THIS FOOL STILL LIVES.
Dropped Lighted Match into 40,000 Gallons of Oil.

Chicago, June 26.—If Cash Allen of Griffith, Ind., wants to beat his own game, the only thing remaining for him to do is to consume with Mott Felle when the latter is in a vigorous state of eruption. Yesterday he climbed to the top of a tank containing 40,000 gallons of kerosene and dropped a match into it. There was an atmospheric disturbance, and Cash casually sat down over in an out field some hundred yards away and yawned. Then Cash rose, dusted himself, and raced over to a telephone station and wired to Huntington and Crown Point for some fire engines. The population of Griffith knew a better way. They brought out plows and ripped up a dead furrow around the tank, and the oil blaze was stopped.

TO MAKE WAR BUSINESSLIKE

Humanitarian Propositions Presented by Nations At The Hague Conference

The Hague, June 26.—The text of the American Proposition presented to the peace conference on June 24th by General Horace Porter is as follows:—

"The bombardment of a naval force of unfortified and undefended towns, villages and buildings is forbidden. Bombardment of such towns, villages and buildings are liable to damages incidental to the destruction of naval or military establishments, public depots of war or vessels of war in port, and such towns, villages or buildings are liable to bombardment when reasonable requisitions for provisions and supplies at the time essential to the naval force are withheld, in which case due notice of the bombardment must be given."

"The bombardment of unfortified and undefended towns and places for the non-payment of ransoms is forbidden."

"The German proposition for adopting the Red Cross convention to naval warfare, which was presented on June 24th, says that hospital ships cannot be captured. Private hospital ships will enjoy the same treatment and must take care of the wounded without distinction of nationality, and must never be employed for military purposes or interference with military operations."

"The proposal presented by the British government for the establishment of an international permanent court of appeals in regard to prizes captured at sea. A neutral power may suggest to this court from the finding of a prize court. A German proposal in the same connection provides for a court of arbitration, when within a fortnight these two neutral powers will meet and choose a fifth member of the proposed court from among their own members of the Hague Arbitration Tribunal."

"The proposal presented by the British government for a convention for the peaceful regulation of international conflicts. It says that disputes between nations of an international character not engaging their honor or essential interests, the signatory powers may decide to appoint an international commission of inquiry, according to a convention, agreed upon by the conflicting parties. It shall have the right to demand the production of the originals of the documents and the originals of the hearings may be published only if the parties agree. Discussion will begin Thursday morning on the subject of the committee."

Dr. Drago, of the Argentine republic, has prepared a proposition stating that in the matter of the collection of public debts, the debts must be claimed before the ordinary courts of the debtor country. If the decision of the court is accepted by both parties, provided it is again the debtor state, and the state refuse to pay, then force may be used.

THE DEFENSE PLEAD INSANITY

Judge Loving Drank Excessively Prosecution Says It Will Disprove Girl's Story

Houston, Va., June 26.—Interest in the trial of Judge Loving, for the murder of Theo. Estes, lagged somewhat today. The features were the closing of the case for the defense, after the examination of three witnesses for the purpose of proving that Judge Loving was insane at the time of the killing of young Estes, and the first presentation by the attorneys for the prosecution of what they intend to prove if certain witnesses are allowed to testify.

The plea of the defense is that the mind of Judge Loving had, after years of dissipation which frequently caused him to have delirium tremens from excessive drinking of whisky, become so impaired that when he heard the story of his daughter, Miss Elizabeth Loving, that she had been drugged and assaulted, he became enraged and was not responsible for his act in killing her.

Counsel for the defense hope by the plea of emotional insanity to prevent any attempt to introduce the statement of Miss Loving. The prosecution announced as their first witness in rebuttal, Miss Annie Kinde, who, they said, would disprove the story of Miss Loving. This was immediately objected to by the defense, and after a lengthy legal discussion was gone into.

The ruling tomorrow of Judge Barkman on this point is deemed most important by the counsel in the case. The prosecution claims to have witnesses to disprove even the story made by the girl witnesses who told the story of her ruin between sobs on the witness stand yesterday.

LUMBER COMBINE NEEDS \$1,000,000

Banks Must Loan This Amount Or Combine Will Cease Operations

Vancouver, June 26.—The logging and lumbering industries on the coast today are facing the most serious crisis of recent years, and if the situation is to be saved, if the present market for lumber is to be upheld, over a million dollars will have to be produced right away to take care of the over-production of logs.

So serious is the situation that at the recent conference between loggers and millmen, the heads of local banking institutions, three bank managers, undertook to arrange for the raising of eight hundred thousand dollars with which to buy up the surplus logs at present on the market.

Saturday night all the logging camps operated by members of the British Columbia Loggers' association fixed a schedule to shut down indefinitely, but before many loggers can take that step they will have to be financed, and if eight hundred thousand is forthcoming it will be expended to that end. Future action will be decided to-day.

Owners of the large lumber mills are represented in the membership. The lumber and single manufacturers are vitally interested in saving the loggers for the most obvious reason. The position of the associated mills is this: If eight hundred thousand dollars worth of logs now on the market are permitted to be slaughtered, as they undoubtedly will if loggers do not receive financial aid, the greatly reduced price of logs will make possible the erection of small mills which will be outside the association.

The consequence of this will be that these independent mills will sell their product wherever possible at prices which cannot be controlled; in other words, the present good market for lumber will be demoralized. That is the situation the mills are facing, and the millmen fully realize their position.

Prince Louis of Savoy Coming.

Boethin, June 26.—Prince Louis of Savoy, Duke of Abruzzi, who today received the degree of doctor of laws at Harvard, sailed for Quebec this afternoon on board his flagship the Varese.

BRITISHERS ARE TAKING NOTICE

Hon. C. W. Cross Returns.—Says Emigration Has Only Begun English Capital Interested

The Hon. C. W. Cross, attorney-general of Alberta, returned to Edmonton Thursday evening after a two months' absence in England and Europe, where he went for the purpose of consulting a specialist regarding his throat, which has for some time given him considerable trouble. While in London he consulted Sir Felix Semon, an eminent throat physician, and was advised by him that it would be necessary to have an operation performed.

While in France Mr. Cross met Mr. John A. McDougall and Mr. Archie York, of Edmonton, at Nice. These gentlemen were touring the continent in their motor car. Mr. Cross was accompanied by Mrs. Cross. They visited Paris, Nice, Genoa, Naples and Rome. They spent some time in Venice, and visited the Alps, which Mr. Cross says, are inferior in scenic grandeur and sublimity to our own Rockies.

Emigration in Its Infancy.

With respect to immigration and his observations in the old country, Mr. Cross says that emigration from the British Isles to Canada, has only begun and Canada is regarded by the people and the government as the most promising and successful field for colonization. British capitalists are becoming increasingly interested in Canada as a field of secure and profitable investment, and a land of boundless possibilities. He attributes the interest of English settlers in Canada to the intelligent and energetic immigration policy of the present minister of the interior, Hon. Frank Oliver. The stream of settlers from Great Britain is setting in today in greater volume than has been flowing over the Canadian border from the United States during the last eight years. What Hon. Mr. Sifton did to advertise Canada in the United States Hon. Mr. Oliver has done to advertise the western provinces in Great Britain and Ireland.

"Once started," said Mr. Cross, "this flow of immigration will continue to bring its thousands of the very best settlers to Western Canada."

Disagreeable Weather on Continent.

"This has been a backward season on the continent," said Mr. Cross. "When I left England the weather was cold and wet. It was colder than was reported from Edmonton."

Weather conditions in France were with other countries and far surpasses any of the island provinces of Europe.

"In fact," said Mr. Cross, "the weather has been backward all over the

DR. T. S. SPROULE M.P. TALKS SOME

Smoking Onslaught On French Members Of House As Grafters

Bulletin Special.

Calgary, June 26.—In an interview this afternoon, Dr. Sproule, M.P. Sovereign Grand Master of the Grand Orange Lodge of Canada, made a savage attack upon the French members of parliament, charging them with selling patronage, and grafting in the most open way.

Dr. Sproule when asked about the election said that Sir Wilfrid Laurier had promised or half promised that there would be no election until after another session. He did not place much faith in that statement, however, for he had noticed that the premier did not always keep his promises, and the matter of election would be a matter of expediency. He did not know that it would be expected for an election before the coming session, but he doubted it.

The interviewer asked if it was a fact that French members opposed an early appeal to the country. Dr. Sproule said it was. It was always said the French members liked seasonal indemnity.

"But," said he, "that is only a small part of it. Seasonal indemnity is only a fraction of what comes to French members. By selling patronage, by holding up contractors, by making money in every way possible, French members make many times more out of parliament than their seasonal allowances."

S. Nankin has opened out in his new store on Jasper avenue, and when the fixtures now on the way arrive, he will have one of the finest jewelry stores in Western Canada. The building on the site of his former place of business, is 113 feet by 25 feet. Mr. Nankin has just returned from a business trip east.

PARLIAMENT BUILDINGS.

Department of Public Works Calls for Tenders for Work.

The Department of Public Works are asking for tenders for the excavation of the basement for the foundation of the provincial parliament buildings in the Capital Hill park.

The tenders will be received until and including the 4th of July. It is the intention of the department to put in the footings and the foundation this week, and immediately after the awarding of the tenders.

MANY MORE NEW SETTLERS

Arrive In The City.—Parties Of Scotch And Galicians—Young Men Go On Farms

Immigration Officer Sutter is to-day moving his headquarters to the new hall on First street, north of the C. N. R. station. After to-day Mr. Sutter will be found at his new office.

Among the arrivals at the immigration hall yesterday were two families from Germany, who are highly pleased with the country.

A most intelligent and promising group of Galician people, about forty in all, arrived in the city Monday and are already locating themselves on different parts of the city. These people are of the best class of settlers from Galicia and have brought considerable money with them.

Since Saturday about forty people have come in from Scotland. Among them are several families who will locate in the city. Among the others are a number who had come to spy out the land and see if it comes up to the expectations formed from the reports of the immigration agencies in the old country. Needless to say, they are pleased and assert that the country is even better than they had represented to them. They will send home bright reports of Alberta.

Immigration Officer Sutter says that he has had reports from Kansas, Nebraska, North and South Dakota, Ontario, Manitoba and Nova Scotia, and the general verdict is to the effect that the crops of the Edmonton district are further advanced than in any of the places from which they have come.

Many of the young men of the recent immigrants, are going out on farms for the purpose of learning Alberta farming methods before taking up homesteads. Farmers who have come to the halls for men are readily supplied, many of the new arrivals preferring to work on a farm at small wages rather than stay in the city. Wages range from \$20 to \$35 per month with board found. The amount paid varies according to the experience and ability of the applicant.

Winnipeg Laid Killed by Wagon.

Winnipeg, June 26.—A Lad named W. Plumridge, aged four and a half years, was instantly killed to-day by falling beneath wheels of an asphalt wagon.

Premier To Visit Washington.

New York, June 26.—The Tribune says that Sir Wilfrid Laurier, Prime Minister of the Dominion of Canada, and the Premier of Newfoundland are, according to present arrangements, to visit Washington immediately after the return of the President to the national capital from his summer holiday. The object of their visit is to discuss with the President, with the Secretary of State and Ambassador Bryce some means of effecting a compromise satisfactory to all concerned, with respect to the fisheries problem.

Will Finish By THE END OF JULY

Extension Of C.N.R. To White Whale Lake Going Ahead Rapidly—Trains In August

The extension of the main line on the C.N.R. from Stoney Plain to White Whale Lake will be completed by the end of July, according to a statement made by Contractor McCrimmon, and trains will be running to the lake by the end of August.

Contractor McCrimmon has three gangs of men at work on the grading of 18 miles between Stoney Plain and White Whale Lake. The work is going ahead rapidly. There are no big cuts to be negotiated, nor are there any big hills. There is still between five and six miles to be graded. When this is completed the steel will be laid.

James Sheppard, C.N.R. superintendent of construction, is authority for the statement that the train will be working away testing the gold bearing gravel with satisfactory results, and Mr. R. H. Ahn himself is authority for the above.

The gold was discovered some years ago, and for a time there was considerable excitement, but prospectors being unable to discover it in chunks gradually dropped out, although it has been all along known to exist in paying quantities in the form of fine dust. The Ahn syndicate have succeeded in installing machinery which will save it and large operations are contemplated in the near future.

The Canadian Northern is now in the same class as the T. and N. O. Railway near Cobalt, whose right of way runs over silver deposits, and the town which will probably be established there will be an earthy example of "the beautiful city where the streets are paved with gold."

WILL ENTERTAIN MR. CROSS.

The members of the executive of the Edmonton Liberal Association and the Young Liberals Club will entertain Hon. C. W. Cross this evening to a dinner in the Alberta Hotel on the occasion of his return from Europe.

world this year, and from what I can learn Alberta gains in comparison with other countries and far surpasses any of the island provinces of Europe."

He further says that complaints were general in the backward condition of the water wheat crops in Central and Eastern Europe.

LEADER SURRENDERS HIMSELF.

Head of Wine Growers' Revolt Keeps Promise Made to Premier.

Paris June 26.—M. Albert gave himself up to authorities at Montpellier. He received a chilly reception from the crowds at Narbonne. His comrades of the Committee of Agrégiers have, from their prison issued a statement repudiating him and declaring for a continuation of the rival strike. Later in the day M. Albert sent this letter to Premier Clemenceau: "In two or three days you will have proof that I kept my promise. Enclosed find the 100 francs you loaned me, for which account my bank. As agreed, I have surrendered myself to the authorities." The former members of the Fourteenth Regiment today embarked at Ville Franche for Tunis.

FIRST SAW MILL ON PADDLE RIVER.

Will Be In Operation Early In July.—Capacity 12,000 Feet Per Day

W. C. Hogg, the government land guide, who was caught on the far side of the Paddle river when the flood was on last week, got back to Edmonton on Monday. When seen by the Bulletin he stated that the rising of the river had done no damage except carrying away two bridges, and the settlers were at work now rebuilding one of them. The water in the Paddle is now down to its normal depth, and the settlers are experiencing no difficulty in crossing and many of them are making arrangements to spend a few days in the city during fair week.

Mr. Hogg brings the news that a saw mill will be in operation at Lac La Nonne early in July. It is now being installed by Mr. Steeles, of Morinville. It will have a capacity of twelve thousand feet a day and will run by steam power. There is plenty of logs in sight to keep it busy all season, and with the rush of settlers coming in Mr. Steeles will find his venture a paying one. In the past the timber has had to be hauled to the Pembina, a distance of ten miles.

Mr. Hogg states that all kinds of groups never looked better than at present. In many spots now shows a growth of nearly two feet, the same of the pea vines are stretching out near the three-foot mark.

Regular church services will be held at Lac La Nonne during the summer months by a student from Alberta college, who will make his headquarters on this side of the Paddle.

Pickpockets Got \$1,000.

Winnipeg, Man., June 26.—An American gentleman named J. Miller was relieved of \$1,000 by pickpockets in the Bank of Hamilton to-day.

THE C.N.R. HAS GOLD BALLAST

Every Yard Of Gravel Contains 50 Cents Worth Of Gold. This Is In Ontario

Toronto, June 26.—A section of the Canadian Northern Railway running northwest from Sudbury and crossing the Vermilion River, has the unique feature in Ontario of being ballasted with gold. Every yard of the gravel used for ballast contains from 50 cents to a dollar's worth of the precious metal in the shape of fine dust. Right alongside the track, in the township of Hammer is the place. Mining camp of the R. H. Ahn syndicate, which has been quietly working away testing the gold bearing gravel with satisfactory results, and Mr. R. H. Ahn himself is authority for the above.

The gold was discovered some years ago, and for a time there was considerable excitement, but prospectors being unable to discover it in chunks gradually dropped out, although it has been all along known to exist in paying quantities in the form of fine dust. The Ahn syndicate have succeeded in installing machinery which will save it and large operations are contemplated in the near future.

The Canadian Northern is now in the same class as the T. and N. O. Railway near Cobalt, whose right of way runs over silver deposits, and the town which will probably be established there will be an earthy example of "the beautiful city where the streets are paved with gold."

AN ANGLICAN BISHOP'S OPINION.

Halifax, June 26.—The Anglican Synod of Nova Scotia met yesterday in annual session. Bishop Worrell, in his pastoral charge to the delegates, under the heading of "Political life," said that he universally agreed that the state of politics in Canada is far from clean. There are, undoubtedly, in the ranks of our high ideals with ability in affairs and purity in life, but there is also a condition steadily growing which, if not eradicated, may render barren and unfruitful the promising life of our fair Dominion. When the brown trail north showed itself in the country the government led a determined crusade against it, and those interested in it, the track behind it, should be checked there must be a similar movement."
