The Royal Link.

The real value of the Conference of the Premiers of Great Britain and the Overseas States is the exchange of views and the discussion of problems, more or less common to all, from the view points of the respective States. The adoption or failure to adopt any particular scheme at the present time is not of vital importance. Immature schemes, based on lack of understanding of the necessary view points of each, would in all probability retard rather than promote the future welfare of the realms acknowledging George V. as King. The strongest link is that of sentiment and a common allegiance to one King. The trend of development at the present time is towards the building up of great British States in different parts of the world which shall rival in strength and stability Great Britain herself. Mutual love, intimate intercourse, a common speech, similar dangers, allegiance to the same King will tend strongly to make matters ripe for British Hamiltons of the future who will recognize the time when a more rigid union is feasible and necessary. We believe when the hour comes the statesmen will be ready.

The dominant feature of the week is the Coronation of the King and the raising on high of the institution of kingship, which is the principal link which holds the States of the Empire together.

Havoc of Lightning at Avondale.

Destroyed—Awe-Inspiring Scene—Marvelous Escape From Death of Five Persons in a House Struck by Lightning Yesterday in Another Electrical Storm.

Special Evening Telegram.

AVONDALE, To-Day.

The thunder and lightning storm which swept Avondale Saturday night, destroying the pretty little church of that settlement, was the most severe ever experienced in memory of any person in this district. The peals of thunder were terrific and shock the dwellings and caused consternation. Many rushed to the streets in terror, and the lightning flashes which like tongues of fire for several seconds duration lit up the firmament. During the storm at about 11 p.m. when one of several bursts of thunder and lightning shot over the place, all eyes turned towards the church, where flames were seen issuing from the spire and almost instantaneously fire burst from all parts of the sacred edifice, illuminating the settlement for miles around. The church on the summit of hill overlooking settlement, instantly enveloped in flames, amidst thunder peals and lightning flashes of pitch darkness, was an awe-inspiring sight and one that will never be forgotten by beholders. Father Sheehan made several attempts at great risk to save the vestments and sacred articles with partial success. Pieces of tower were driven several yards from the site of the building, as if by force of heavy dynamite charges. Yesterday afternoon about 3 o'clock heavy clouds were seen rolling from southwest, and with scarcely moment's warning, thunder and lightning again burst forth, sweeping along the valley and hill tops reviving the terror of the previous night. It was of short duration, but it caused damage to dwellings and five persons narrowly escaped death. Lightning entered by the chimney the house of Edward Cook, broke through chimney tore away the earth and through the floor. Four persons in the house were left unconscious. An old woman's boots she was wearing torn off her feet and her feet lacerated, attended by doctor. A fire started but was quickly extinguished and the house saved. Two miles distant the house of Peter Walsh at Hr. Main Point was broken to pieces. The owners were out at the time. Other minor damages done. The Avondale church was built from 1885 to 1887 at a cost of fifteen thousand dollars. It was not insured.

INSPECTING LAVATORIES.—A committee of the City Council are inspecting the public lavatories to-day along the waterfront with a view to having them removed further out over the water, thereby carrying out the suggestion of Health Inspector O'Brien. It will be remembered the Telegram referred to this matter last week.

Indigestion & Dyspepsia

In all its forms can be cured. It cuts a daily occurrence to hear persons say: Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything, I have no heart to exert myself and at times I care for nothing. I often have a pain in the pit of my stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my diet seems a veritable burden. Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a Bottle of Dr. Stafford's Prescription A. A sure cure for persons afflicted with stomach troubles can be obtained at

SHE BROKE DOWN.—Yesterday morning Mr. Butler, Mr. Kennedy and another man left in Kennedy's new motor boat for Avondale, but when off Torbay Point the shaft broke and the propeller went to bottom.
