THREE KILLED, SIXTY INJURED

Railway Coaches Telescoped and Scores of Passengers Injured

British Force Advancing to Kumassi Delayed By the Rains—New Sun Spot.

London, June 18.—The collision between an express train and a train filled with Windsor race-goers, referred to in Saturday's dispatch, resulted in the death of three persons (not six), but the total number of those injured in the accident is 61. The race train was standing at Slough station, when the express dashed into the rear end of the former train. Some of the coaches were telescoped. The severe injuries sustained consisted largely of broken limbs. Mrs. Bernard Beer (Mrs. G. W. Ogilvie), the actress, was badly bruised and cut about the arms.

ONE KILLED, THIRTEEN INJURED

Paris, June 18.—A tramcar, while descending an incline on the Grande avenue de Trocadero, got beyond control, and, gaining terrific speed, jumped the track, and was finally stopped by coming into contact with a tree on Pont de l'Alma. One passenger was killed and thirteen injured, among the latter being Alexander Caesar, an American, who was slightly hurt. Two carriages were overturned by the car in its descent.

KUMASSIE.

London, Monday, June 18.—The Daily Express has received the following dispatch, dated Friday, from Prahsu:

"No additional news is to hand from Kumassie. The incessant rains are delaying the advance of the relief column, which is likely to see some rough work. Seven wounded officers and 130 wounded men are expected here from the front.

"There is a general rush of natives towards the coast from Obuassa and the mines north of the Prah River."

THE BALKANS, NOW.

Sofia, June 18.—Owing to the anti-tithe trouble in the Varna district, a squadron of cavalry sent to the village of Durankuluk were fired on during the march and two officers killed. The soldiers returned the fire, wounding 30 peasants. A state of siege has been proclaimed in the Varna and Shumla districts.

NEW SUN SPOT.

Paris, June 18.—Abbe Mareux, the astronomer, has discovered and sketched through the big telescope in the Optic Palace of the exposition a remarkable spot on the sun, forming a part of an extensive group and having a diameter of nearly 40 kilometres. This spot, he says, will remain for seven days, and become visible to the naked eye. He predicts the appearance of other spots in July, August and September, inferring that the heat during those months will be very great.

France will grant a reduction of 20 per cent on the duty on Brazilian coffee. Brazil during the last six months has sent to London 900,000 pounds of coffee.

The question of the Canadian relief fund is being much discussed. It is generally felt that it would be a peculiarly graceful act were Canada, while expressing her heartiest appreciation of British sympathy, to suggest that the money received at last week's cafe chantant, and the amount realized at the Drury Lane matinee, which will be held next week, will be applied to the relief of 54,000,000 of the Queen's subjects in India, who are suffering from that terrible plague, cholera and famine, instead of being sent to swell the already over-full Ottawa-Hull and other Canadian relief funds.

HEAPS OF GOLD

Are Coming Down From the Klondike.

Output Will Exceed Last Year's—News From Cape Nome.

Seattle, June 18.—The steamer Dirigo has arrived from Lynn Canal, having on board 85 passengers, who brought down $300,000 in gold dust. The passengers all declare that this summer's output from the Klondike will be much larger than last, and estimates are made all the way from $25,000,000 to $40,000,000.

FROM CAPE NOME.

The steamer Jeanie, Capt. Mason, arrived last night, 14 days from Cape Nome, with few passengers and no freight.

The Jeanie brought out no gold except what was in the possession of her passengers, as it has not been possible to do much work during the winter season. The Jeanie was the first vessel to break through the ice and reach Nome this season. She sailed from Seattle, May 2 and arrived at Nome May 23. The Jeanie brings news of all the vessels of the fleet. They are waiting the breaking up of the ice, some remaining at Dutch Harbor and others scattered along to within 140 miles of Cape Nome. Several of the vessels, including the revenue cutter Bear, are frozen in about 105 miles from Nome. Returning passengers report the general health at Nome to have been good throughout the winter. There has been lack of accommodation and prices for everything are high, but the situation will be relieved as soon as the ice shall break and freight vessels get through.

WHERE CAPE NOME IS.

Cape Nome is situated on the shore of Bering Sea at the mouth of Snake River, Seward Peninsula, central-western Alaska, U. S. A., 65 degrees north latitude and 166 degrees west longitude and, by the ocean route, distant from its base of supply, Seattle, some 2,700 miles. In making the ocean trip from Seattle one steams westward for 1,900 miles across the North Pacific Ocean to Dutch Harbor, on the Aleutian archipelago, and thence northward 800 miles to the land of gold, passing en route the government's seal-rookeries on the Pribyloff Islands.

McKINLEY AND ROOSEVELT

Will Most Likely Be the Republican Presidential Team.

Philadelphia, June 17.—The long-advertised stampede for Roosevelt four days before the nomination can be made is such as to indicate that it probably cannot be checked. Nothing but a positive declaration from Gov. Roosevelt that he would not accept the nomination after it was made would stop it, and he will not make that declaration.

Philadelphia, June 18.—Unless the consensus of opinion of the most experienced political observers in the country is awry, the selection of a candidate for vice-president virtually will have to be made before today shall close. The key to the situation is held by Gov. Theodore Roosevelt, of New York. He alone can unlock it, and it seems certain at this writing that McKinley and Roosevelt will be the slogan with which the Republicans will appeal to the country in the approaching campaign.

The most startling example of human helplessness is the paralytic.

The victim excites your commiseration, but resents your pity.

He of the palsied hand stiffly pressing the benumbed side is to be seen everywhere we go.

The most convincing proof that this pitiable condition is the outcome of kidney disease is the fact that Dodd's Kidney Pills cure it.

Not generally recognized as a kidney disease, it succumbs to kidney treatment.

Did you ever know of a cure? Just think a moment!

If you do it must have been the work of Dodd's Kidney Pills, for no other medicine ever yet cured.

EACH SHOT TOOK EFFECT.

Chicago, June 18.—A special from Flora, Ind., says: Perry Barnard last night shot and killed Jennie Davis, his former wife, who had recently secured a divorce, and dangerously wounded her mother and three-year-old daughter. The tragedy occurred as they were returning from church. Three shots were fired and each took effect. Barnard's former wife was preparing to leave town, and Barnard, who was attached to the child, had heard of it, and was determined that they should not go. Barnard escaped.
