419th Day of the War

Latest From the Front.

Messages Received Previous to 9 A.M.

OFFICIAL.

LONDON, Sept. 25.

The Governor, Newfoundland, has received the following messages from the front: General French reports hostile artillery continues active. Our aircraft raided enemy communications near Valenciennes, cutting the railway in several places.

In France are generally fierce artillery duels.

A desperate battle is proceeding near Novo Alexandrovsk. The enemy was driven from Vileka, the Russians capturing eight guns and nine machine guns. Lutsk is recaptured and over four thousand prisoners captured.

BONAR LAW.

ARTILLERY ACTIVE.

PARIS, Sept. 25.

There has been no cessation in the continued artillery activity on the battle line in France, according to an announcement given out at the French War Office this afternoon. Among the points mentioned where there have been artillery engagements are the Artois district, south of the River Somme, north of the Aisne, and along the Canal from the Aisne to the Marne, and in the Champagne district.

BRITISH WARSHIPS BOMBARD ZEEBRUGGE.

AMSTERDAM, Sept. 25. British warships again bombarded the Belgian town of Zeebrugge this morning. Three ships were engaged. The flashes of their heavy guns were visible on the Dutch coast.

WHAT FIELD MARSHAL FRENCH REPORTS.

LONDON, Sept. 25. Field Marshal French reports that German positions were penetrated on Saturday, in some instances for 4,000 yards, in the La Bassée region, and the western outskirts of Hulluch and the village of Los. The mining works around it and Hill No. 70 were wrested from the Germans. Seventeen hundred prisoners, eight guns and a number of machine guns were captured. French troops report gains. An official statement says that an energetic attack was delivered north of Arras, and the enemy lines were pierced at several points. General attacks all along the front with good progress were made. French batteries are co-operating with British forces in the bombardment of Westende and Middle Kerks on the Belgian coast. Berlin admits the Allied gains. An official report says that after artillery preparation of great intensity, the expected Anglo-French offensive has begun. On the western front report tells of fierce hand to hand fighting. The Russians report the Germans repulsed. The official statement says that attacks in Riga and Drinsk regions failed, the Germans using asphyxiating shells at Riga. A semi-official statement from Sofia says that Bulgaria has merely declared an "armed neutrality" and will continue negotiations with the two belligerent groups.

RUSSIANS REPORT SUCCESSES.

LONDON, Sept. 25. The Russian statement contains good news, according to a statement received this afternoon. It tells that more than ten thousand prisoners have been captured, together with machine guns, etc. Hot engagements continue at many points on the eastern battlefield, and the Russians are more than holding their own.

BULGARIA ARMED TO DEFEND HER RIGHTS AND INDEPENDENCE.

LONDON, Sept. 25. The Bulgarian Government this morning officially communicated to the Powers a note stating in the most categorical fashion that the mobilization of the Bulgarian army was ordered in the national interest; that it had not the slightest offensive character. The note states that why Bulgaria has gone into a state of armed neutrality is explained by the changes which have recently occurred in the political situation; that Bulgaria has not the slightest aggressive intention, but is firmly resolved to be fully armed to defend her rights and independence. This official note to the Powers was despatched from Sofia on Sept. 23, so that it was framed before Greek mobilization had been decided upon. Dr. Ghenadiou, Bulgarian Foreign Minister, whose inclusion in the Sofia cabinet is reported as a possibility, has been known lately for his pro-Entente views. It is believed here that unless he was certain of the Government continuing good relations with the Entente Powers, he would not have assured them of his support.

AIR RAID COMMITTEE REPORT.

LONDON, Sept. 25. The East Coast Raid Committee appointed in January, submitted today to the Treasury a report covering fourteen German aerial raids previous to June 15, and the bombardment of Hartlepool, Scarborough and Whitby by German warships. The number of claims reported for personal injuries is 997, of which 173 were fatalities. The number of claims for damage to property, which have been investigated, is 10,297.

HOLLAND-AMERICAN STEAMER SUNK.

LONDON, Sept. 25. The Holland-American freighter Evertjijk, 4,815 tons, has been sunk. The crew were landed. The steamer sailed from Buenos Ayres for Copenhagen with a cargo of maize.

HARRISON LINER SUNK.

LONDON, Sept. 25. The Harrison Liner Chancellor has been sent to bottom by a German submarine after a chase of 78 miles towards Liverpool. A part of the crew is reported missing, among them C. W. King, of New Orleans, an American, who was assistant Marconi operator on the liner. The vessel tried to make her escape after being hailed by the submarine, according to the

A "Gag" that Spoilt a Scene.

The other day, Madame Sarah Bernhardt, the great French actress, made her first appearance on the stage since her recent severe operation, and it was characteristic of her that she stipulated that the profits of the performance should be given to war funds.

Madame Bernhardt is fond of relating a very funny experience she had, during her early days as an actress, with an actor who was something of a wit, and who was addicted to "gagging."

"It is so long ago," she says, "that I recall neither the player nor the play, only the part wherein the scene was spoiled. The hero said to me, 'Do you object to this cigar?' which he had already lighted and was puffing vigorously."

"No, no, no!" I answered, which was the cue for him to tell me the story of his life.

"He looked at me instead, and said, 'rolling the cigar between his fingers. 'That, madame, is because you do not have to smoke it!'

"The audience appreciated the fact that he was smoking a cigar furnished by the property man, and roared with laughter; but this interference made him forget his lines. He could not recollect a word, so, taking my arm, he said, 'Come with me for a walk, and I will tell you the story of my life.'"

"We walked off the stage, and on at the next entrance, which required no more than two seconds of time, and then he said, 'Now I have told you the story of my life.'"

GERMANS FIGHTING TO RETAIN CONTROL OF POTASH DEPOSITS.

Paris, Sept. 25.—One of the reasons for the determined fight which the Germans are making to hold the ground between Guebwiller and Mulhouse is the importance of the potash deposits in Upper Alsace in this vicinity, which are estimated to be worth 80,000,000 francs (\$16,000,000) says a despatch to the Havas News Agency from Geneva.

Despite the war, the industry continues in active operation, and about 100 freight cars loaded with potash are sent daily into the interior of Germany.

Household Notes.

To make a tiny Christmas tree, stand it upright on the table and plant it in a jardiniere filled with sand.

Warm soda water is the best thing with which to remove dirt, etc., from old furniture which is to be refinished. A good salad is made of white grapes and sliced pineapples on a bed of lettuce leaves. Serve with mayonnaise.

To keep a meringue from falling, mix a saltspoonful of baking powder just before putting the meringue on the pie.

Apples and pears should always be wiped with a clean cloth and then rinsed under the tap before using for dessert.

Fine white felt hats, past their usefulness, can be thoroughly washed and cut into soft little moccasins for the baby.

If you hem your table napkins, it will be found a great help if the linen is hemmed at each end and washed before cutting.

Always cover newly baked bread with a clean cloth—preferably an old table cloth—to keep it free from germs and dust.

The white of an egg, whipped stiff with a ripe banana makes a delicious cream to be eaten on a simple gelatine pudding.

A two or three pound crock of fine butter is one of the presents a farmer's wife will find very acceptable to her friends.

Wear a sewing apron while ironing, and you will often find it possible to do a bit of mending while waiting for the iron to heat.

It pays the housekeeper to get the best bedsprings and mattresses in the market, even if she has to economize somewhere else.

Pour boiling water over the raisins and let them stand a minute; then pour off and you can pinch the seeds off at each end.

All the strips of fat left from a steak should be left in a dish and fried out in the oven. They will make excellent fat for frying.

The cellar for winter storage should be neither too dry nor too wet. If there are two rooms, one should be warmer than the other.

Germany's Mistake.

London Daily Telegraph.—German professors were eager to assure the world that "one good shove" would break asunder the ill-fitting mosaic of the British Empire; it was Germany in fact, that welded the British peoples together as with hoops of steel when she overran Belgium, invaded France, and proclaimed her contempt for freedom. The mere threat of war sufficed to silence the voice of controversy among our kith and kin, no less than in these islands.

LOSING GROUND.

Old Booze is slipping slowly; some day his graft unholy will fizzle or burst; then all of us will totter to hydrants for the water to slake our raging thirst. Old Booze his grip is losing, for workmen are choosing to leave the suds alone; long years of earnest thinking has shown them how the drinking good man has overthrown. Not sentimental speaking, not lurid platform shrieking, has brought this thing about; not irony or scoffing, not frantic John B. Goughing, has put Old Booze to rout. An age of competition won't stand for the condition that Barleycorn entails; the world a weary stage is for one who blows his wages to open kegs of nails. Employers need no longer with one whose breath is stronger than is a gas exhaust; they say, "You're quite too frisky; you're touching up the whiskey, and so your job you've lost." No sentiment is wasted; if they suspect he's tasted a pannikin of beer, they fire him through the transom, his luck is also-ransome, he's in the street named Queer. Some men of sense are quitting the touching up and hitting of all drinks that foam; they drink from babbling brooklets, and have their saving booklets, and happy kids at home.
