## ENTENTE CONTROLS ALL COMMUNICATION WITHIN BULGARIA

New York, September 30.—The Associated Press tonight, in summarizing the day's events, referring to Bulgaria's surrender, by which "all the territory now held by Bulgaria is to be evacuated, the Bulgarian army is to be demobilized and all means of transport inside the kingdom given over into allied hands," says:

"In addition to the isolation of Turkey, the back door to a direct invasion of Austria-Hungary is flung wide open to the allies and doubtless the time is not far distant when advantage to the full will be taken of the new avenue through which the enemy can be reached. With the debacle in Siberia and Bulgaria complete, the Austro-Hungarians in Albania soon will be put to the test, and when their evacuation to their own borders is accomplished the allies will have welded an iron semi-circle about the central powers from the Black Sea to the North Sea."

"Viewing the situation in all its aspects—the success of the great offensive in Belgium and France, the blotting out of the war zone in the Balkans, the cutting off of the Turks from intercourse with Germany and Austria-Hungary, except by the long route through the Caucasus, and the steady gains that are being made by the allies in making Russia once more a factor in the struggle—the darkest days of the war seemingly are faced by the Austro-Germans."

You will need less of other and more expensive foods. There is concentrated strength for muscle and brain in every single cup.

Truest economy—use FRY'S
