

COASTING REGULATIONS

The Customs Department at Ottawa has issued a circular to the customs houses of the Dominion stating that evidence in the possession of the department goes to show that they are carrying on the coasting trade and other customs officers in connection with the trafficking in small open ports and places not duly registered and has not a certificate of registry on board. Only British registered vessels and boats are permitted to coast along the coast of the Dominion and British subjects and such other boats and vessels as may be owned by the subjects of countries included in any treaty of Great Britain with the Dominion. The United States vessels cannot be allowed to, in any manner, to be engaged in coasting trade. Coasters are not permitted to go on a foreign voyage without reporting in the same manner as may be required from all vessels coasting along the coast of the Dominion. The collector of the port may assign to any vessel or boat not allowed to go from place to place in Canadian waters for the purpose of making up or discharging cargo, such as such a vessel would be in violation of the existing regulations. The collector of the port may assign to any vessel or boat not allowed to go from place to place in Canadian waters for the purpose of making up or discharging cargo, such as such a vessel would be in violation of the existing regulations.

INTERNATIONAL MARITIME LAW

The argument of U.S. Minister Phelps regarding the seizure by Canada of American fishing schooners for violation of the laws of the Dominion is a very voluminous document and deals at length not only with the partitioning of the various waters made by the Dominion but also with the whole history of the fishing question for that seventy years. It is a very voluminous document and deals at length not only with the partitioning of the various waters made by the Dominion but also with the whole history of the fishing question for that seventy years.
