SUBSCRIPTION-\$1.00 A YEAR, JAMES McISAAC,

Editor & Proprietor.

It is reported from Ottawa that the Dominion Company to operate in this Province on the gigantic scale of which we have been told by the Government organ, is seeking incorporation under the Dominion Government. The company's capital is placed at a million dollars. If the company is all right and the capital real, why should a guarantee of bonds by the Local Government be required?

As the cold weather approaches the members of the Dominion Cabinet, who have been junketing in Europe all summer are returning home. Blair, Borden and Putersun have already arrived and Fielding and Laurier are expected in a few days. If the Tarte, Sifton, Fisher row is real the Government have their fall's work cut out for them. Better to have stayed home and looked after the business for which they are paid.

NOTWITHSTANDING all the taunts cast at Mr. Tarte by the leading Grit papers in the Dominion, the papers quite sharply and practically tells them they don't know what they are talking about. He further claims that he is in accord with the Leader of the Government. If this is so there sureshall see.

The Provincial Exhibition is now in full swing and with a continuance of the delightful weather that prevails to-day cannot fail to be an eminent success. The entries in all classes of exhibits, live stock, agricultural and dairy products, mechanical and fine arts etc, are far in excess of those of any previous exhibition in this Province. It is not only in the number of entries that this exhibition surpasses all its predecessors, but also in the excellence of the exhibits. Both within and without the building the exhibits are excellent. The fruit exhibit is extremely fine and pronounced by visitors from the other Provinces to far excell that of the Halifax Exhibition. The horses and cattle and other live stock constitute a magnificent show, such as cannot be adequately described, but must be seen to be properly appreciated. The exhibition was formally opened at 3 o'clock yesterday afternoon by his Honor the Lieutenant Governor. His Honor made an appropriate speech, pointing out the the value of such exhibitions to our agriculturists, as well as others, and expressing the hope that we would hereafter have an annual exhibibition.
