HUMANE SOCIETY DOG TROUGHS APPRECIATED

Birds and Animals Quench Thirst at Little Tubs Placed Around City.

Adam McGuire, humane society officer for London, has placed out thirty dog troughs in the city so birds and domestic animals may have fresh drinking water during the hot wea-ther. The society has received many compliments for this work and in front of private houses, where these troughs have been placed, it has been observed that birds and dogs alike use them o quench their thirst.

Wherever the troughs have been placed it has been with the understanding that they are to be kept

Practically the Same as Mediators and Huerta Envoys Have Approved.

OUTLOOK IS PROMISING

Constitutionalist Attitude Still Has Considerable Influence on Proceedings.

Niagara Falls, Ont., June 9.-The mediators today submitted to the Mexican delegates the counter-proposals of the Inited States Government for the pacification of Mexico. The American plan is, with few modifications, the same as that which the mediators and Mexican delegates recently agreed upon, and which Gen. Huerta approved. It provides the method of transferring the executive power in Mexico City from the present regime to a new provisional government, which shall in a few months penters who remain at work. onduct elections for president, vice president and members of congress.

No names have been agreed on between the Mexican or American delegates for the new provisional president or his ployees. cabinet. In fact, neither side has made its nominations.

The program of the proceedings about as follows: Within a day or two the Mexican plan and the American plan will have been

dovetailed into one, and a full conference of all parties will be called. Final approval is not expected to be given by either party, however, as the American securities opened quiet and unchanged. Light covering advanced the leaders during the forenoon and later the entire list improved on New York buying. The closing was steady.

mediators then will ask the American delegates to begin to ascertain the attitude of the Constitutionalists. This may proceed through the Washington Government, or in any manner the delegates mediators then will ask the American choose. The mediators will take a brief recess in the meantime.

Constitutionalists Considered. Should there be any new suggestions from the Constitutionalists, the United States Government will endeavor to arrive at a compromise with them, and when an agreement is reached the results will again be placed before the mediaton

board and the Huerta delegates. The expectation is that if the Constitution alists are willing to discuss the peace plan with the American Government, an New York, June 9. — (Wall street, noon)—The early rise was carried further during the morning session although the

Scarcity of stocks was evident from the ease with which prices were advanced despite the unusual volume of gold exports, which ordinarily might handican ports, which ordinarily might handicap bullish efforts. United States' Stipulation.

Everything that has been advanced by the American delegates in their proposals for peace has been contingent upon ultimate Constitutionalist approval, so that there is a confidence in many quarters that agreement with the Constitutionalists will not be a difficult task, even if they do not join in the confer-

It is said the entire peace plan is composed of less than 300 words. It sets forth suggestions for the conduct of a fair election and recommends that recognition be accorded the new provisiona government, provided it is set up along

the lines agreed upon. The mediators were confident today of reconciling the counter-proposals of the American delegates, with those of the

Mexicans. The Antilla incident is not entirely closed, but it has passed the danger stage and cannot disrupt the proceed-

ings. No War Indemnity. Mexico will not be asked by the United States to pay war indemnity. The

Huerta Government has learned through the American delegates that the Wilson Administration will be content to have set up in Mexico a stable government to succeed Huerta rule. Withhold Correspondence. It was announced by the mediating

plenipotentiaries last night that they would make public today their correspondence with the Constitutionalists, but word was received today through the American delegates that Gen. Carranza's answer to their latest note already had been dispatched to Washington, and would be forwarded by Rafael Zubaran. It was decided, therefore, to withhold publication for the present.

CARPENTERS' DIFFICULTIES ARE STILL UNSETTLED

Bosses and Men Fail to Reach Compromise-Strikers Declare Their Views in Circular.

Carpenters holding out for a 40-cent minimum, and contractors are still at odds. There is no sign of any agreement yet. Bricklayers who were asked by the carpenters to go on strike in sympathy with them, have not yet done so, although the movement is expected, according to several of the

Tom Moore, general organizer of the Carpenters and Joiners of America, who has been in London in an attempt to adjust the difficulty, is out of town today. The officials at the headquarters refuse to give out any news concerning the strike.

Issue Defi. L. H. Martyn & Co., contractors, have issued a defi to the strikers. None of the large contracting firms are meeting the demands of the men for 40-cent minimum.

Mr. Martyn thought that the contractors would hold out stubbornly against the demands of the men. "With 40 cents as a minimum, the prices for the best men would be about 60 cents an hour. This is an increase of about 50 per cent," he said. "It is too much, and will have to come out of the public. They will not stand
