WHEN WILSON WAS FINALLY NOMINATED THE DELEGATES WERE TOO TIRED TO MAKE DEMONSTRATION

Missouri Remained Faithful to Clark Until the Last; Underwood's Leader Withdrew His Candidate's Name After Forty-fifth Ballot

GOVERNOR MARSHALL OF INDIANA HIS RUNNING MATE

BALTIMORE, July 2.—Governor Woodrow Wilson of New Jersey, was made the presidential nominee of the Democratic convention at the afternoon session today, when on the forty-sixth ballot received 930 votes to 84 for Champ Clark.

Only four ballots were necessary today to reach a nomination. When the convention adjourned last night, it seemed to be in an all but hopeless deadlock.

When he reached here, however, he learned that the Illinois delegation, at an early morning conference, had decided to switch from Clark to Wilson.

After the forty-fifth ballot, Senator Bankhead, Underwood's manager, ascended the platform to withdraw his candidate's name.

When the nomination was officially announced, friends and neighbors, both Republicans and Democrats, came to offer their congratulations and an impromptu reception was held on the lawn.

A mile away a brass band had been held in readiness and it was immediately dispatched for the Wilson cottage, when news reached them of the governor's nomination.

The governor played his golf game alone this morning and did not even keep a score. He returned to the cottage in time to be on hand when the convention resumed its session.

In this connection he told a story concerning a visit of President McKinley to his home at Canton, Ohio.

Governor Wilson said that at one time during the campaign he completely despaired of receiving a nomination.

At the evening session, after two ballots had been cast with Gov. Marshall of Indiana, leading Gov. Burke of North Dakota, the candidate who had run second with Wilson.

WESTERN CANADA "BRIGHT GREEN PATCHES" THAT MAKE CANADIAN PROSPERITY

Written by John Cagwell for The Morning Albertan, and "Western Canada Week by Week," the issue of the Publicity Branch of the Canadian Pacific Frigate and Colonization Society.

"But what is it," the little-travelled man sitting on the observation platform asked, "that makes this splendid prosperity you claim for Western Canada?"

The feature of the man who knew, covered the surrounding country, as he answered, "The bright green patches."

Some one, years ago, mentioned in passing that "the basis of all wealth is land." He has never been successfully contradicted.

Western Canada already has several cities of over fifty thousand population, more over twenty-five thousand, a great many over five thousand and a legion of smaller cities, towns and villages.

Then the cities will show the effects of the rural activity and the clang of manufacture will fill the air with discord but the pockets with dollars and all will be prosperity.

WATER WILL BE DIRTY AGAIN TOMORROW AND MANY WILL PUT THEIR FOOT ON THE RAIL

"THE city water will be dirty again tomorrow," said City Engineer Child to The Albertan last night.

"If the people are afraid of it they had better fill their bathtubs and pails, as there is absolutely nothing we can do to remedy this until the filtration plant is put in," the engineer continued.

"We are also having a great deal of trouble these days with some of the sewers, which are overflowing. Complaints are coming in here all the time from residents who are having either their cellars or yards flooded.

Superintendent of Public Works Gardner said he was having his troubles too. He looks after all the complaints and yesterday they were many. He informed The Albertan that he had all the public works men and teams busy attempting to fix the many overflows.
