding, better selection and better breeding will do the job—feed, weed, breed.

To do better feeding means better pastures and more generous supplies of palatable roughage. Short rotations including clover and ensilage crops (corn, sunflower, pea and oat, etc.) will provide feed in abundance for both summer and winter. The experiments and investigations which the Dominion Department of Agriculture have carried on prove that farming scientifically and systematically undertaken will pay profits. The records and particulars of such work in every province are available to the Canadian farmer.

Are you growing grain, or producing wool or interested in fruit? We can give you information that will help you. Do you breed live stock? Are you keeping dairy cattle? Are you interested in poultry or bees? Ask us for information. We have some that will help you.

We have published and have for free distribution 300 different reports, bulletins and circulars dealing with matters of interest to you. Ask for what you want, or for a list of our publications.

We shall have something more to say later. Meantime write the Department of Agriculture, Ottawa, about your problems.

Crop Returns Should be Increased

On the Central Experimental Farm at Ottawa some crop costs and crop profits in 1922 as contrasted with all-Ontario average crop costs and crop profits are given below. The all-Ontario figures are in brackets:

	Cost per acre	Profit per acre
Hay	\$21.13 (\$13.50)	\$11.21 (\$5.09)
Corn for		
Forage	\$47.50 (\$33.75)	\$10.38 (\$2.86)
Oats	\$26.47 (\$19.32)	\$ 7.33 (.04)

Similar results can be shown from the Dominion Experimental Farms in every province.

Experimental Farm crops are sometimes claimed to be produced at too great cost. Thousands of experiments, however, show that increased cropping costs wisely applied up to a reasonable point always increase crop profits. This is true on the Experimental Farm—and on any and every farm.

LIPTON WILL CHALLENGE
Sir Thomas Lipton has stated that he hoped next year to challenge for America's Cup 1925. In the meantime he is bringing the Shamrock from the United States and will race in home waters in 1925.

AROUND THE CIRCLE
Rags make paper
Paper makes money
Money makes banks
Banks make loans
Loans make poverty, and
Poverty makes rags.

Dayton, Ohio utilizes its asphalt streets as signboards, warning motorists in large white letters to "Drive Carefully," and pedestrians to "Look Both Ways and Live" while another legend declares that "The Jay walker is taking the shortest route to the Hospital."

Four hundred people were killed by lightning in the United States in 1922.

Unrefreshing Sleep

If You Are Tired Out When You Arise In The morning Read this.

The woman who is tired out, who aches all over when she arises in the morning, who feels depressed most of the time, needs just the help that Dr. Williams' Pink Pills can give her—new blood and strong nerves.

The numbers of disorders that are caused by thin blood is amazing and most women are careless about the condition of their blood. Quickly the nerves are affected and the patient becomes irritable, worries over trifles, does not sleep as well as formerly and is not refreshed by rest. There may be stomach trouble and headache. This is a condition that calls for Dr. Williams' Pink Pills.

Give Dr. Williams' Pink Pills, a fair trial and the first sign of new life will be noticed in your appetite. You will be hungry by mealtime. As the blood becomes enriched it feeds and soothes the irritated nerves, sleep becomes sounder and more refreshing, your worries become less, your work lighter. These are some of the
