Economic Crises.

As if in denial of the statements of a contemporary busily engaged in an attempt to make other people believe that everything in the Colony is rosy and there is no destitution, a correspondent to that same journal gives it the retort discursive, and with a wealth of verbiage and camouflaged phraseology, which it is regrettable the erudite editor did not perceive in its true meaning conclusively proves that there are economic crises existing in certain sections of the island about which the representatives apparently know little and care less. It is somewhat illuminating to read in the columns of the one and only organ and mouthpiece of the Government that there is much destitution prevalent in the district represented by the Honorable the Minister of Justice. But truth like murder will out. It will be interesting to know just what the member for Fortune Bay will do under the circumstances detailed by a correspondent from Bay D'Espoir, who declares that there is privation and lack of employment in that particular portion of the district. We have all along suspected that such was the case, and to this condition the infamous Fish Regulations of 1919-20 and part of '21 contributed. Because of the improper and altogether illegal restrictions imposed on the people of the South West Coast in the spring of 1920, regarding the exportation of new fish, large supplying and shipping firms came down with a crash, and dragged with themselves smaller dealers and suppliers, who could not escape their financial obligations due the former. Thus the travail that has come upon the West Coast. Representatives elected with tremendous majorities by the people in 1919, these same people relying on their specious pre-election promises to safeguard their interests in every way, had not the courage to stand for the protection of their constituents when the shadow of the North was cast over the districts of the West. Deaf and blind to all that was being attempted they neither saw nor heard. Salary and position closed both eyes and ears, and the gold of high sessional indemnity poured into their mouths, effectually stopped their speech. As Marc Antony said of Brutus, "They are honorable men," yet not so much in doing their duty by their districts as in looking after themselves. And so because of their crass neglect and stultification of principle, the people who delighted to do them honor are to-day suffering such privation as seldom falls to the lot of humanity. Yet not one word is being openly said by the gentlemen, who craved and won their suffrages, toward securing even temporary relief. Other districts, seemingly, are being looked after and catered to by the Government at the request of their representatives, but the invertebrates who sit in the House of Assembly for the three Southern districts, which Elected Liberal-Reform candidate:

have neither speech nor hearing in the matter complained of in their own newspaper. Economic crises do not appeal to them, and their people might go to the bow-wows or starve for all they appear to care.

CITY CLUB DECREASING MASONS
LEAD—W. R. WARREN MAKES
RECORD BREAK FOR TOURNEY.

A substantial reduction in the lead held by the Masons in the Inter-Club Billiard Tourney, was made by the City Club players last night. Of the three games played, two were won by the City Club and the third which was the first was lost by only one point. The record break was made by a City Club player, Hon. W. R. Warren, who obtained a prettily played 67. With five games yet to be played, Masons have a lead of 927 points. In the opening game W. F. Joyce (Masonic) defeated J. Strang (City), by a margin of one point. Both players kept together practically throughout. Finally, when the score stood at 249 all, Joyce finished with a cannon which gave him the victory.

The breaks were:—
Joyce—29, 34, 17, 14, 16, 21.
Strang—10, 12, 16, 15, 12, 10, 12, 11.

In the second game, W. R. Warren (City) not only defeated his opponent, J. Edwards (Masonic), but succeeded in making a break of 67, the best for the series. Both players kept well together until when Warren's score was 175, he made the big break which placed him in the winning list. The breaks were:—
Edwards—18, 24, 22, 12, 31, 16.
Warren—27, 17, 13, 19, 21, 17, 12, 67.
H. Dickinson (City) defeated S. C. Thompson (Masonic) in the third and final game for the night. The players tied at 185, when Dickinson forged ahead, winning by 38 points. The score was Dickinson 250, Thompson 212.

The breaks were:—
Thompson—30, 11, 23, 11, 18, 13, 10.
Dickinson—38, 20, 39, 14, 20, 12, 23, 16, 10, 10.
The players in to-night's games are:—

Name, Please!

If the "gentleman" who left an item on our desk yesterday afternoon, re the Aircraft Manufacturing Company and Contracts for Aerial Mail Service, will give us his name in verification of his assertion, we shall be glad to furnish the public with the text of his present anonymous communication—we will not say surreptitiously delivered—and therefore offer to Major Cotton an opportunity to reply to same. Major Cotton made his statement before a representative gathering of the business men of St. John's. It is up to the writer of the item referred to that he at least furnish the editor with his real name and not try to hide behind the acies of the Telegram which apparently he desires to do.

HOLD FOURTH ANNUAL REUNION.

The members of the Newfoundland Commercial Travellers Association celebrated their fourth Annual Reunion by the giving of a dinner in Grenfell Hall last night, the use of which was kindly given by Mr. A. E. Holmes, Superintendent, together with access to the kitchens and pantries of the institution. The catering was done by the proprietor of the Green Lantern and his capable aides, who were swift, silent and ready in service. The Hall was nicely decorated for the occasion, the principal tables being placed in the form of a horseshoe. Restaurant tables were used in the general scheme, seating from four to eight persons. The guest of honor was Sir Richard A. Squires, K.C.M.G., Prime Minister, others including Messrs. L. E. Outerbridge, E. A. Bowring, W. H. Cave, C. E. Hunt, W. J. Higgins, A. Soper, L. Shannon, W. G. Parsons, H. Holst, Harold Bishop, C. R. Duder, W. G. Goelling, J. J. MacKay, Karl Trappnell, W. White, F. F. Pittman, R. MacInerney, (Royal Bank) J. A. Young (Bank of Nova Scotia) H. H. Vavasour, D. McFarlane (Lloyds) W. H. Jackman, C. T. James (Telegram) R. T. Joy (Advocate). Mr. R. G. Ross made a capital chairman, and the order maintained throughout was splendid. These present represented all the phases of commercial life in the country and in consequence the speeches, as were to be expected were of very high order and exceedingly optimistic in tone. The programme as set forth below was interspersed with songs and recitations, the delight of travelers and guests being manifested by applause and calls for encores, which were given. Altogether it was a night to be remembered and too much praise cannot be accorded the Social Committee of which Mr. C. McNulty is Convenor, assisted by Messrs. W. H. G. Burns, C. C. Stranger, R. E. Innes, Fred Reid, H. J. Howlett, C. T. Scott, E. J. Johnston and A. E. Chowen—Secretary. The officers are: Hon. President, A. W. Miller, (who was present) President R. G. Ross (Chairman), Vice President C. McNulty, Sec.-Treas., A. E. Chowen, the Board of Management, being the officers—ex-officio, Messrs. S. Elliott and C. C. Stranger. The Green Lantern provided a menu which was as delicious in form as the viands were appetizing in preparation and all, thoroughly appreciated the dishes, which were discussed with the various dishes, viz:—

BELOW LEVEL OF HILLS.
Coming down the valley to Petty Harbour, the aeroplane was down so low that the hills on either side towered above it. After leaving their messages in the settlement, the aviators flew out to sea and came back at an altitude of 100 feet. On the return journey papers were dropped over the Wireless Station. The flight to Waterford Bridge was made at a height varying from 300 to 400 feet.

PAPERS FOR STEAMER.
Climbing to 2000 feet, the machine next made in the direction of Cape Spear, and coming down over the steamer Glenoe which had been jumped in the ice for some time, papers were again dropped. The aerobline skimmed over the topmast of the steamer at an extremely low altitude. The papers fell near the ship. An officer of the Glenoe told the Telegram to-day that three bundles of papers fell from the plane. One came close to the rail and another came down on the ice, fifty feet from the ship. The third could not be found. There were half a dozen papers in each bundle. The officers and passengers of the Glenoe greatly appreciate Major Cotton's thoughtfulness.

FOG IN DISTANCE.
After leaving Cape Spear, the aeroplane flew in towards town and after circling over the city, sometimes as low as twenty feet above the buildings, it returned to the pond and made a splendid landing. Major Cotton said that dirty looking weather was to be seen in the direction of Cape Race. The statement made yesterday in connection with the flight to Trepassy, was without authority. Major Cotton does not yet know how long he will remain in St. John's. The papers for the Westland machine are coming on the Sable Island.

TO-NIGHT'S HOCKEY MATCH!

At 1 p.m. representatives of the League met and decided game would proceed unless weather got softer, when the public would be advised by means of posters placed on the street cars during the afternoon. P. E. OUTERBRIDGE, Sec.-Treas., Feb. 3.

Kyle Delayed.

The Kyle was unable to leave Port aux Basques for Sydney last night owing to a S.E. gale which was raging in Cabot Strait. She left at 6 a.m. to-day with the mails and passengers who arrived at Port aux Basques on yesterday's East bound express. Sydney Harbor is now clear so the Kyle will go to that port instead of to Louisbourg.

Seaman Drowned.

Messrs. Fred H. Ellis & Co. have received a message advising them that a sailor named Dave had been drowned from the schooner Inspiration, whilst on the passage from this port to Lisbon. The unfortunate man is Job Dave better known as Joseph. He belongs to St. John's and is married, a wife and six children survive him. The oldest is Wm. aged 17 and the youngest is a girl aged 4. The Inspiration left here on Jan. 14 and arrived at her destination on the 28th making a splendid run across. To the family of the deceased the Telegram extends sympathy. The sad duty of informing the widow devolved upon Rev. Mr. Nicholls of St. Michael's Church.

MEIGLE LEAVING SYDNEY.

The Meigle which has been ice-bound at Sydney for several days, is getting away from the Cape Breton port to-day and will come to St. John's direct with a cargo of coal.

Papers Dropped on Steamer.

Aeroplane Flew to Petty Harb.—News papers and Messages Dropped—Flying at Low Altitude.
Flying as low as twenty feet above the steamer's masts, the Martynside aeroplane, piloted by Major Cotton, yesterday, dropped bundles of newspapers near the steamer Glenoe, ice-bound off Cape Spear.

FLIGHT TO PETTY HARBOUR.
The machine left the hangar at 3.30 p.m. yesterday. Capt. V. S. Bennett and a mechanic accompanying Major Cotton. Conditions were ideal for flying, and the temperature was 40 degrees on the ground and 18 degrees at an altitude of 1000 feet. The plane flew down along the road to the Goulds, dropping papers to the people in the wayside cottages. Reaching the settlement, the aviators were dropped, and the machine then made for Petty Harbour where papers and messages were thrown to the people below.

"Gaspe" Reported Abandoned.

WELL KNOWN BARQUENTINE GONE.
It was current rumour this morning that the Barque Gaspe owned by Baird Ltd., had been abandoned. Definite information has not been received by the firm. A radio from Cape Race, however, was received by Messrs. Bowring Bros. stating that the Schr. Gaspe had been abandoned in lat. 34.45N., long 51.44W. As the Barque Gaspe Capt. R. Wakeham is now 35 days out from Pernambuco it is thought that there was some slight error in the spelling of the message. It is evident that the crew were rescued and are O.K., otherwise some mention would have been made to the contrary. The Gaspe was built in 1903 and is 294 tons gross, 249 net. She has proven a good sailer and met with much success during her career.

Glenoe Arrives.

After being ice-bound off Cape Spear for over 36 hours, S.S. Glenoe reached port at 12.30 a.m. to-day. The Glenoe was on the South West Coast Service and is here for repairs. She became jammed in the ice when only five miles from port and it was not until 10 p.m. yesterday that the ice shifted sufficiently to permit the ship to move. It took 2-3 hours to make the five miles to port.

Seaman Drowned.

Messrs. Fred H. Ellis & Co. have received a message advising them that a sailor named Dave had been drowned from the schooner Inspiration, whilst on the passage from this port to Lisbon. Interesting Address.

LADIES' NIGHT AT LLEWELLYN CLUB—MR. A. B. MORINE SPEAKS ON "CANADIAN ELECTIONS AND THE WOMEN'S PART."

"Canadian Elections and the Women's Part" was the subject of an interesting and instructive address which Mr. A. B. Morine delivered before the Llewellyn Club last night. The occasion was Ladies' Night. Mr. Morine first gave a brief outline of Canada's political history, naming the various leaders, among whom were Sir John Macdonald and Sir Wilfrid Laurier. These two he thought were Canada's greatest political leaders, though Sir Charles Tupper was on the whole, probably the greatest Canadian. Referring to the Women's part, Mr. Morine said that in the States women had voted as women, while in Canada the mothers, sisters, wives and daughters of the soldiers who were enfranchised and last year all of the women, voted, not as women but as citizens, without relation to sex, and there they proved themselves, as he believed they would, if given a vote in Newfoundland, a helpmate to the men. Mr. Morine in conclusion assured his hearers that if ever he were elected to the House of Assembly, the women could count on his support, in enabling them to secure the franchise. The occasion was one of the most enjoyable in the history of the Llewellyn Club and the Hall was filled to capacity. An excellent concert followed Mr. Morine's address. The following contributed songs:—Miss Major, Rev. E. C. Earp, C. Fitzgerald, T. Seymour, H. F. Glass, R. Steele and Rev. C. A. Moulton, and recitations were given by Mrs. H. Outerbridge, Mr. T. H. O'Neill and Mr. T. P. Halley. Refreshments were served at the close of the evening. Before adjournment, a hearty vote of thanks was on motion of Mr. L. Colley, seconded by Mr. Morine and all who assisted in the concert. The National Anthem brought the meeting to a close.
