THE DREIBUND RENEWED

Treaty Between Austria-Hungary, Italy and Germany

Signed Again at Berlin—The Act a Foregone Conclusion.

Berlin, June 30.—The treaty providing for the prolongation of the alliance between Germany, Austria, Hungary, and Italy (the dreibund), was signed in Berlin Saturday morning by the imperial chancellor, Count von Buelow; the Austrian ambassador, L. von Szogy-Marich, and the Italian ambassador, Count Lanza di Busca. The alliance was renewed in its original form. The announcement of the signing of the document did not cause surprise, the renewal of the dreibund having been taken as a foregone conclusion since Count von Buelow's conference with the Italian and Austrian ministers during the Easter holidays. The German officials have never evinced the slightest concern at the many reports emanating from Paris and other diplomatic centers, representing the prospects of a renewal of the dreibund to be given, for they felt all along that Italy's flirtation with France was not intended to be disloyal to her Teutonic allies. The officials here regard the signing as the preparing the way for a renewal of the commercial treaties between the three countries, although emphasizing Germany's determination to keep political and economic questions apart.

HUSBAND AND WIFE.

St. Hippolyte, Que., June 30.—Mr. L. A. Paquin and his good wife have the kindest things to say for Dodd's Kidney Pills. Mr. and Mrs. Paquin have both been ill. The former was so sick that he was unable to work. He had kidney trouble, which gave him great pain. His wife had had a similar trouble some time before, and had been completely cured by Dodd's Kidney Pills, and when Mr. Paquin found himself very ill he thought he would try the remedy his wife had found so valuable. He says: "We are both now quite well and able to do our work as well as ever. We keep Dodd's Kidney Pills on hand, and use them occasionally if we feel the slightest indisposition."

Prisoners Escaped.

Kingston, Ont., June 27.—Buckley or Bronson, a convict in the penitentiary, working on the farm, gave the guards the slip and made off. He got a start of ten minutes before being missed. A regiment of guards is searching for him, and at 6:30 p.m. had located him in a woods about three miles north of the city.

Rheumatism Constitutional Disease The pain and localized conditions are mere results of constitutional conditions. Poisoned blood is the cause of all various parts of the body, and to cure permanently you must treat its constitutionally. Nothing so completely dispels these poisons from the system as Ferron's. It makes new blood, imparts vitality and vigor, enabling the system to throw off the poisons that engender rheumatism. Ferron's also fortifies the system against the weakening effects of rheumatism, and cures, not simply relieves, its most obstinate forms. Sold by W. T. Strong & Co.

DEWET AVOIDED CAPTURE

By Never Sleeping in Any of the Farm Houses.

Commander Never Slept at the Same Spot Two Nights Running.

London, June 30.—Details of the Boer's campaign methods are now being learned from the surrendering burghers. South African dispatches say that Dewet never slept in farm houses, but in the open air. Among his last orders to burghers was one indicating a fine of 25 lashes on any burgher found sleeping in a house.

Dewet tells of many interesting incidents which happened on the Boer side. The commandos never slept at the same spot two nights running, thus making it very difficult for the British to make successful night raids. Their movements were so rapid that they were so well posted that if a British column or convoy moved from any post all the commandos within 70 miles knew it the same day. Thus giving them time to prepare for attack or clear off. News of the route of the march of the column or convoy was sent from commando to commando, all being soon acquainted with the different movements.

The sjambok was frequently used by the commandos to bring wavering burghers into the fighting line, its use having a far greater moral effect on the burghers than any other punishment. Dewet himself gave some instances in which he used the sjambok.

A BOER GIRL'S GRATITUDE.

When arrested for being in unlawful possession of a chain made of gold and hair and set with diamonds, which he had tried to pawn, a porter named Michael Walsh, a man who had the property name his, and that he had acquired it under romantic circumstances. He said that he served in the South African war for two years, and that a Boer girl whom he befriended, gave him the chain and £40 in money. The diamonds in the chain were said to be worth at least \$45. The police informed the Southwark magistrate yesterday that they had made inquiries, and found that the story was substantially true. Walsh was accordingly discharged and the chain restored to him.

Something in a Name.

Washington, June 28.—Stress of business and the death of time will lead to a change in President Roosevelt's signature. He has always been reluctant to write out his first name in full, but he finds that it will save him about 50 per cent of time and trouble to make it T. Roosevelt. The name of his youngest child, about 1,000 times a day it makes a big difference. There is a man in the office of the auditor for the postoffice department who, it is said, owes his name, and he does that for about eight hours a day steadily.

News has reached London of the death at Sydney, New South Wales, of Charles Dickens' youngest child, Edward Bulwer-Lytton Dickens, who went to Australia in 1862.

RESULT UNDER GERBYMANDER

Popular Vote From 1882 Down to the Year 1900.

SOME INSTRUCTIVE STATISTICS

Conservative Vote in Ontario Constituencies Given Undue Representation at Ottawa.

[Brantford Expositor.] We hear a good deal from the Conservatives press these days about the enormity of the Ross Government attempting to hold an office in view of the fact that it did not secure a majority of the popular vote in the recent elections.

The cry is a silly one, for the reason that the popular vote is distributed over 98 constituencies, and members of parliament are not returned on the basis of the aggregate vote, but on the vote by constituency.

Under this system, the Conservative party has usually been represented at Ottawa out of all proportion to its strength in the province. We have never heard from its newspaper advocates in this province any protest because of this fact against its representation in this connection the appended statistics will be found most instructive.

Total Ontario vote in:	Lib.	Con.	Lib. Con.
1882	134,555	138,216	38 54
1887	176,464	131,249	37 55
1891	178,026	121,772	44 48
1896	198,553	194,916	47 45
1900	207,482	215,775	37 55

In 1882 when the first general election after the gerrymander was held, the Liberals were only in a minority of 3,761 in the popular vote, but the Conservatives sent 54 members to Ottawa, while the Liberals sent only 16 or sixteen less. Had the representation on the basis of the aggregate vote been maintained, the two parties would have been about equally represented.

A similar discrepancy prevailed as a result of the general elections of 1877, when the Conservatives, with a majority of only 4,855 of the aggregate vote, sent to Ottawa 18 more representatives than their opponents.

In the general election of 1891, the Liberals had a majority of the popular vote in this province, yet they were placed in a minority of four as regards representation at Ottawa.

In 1896 the Liberals had a majority of 3,637 of the popular vote, and a majority of two at Ottawa. This is the nearest example of representation in proportion to actual voting strength in the province which the record of Ontario representation at Ottawa affords.

In 1900 the Liberals had a popular minority of 8,903, but the Conservative preponderance in representation was out of all proportion to this. After two general elections the Conservatives have been in a minority of the popular vote cast for representatives of the House of Commons, and save in one contest, they have been represented at Ottawa since 1882 largely in excess of what they were fairly entitled to.

In Ontario, as the result of a fair estimate, the Liberals are in a minority of about 4,000 in the popular vote, and they have a majority in the Legislative Assembly at the present time of three votes. There may be, on the face of the figures, something anomalous in this position of affairs, but such anomalies are always possible under our system of representation, and it is as nothing compared with the gerrymander which, thanks to the gerrymander of 1882, have so often prevailed in the matter of Ontario's representation at Ottawa.

The Great Hood Farm Auction Sale.

Largest and Best Sale of Jerseys in This Country for Years.

The recent auction sale at Hood Farm, Lowell, Mass., dispersed 154 beautiful Jerseys to breeders and farmers all over the country from Maine to Ontario, and was the most successful sale of American-bred Jerseys that has been held in this country for years. There was an attendance of over 600, there being 58 different buyers, comprising the best known Jersey breeders in the country. The sale was conducted by Peter C. Kellogg, of New York.

The 48 cows sold brought \$1,165, an average of \$24.08, 67 heifers and calves sold for \$5,890, and 33 bulls and bull calves brought \$2,325, the latter being the great show bull Hood Farm Pogs 9th sold for \$3,810; 19 by Toronto for \$2,507; 8 by Sophie's Tormentor for \$2,296, an average of \$120.80, by Chroma \$24. Three young heifers by Hood Farm Pogs 9th, brought \$655, an average of \$218.

The remarkably good prices brought by the young heifers of Hood Farm Pogs 9th sold that breeders appreciate the great breeding represented in this young bull and his progeny. None of these heifers are in milk, their average age being about 14 months. Eyes with long, sharp corners indicate the highest price paid for any female not in milk. Hood Farm Pogs 9th is retained at the head of the Hood Farm herd. He is a son of the famous cow Figgis, by the great show bull Hood Farm Pogs. Piggis herself was the great plum of the sale and was bought by the well known banker and copper magnate, Mr. Thomas W. Lawson, of Boston. The price paid was \$575.

This sale reduces the Hood Farm herd to a more convenient basis for business, and young stock from the great producing sire and dams at Hood Farm will continue to be in demand among progressive breeders. Besides others, the herd now contains 39 daughters and granddaughters of Sophie's Tormentor and 10 daughters of Hood Farm Pogs 9th.

The famous imported Berkshire boar Samba, which Mr. Hood himself bought in England two years ago, was purchased for \$2,000, this being of Springfield, Ill., for \$150, and about 60 other choice Berkshires were sold at average prices which showed that the demand for this breed of hogs is good.

If capitalists would corner the street car hog no world would have a kick coming. THE WORLD IS FULL OF PAINS.—The aches and pains that afflict humanity are many and various, but the multitude of indistinguishable causes, but in the main owing to man's negligence in taking care of his health. Dr. Thomas' Electric Oil was the outcome of a universal cry for some specific which would speedily relieve pain, and has filled its mission to a remarkable degree.

JURY BRIBERS CONVICTED

Outcome of Street Railway Co.'s Victory in Court.

Their Counsel Fined \$2,000 Each—One to Sent Penitentiary.

Chicago, June 30.—The omnibus trial of alleged jury bribers which has been in progress for three weeks, terminated Saturday evening, all of the defendants, seven in number, being found guilty. Wm. J. Gallagher is given an indeterminate term in the penitentiary, P. H. O'Donnell and Jas. T. Brady and Cyrus S. Simon, lawyers, are fined \$2,000 each; John O'Donnell, a brother of P. P. O'Donnell, a fine of \$500; H. T. Lawrence and Herbert Rothery, jurors, a fine of \$200 each.

The trial grew out of the troubles of the residents of the suburb of Austin, with the Union Traction Company, which operates practically all the street car systems on the north and west sides of the city.

The people of Austin demanded that they be granted, in compliance with an ordinance, passed by the city council, passage to the city for a single car. The company refused to obey the ordinance and caused the ejection of a number of people from the cars.

The case was set for trial on the 27th, and the company's attorneys, who were defended by Cyrus S. Simon, an attorney, regularly employed by the company, and by O'Donnell and Brady, as special counsel, were decided in favor of the company.

Charges of bribery were at once made against the company and the Traction Company and a number of the jurors. The case was on trial for three weeks, and has been bitterly fought.

Among the witnesses for the state were several jurymen, who swore positively that they had received \$5 of their votes in favor of the company.

Wm. J. Gallagher, who was sent to the penitentiary was once convicted of ballot box stuffing, and served a term in state's prison.

WEALTHY MEN ATTRACTED

To Invest Their Capital in the Canadian Northwest.

One Has Bought 3,000 Acres Near Calgary—Others Are Going.

Ottawa, June 28.—The immigration department is constantly receiving evidence that the energetic immigration policy inaugurated by the minister of the interior is not only bringing in large numbers of settlers from the United States, but is also attracting to the western prairies men of wealth and position, who have already made a success of life, and who may be expected to take an active interest in the development of the districts in which they locate.

One of the most recent cases of this kind is reported by Mr. M. V. MacInnes, Dominion agent at Detroit, who forwards particulars respecting the location of Mr. Peter Mulrhead, of Orchard Lake, Michigan, on a ranch of 3,000 acres near Calgary. Mr. Mulrhead is worth \$300,000 and bought the property for a home and paid cash for it. It is understood that a hundred or more families will follow his lead.

In a letter to Mr. MacInnes Mr. Mulrhead says, with respect to a trip he had made to the Canadian west, "I have lived all my life in Michigan, but after seeing your exhibit at the state fair last year at Pontiac, and having several talks with you regarding the country, I decided to take your advice and go and see the country for myself. I visited every part of it and found the farmers contented, prosperous and happy—the climate grand—the land, I believe, the best on earth. The country will go ahead and the settlers will do likewise. I bought a ranch, 3,000 acres of deeded land, with 1,000 acres of timber and 150 head of horses, a \$5,000 house, furnished from Walter C. Shirine, near Calgary, and paid him \$51,000 cash. I am going back at once and will take with me 40 new settlers (friends of mine) who will accompany me back. Beautiful Southern Alberta, in my mind the finest stock-raising land on earth will be my home after the first of the coming month."

SHE GAINED ELEVEN POUNDS

And Was Brought Back From Nervous Prostration to Health and Strength by Using

DR. CHASE'S NERVE FOOD.

There is no faith cure about Dr. Chase's Nerve Food. You do not need to imagine it is doing good. You can prove it by keeping a record of your weight. This food cure acts in a perfect natural way. In fact, it is nature's own cure, and is composed of the most powerful restoratives and invigorators that science has yet discovered.

Take the case of Mrs. West, as described in her letter quoted below. She was pale, weak and run down in health. Her blood was thin and watery, and her nerves so starved and exhausted she was prostrated. Dr. Chase's Nerve Food cured her, and added new, firm flesh to her body to the extent of eleven pounds. You will find her letter interesting.

Mrs. S. W. West, Drayton, Wellington county, Ont., writes: "About two years ago I got terribly run down, and finally became a victim of nervous prostration. I had no appetite, seemed to lose interest and ambition and could scarcely drag myself about. Hearing of good results from the use of Dr. Chase's Nerve Food, I used three boxes with great benefit from this preparation. I gained eleven pounds, and as I was very thin when I began to use the remedy I was very proud of the increase of weight."

"Then the following spring I became rather poorly, and they again built me up, and gave me such a good appetite that I wanted to eat nearly half the time. I was so pleased with the cure the Nerve Food brought about that I recommended it to others, and they have told me of the benefits they obtained from this preparation. You may use this testimonial in order that others may learn of the good there is in Dr. Chase's Nerve Food."

If you have been affected as Mrs. West has, if you are not feeling real strong and well, you will be surprised at the good that Dr. Chase's Nerve Food will do you. It puts color in the cheeks, restores out angular and wasted forms, and brings new hopes, new confidence and new life to take the place of despondency, weakness and disease. 50 cents a box, six boxes for \$2.50, at all dealers, or Edmanston, Bates & Co., Toronto.

LAUNDRY.

LEE KEE, CHINESE LAUNDRY, 489 Dundas, opposite Dundas Center Church. First-class work. Parcels called for and delivered.

TWO TROLLEY CARS CRASH TOGETHER

Some Thirty-Five Passengers and Employees Injured.

A MOTORMAN MEETS DEATH

Boat Upset by a Squall and Five Persons Drowned—A Death-Dealing Tornado.

Marlboro, Mass., June 30.—In the head-on collision between two heavily-loaded cars on the Hudson division of the Marlboro Street Railway Saturday evening, Motorman John H. Harris received injuries which caused his death and about thirty-five passengers and employees were injured, several of them to such an extent that they were removed to hospitals for treatment.

Deaf John H. Harris, motorman, Marlboro. Badly injured: Daniel O'Leary, Marlboro; Miss Mary L. Smith, Leachdale, both legs broken; F. E. Larrabee, Marlboro, three ribs and leg broken; John F. Savage, Marlboro; William Wilson, Marlboro, both legs broken; Alex. Lord, Marlboro; Mathew Bolon, Marlboro; Patrick O'Brien, Marlboro; Edward Fahey, Marlboro.

About twenty-five others were slightly injured, but were able to go to their homes.

FIVE DROWNED

Charlotte, N. C., June 30.—A special from Washington, N. C., says: With a fearful burst of thunder and lightning, one of the hardest electric storms ever known struck here Friday night. The average velocity of the wind was about 45 miles an hour. The tug J. L. Patterson, belonging to the Kugler Lumber Company, was towing two schooners, run by E. B. Moore, a fish dealer here, and when the squall struck the winds turned the boat on her side and she took water. The boat was turned on end, and the pilot was entirely torn away, carrying with it two persons. Five persons were on the boat. All are drowned.

The dead: William Wombley, captain; Henry Davenport, engineer; Dick Waters, fireman; John Cherry, cook; Allan Moore, son of E. B. Moore, was on the boat in the pilot house, and was carried off by the wind and waves.

Real Estate Sales buoy tender Viola was in port, and it took two submarine divers and went to the scene of the disaster. Several tugs are assisting in the recovery of the bodies.

ALL THREE PERISHED!

Halifax, N. S., June 30.—Capt. Wilbur Wambolt and two brothers, John and Norman, of the fishing schooner Icaida, of Lohave Island, were drowned in the early morning storm. The captain went to the rescue of the brothers, whose dory was upset, and all three perished.

WALKED INTO THE WATER.

Portage, Ont., June 30.—Daniel Canniff, aged 28, employed in McKie's log camp on the lake, was drowned Thursday evening. Canniff accidentally fell overboard from a float into the water, and never came up. The body was found afterward in 27 feet of water, and brought to town in the morning. Deceased was from Madoc, Ont., where his family resides.

DEADLY TORNADO.

Evansville, Ind., June 30.—Three persons were killed and seven or eight badly injured in a tornado that passed through this county Saturday night. The fatalities occurred at St. Wendel, about ten miles from this city.
