

TROTTING WAS FAST.

Carrie S. Carried Off the "Free-for-All" at Saturday's Race Meet.

Once More Victoria Scores in League Cricket—The Finals at Henley.

Apparently it would require an English Derby, and a pretty good one at that, to attract a big crowd to a horse race in Victoria, but the meet Saturday at the Victoria Driving Park demonstrated one thing, that the new management of the track should be popular.

The judges, Messrs. Wm. Dalby, Dixie Rose and T. E. Macabe, called the race at 8 o'clock and three starters lined up as follows: N. D. Macaulay's bay mare Willeana to the pole; A. Warren's chestnut gelding Conde, and R. B. Dixon's bay mare Carrie, of Vancouver.

The second heat went to Conde, once more hardly pressed by the field. Willeana broke again in the start and this, as also the subsequent heats, could not be got down to steady work.

In the third and fourth and fifth heats Carrie S. set the pace. She appeared to be improving in form as the work grew warmer. Her third was made in 2:23.5; her fourth in 2:24.5; and her fifth in 2:24; the latter time being particularly good in consideration of the dead condition of the track.

The second race in merit and in order on the programme was a running match, half mile and repeat for a purse of \$300. H. Wright's well known b. g. Jim Murphy, and J. Shaw's b. m. Bright eyes were the competitors.

In the fifth and last event of the programme a great amount of amusement was created by the blue jacketed Walter L. Main's procession of wild animals was not more imposing. Horses of every gait, a barn yard education could have been given to the spectators.

NEW RECORDS FOR MONTREAL. MONTREAL, July 16.—The kings of the turf, John K. Gentry, 2:01 1/2, and Robert J. 2:01 1/2, gave a splendid exhibition at Lepine Park yesterday.

YACHTING. THE WIND FAILED. The "A" class yachts Ariadne and Volage, of the V.Y.C., started on time in their race yesterday, but unfortunately, owing to the wind failing, the yachts were not able to finish the second round.

Reports from various salmon fisheries in Alaska are that fish are very scarce. The fishing season at Orca has been very poor so far, and a small pack will be made.

THE former president of the Orphan Pot Mining Co., Mr. J. W. Haskins, was arrested yesterday here by provincial constable Campbell, who had come over the previous day from Vancouver to make the arrest.

Dear Editor.—Please inform your readers, that if written to confidentially, I will mail in a sealed letter, particulars of a genuine, honest, home cure, by which I was permanently restored to health and manly vigor, after suffering from chronic nervous debility, weakness, loss, and weak shrunk parts, for many years, and which was cured by the quack, until I nearly lost faith in mankind, but thank heaven, I am well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and am in the university brotherhood man, desirous of helping the unfortunate to regain their health and happiness. I promise you perfect success. Address with stamp on a similar charge to Revelstoke, some of the shareholders of the company laying the information in each case. Has the in a short time past been running the Globe restaurant here.

THE CITY.

CYCLING accidents are becoming more numerous as the season advances. On Sunday a young rider returning from Goldstream lost a finger as the sequel of a bad fall while at Beacon Hill a broken leg told a story of too much cycling.

Mr. A. M. WRIGHT, of Roseland, and Mr. E. B. VANCOUVER, who admitted to practice yesterday by the benches of the law society and were afterwards presented to Mr. Justice Drake by Hon. C. E. Tooley, Q.C., and took the usual oaths.

MAYOR REDFERN yesterday stated with regard to the communication signed by Rev. Canon Beauland which appeared on Sunday that the city authorities have issued no regulations as to bathing costumes to be worn by those who bathe in the Arm.

The fund for the Victoria Order of Home Nurses now totals \$328.20 in the hands of the honorary treasurer, Nelson public school having just sent in \$5.15. It is believed that there has been about \$80 collected in the city that has yet to be turned in to the treasury, and the probability is that Victoria will have \$500 or thereabouts collected by the time the list is closed.

A. L. BELVERA, on Sunday, reached home after a three weeks' trip to the Slokan country. He was at Nelson, Kaslo, Sandon and other parts of the Kootenay, and what he saw of that part of the province was highly interesting.

Mrs. WATSON, of Toronto, writes to Chief Sheppard from that city, seeking information as to her son Michael, the missing young man left Toronto in August of 1893, and is, according to the mother's description, "21 years of age, and born in Kingstown, Ireland. The police are unable to locate the wanderer from this description, but should this paragraph meet the eye of anyone who knows Michael or of his whereabouts, they would be lifting a heart burden for one poor mother by telling her promptly where her son is to be found.

SEATTLE papers chronicle the fact that Carl Hamberger, the defaulting treasurer of the Sons of Herman, who was arrested by the police of this city just as he was about to take his departure for the Hawaiian Islands, has been committed for trial at the first session of the Superior court. The charge upon which he is held is the embezzlement of some \$800 from the Sons of Herman and the Ancient Order of Foresters. The accounts of the Singer Sewing Machine Co., for which Hamberger acted in the capacity of collector, were found to be comparatively straight.

The trial of Canessa v. Nicol opened yesterday before Mr. Justice Drake. This is a suit for damages brought by the plaintiff against the defendant on property on Gabriola Island. Plaintiff leased a quarry to defendant, the agreement containing a purchase clause giving defendant option to purchase the land, who is an Italian and not familiar with the language, claims there was no purchase clause in the agreement when it was read to him at the time it was made by Rev. McEwen's deputy, H. D. Helcken, C.O., for plaintiff; Mr. E. P. Davis, Q.C., for defendant.

At Emmanuel Baptist church last Sunday morning and evening large congregations assembled to listen for the first time to the new pastor, Mr. Orin E. Kendall, who is to fill the place made vacant by Rev. McEwen's departure, for six months at least. Mr. McEwen's successor is a young man of full energy. He is not unknown to residents of British Columbia, for he was a resident of the Klondike, where he has been for a considerable time a citizen of New Westminster, from which city he went two years ago to pursue his theological studies at McMillan. He is a pleasing speaker and an argumentative one, and the first impressions of those who listened to his discourses of last Sunday were decidedly agreeable ones.

EASTERN visitors who pay their respects to Victoria during the mid-summer months are not slow to express surprise at the difference in the climatic conditions prevailing at the two extremes of the continent. In the New England states for example, the unfavorable conditions of the weather were through the intense heat, and when Dr. Grant's vacation touring party left there about ten days ago cases of prostration, and in some instances death, were reported of daily occurrence. When the travellers reached Victoria on Sunday they found 63 degrees of heat the maximum, while the evening redeemed everything they had heard of the delightful summer months with which Vancouver Island is superlatively blessed. The party, which came West by the Canadian route, and after exploring the Columbia river and the Yellowstone national park, will return home by way of the Northern Pacific, is composed of the following: Roland D. Grant and his wife, Boston; Austin Whitcomb and wife, Oswayo, Mass.; Edwin F. Farnham, Salem, Mass.; Raymond B. Earl, Newton, Mass.; C. H. Saunders and wife, Penacook, N. H.; E. E. Bides, Boston, Mass.; Charles F. Goodridge, Cambridge, Mass.; Robert Farquhar, Cambridge, Mass.; A. E. Evans, Wakefield, Mass.; Freeman H. Jackson, L. Jackson and wife, Miss A. F. Tilton, and Mrs. E. H. Hall, Concord, Mass.; William M. Noble, Boston, Mass.; and E. B. Earl, and wife, Boston, Mass.

One Honest Man. Dear Editor.—Please inform your readers, that if written to confidentially, I will mail in a sealed letter, particulars of a genuine, honest, home cure, by which I was permanently restored to health and manly vigor, after suffering from chronic nervous debility, weakness, loss, and weak shrunk parts, for many years, and which was cured by the quack, until I nearly lost faith in mankind, but thank heaven, I am well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and am in the university brotherhood man, desirous of helping the unfortunate to regain their health and happiness. I promise you perfect success. Address with stamp on a similar charge to Revelstoke, some of the shareholders of the company laying the information in each case. Has the in a short time past been running the Globe restaurant here.

MONTREAL, July 16.—The third case of snailpox has developed here.

BOARD OF TRADE.

The New Council Discuss Many Subjects at Their First Meeting Since Election.

Better Telegraph Facilities Demanded—Victoria's Position With Regard to the Yukon.

The newly elected council of the B. C. Board of Trade held their first meeting yesterday afternoon with President G. A. Kirk in the chair, discussing from 8:30 until 6 o'clock matters of material importance to the commercial well-being of the province.

While the annual report was under discussion, Mr. Robert Ward suggested that copies should be sent to the importers and exporters of the old country, to many of the leading newspapers, and to the public libraries. The report, he had found by experience, was eagerly looked for abroad, and was of considerable value to them.

Continuing his remarks, Mr. Ward took occasion to congratulate the board on its increased membership and its favorable conditions for agriculture, both as to land and climate, which exist in many parts of the country, we still import nearly two-thirds of the food which is consumed, it is manifestly advisable to encourage, as far as possible, the settlement of farming colonists who have such a small capital sufficient for the establishment of an agricultural home.

The Yukon trade question was introduced by Mr. Fletcher, who stated that a telegram had been sent to Ottawa by Mr. Hewitt Bostock, M.P., Dr. Milne commanding place emphasis, urging that a customs officer be placed at the Chilcot Pass, that being, according to Collector Milne's statement, the most favorable point from which to command goods in passage from the United States to Canadian territory.

Mr. D. R. Ker spoke very strongly in favor of some action by the Dominion government to place customs officers on the line going into the Yukon. Not only should there be one at the Chilcot pass but also one in the White Pass, as they had been following it up on the present state of affairs demanded attention at once, and if the Dominion government did not see that should be a public matter, he would resign his position sent to Ottawa. He was sure that the boards of trade of the province would endorse action in this direction.

Mr. Earle next brought up the matter of the very imperfect telegraphic communication with the mainland, pointing out that the suffering of Klondike men by the break in the cable for the past week.

Mr. W. A. Ward explained that the trouble with the cable was about the miles from land and could not properly be repaired till the new cable, now on the way from England, arrived.

Mr. Simon Leiser pointed out that the reason goods were brought in from the United States was that while duty was charged in Alaska on Canadian goods there was no customs officer at the Canadian line to enforce collection of duty on goods from Alaska going into Klondike.

Mr. W. A. Ward explained that the trouble with the cable was about the miles from land and could not properly be repaired till the new cable, now on the way from England, arrived.

Mr. Simon Leiser carried the resolution, which was carried unanimously.

Mr. W. A. Ward, in reference to a letter sent some time ago by the Vancouver Board of Trade urging a duty on lumber and shingles, pointed out that the admission of lumber was altogether against British Columbia, as the Board mills could compete against British Columbia in Montreal and the East owing to the cheaper price of footeduffs across the water.

Mr. Ker remarked that the feeling in Vancouver was pronounced on this subject and that both Mr. Maxwell and Mr. Morrison took the view that the interests of British Columbia had been overlooked.

The matter was laid over as nothing could be done at present but a letter from Mr. John Keene, of Kaslo, secretary of the Kootenay Mining Protective Association, protesting against the power granted to the Board to place an export duty on ore.

NEWS OF THE MINES.

Development on Harrison Lake—Important Strike Near Golden—Sale of the Whitecap.

Government Only Bluffing About Export Duty and Smelter Will Go To Northport.

A second carload of machinery for the Fire Mountain property on Harrison Lake has arrived at New Westminster. Mr. Brown, the original locator of the company's claims, arrived in Vancouver on Saturday from the properties. He says that the 16 mile trail from the head of Harrison lake to the mines is finished up so about half a mile from the mine and it is almost as easy to get to the mine as it would be to walk along a country road for the same distance.

Mr. W. A. Ward, secretary, in recognition of his services, received a letter from the board of directors, the President, Mr. G. A. Kirk, appointed the following standing committees: Fisheries—J. H. Todd, M. T. Johnson, E. B. Marvin, W. A. Ward, A. H. Scobie.

Manufactures—T. B. Hall, D. R. Ker, W. J. Benday, Chas. Hayward, and E. Burns. Harbors and Navigation—R. P. Rithet, J. G. Cox, John Irving, Geo. L. Courtney and F. C. Davidge.

The council adopted and will incorporate in the annual report the following report on immigration by Hon. Col. Baker, Minister of Immigration: "I am able to give a satisfactory report of the immigration to the province for the past year."

It may be understood that the government discourages paper immigration because there is no difficulty in finding labor for the promotion of the various industries of the province. But in view of the fact that notwithstanding the favorable conditions for agriculture, both as to land and climate, which exist in many parts of the country, we still import nearly two-thirds of the food which is consumed, it is manifestly advisable to encourage, as far as possible, the settlement of farming colonists who have such a small capital sufficient for the establishment of an agricultural home.

At Bella Coola there are now over two hundred Norwegian colonists, including men, women and children, and more are expected in a few months. They are establishing comfortable homes, and are well satisfied with the locality, which is very favorable for agriculture. Both men and women find work at the canneries during the fishing season.

A wharf has been built at the foot of the hill, and the wharf is being extended to the point where the large steamers coming alongside, and a wagon road is continued from the wharf through the settlement. A trail has been opened up from the settlement into the rich grazing grounds of the interior, which admits of cattle being driven down for shipment at the wharf.

W. E. Palmer, of Bangor, Maine, authorizes the statement that he and his townsman Arthur A. Mason, have purchased an interest from Robert Florman, formerly of Roseland, in the Whitecap group of mines near Boundary City, and obtained an option on the remaining interest, the whole amount involved in the purchase being \$50,000.

Colonel Peyton, manager of the Le Roi, makes the important statement that the Le Roi will pay a second dividend of \$25,000 this month, making \$50,000 for July and bringing the total dividends up to \$475,000. It is the purpose of the company to pay \$50,000 a month from this time on.

Excruciating Pains—Have You Suffered Rheumatic or Sciatic Pain?—South American Rheumatic Cure will Relieve in 6 Hours and Cure.

"I suffered intensely with rheumatism and sciatica in my left hip. I tried a great many remedies and a number of physicians but they could do very little for me, only giving me at times a little temporary relief. I was making only two bottles the patient verified and decided to give it a trial. The first few doses benumbed me wonderfully, and I was making only two bottles the patient disappeared and there has been no return. I consider my cure a marvel, as I had been so long for two years that had I been given the whole universe I could not have found my left side." E. Errett, Merrickville, Ont.

"That's a queer looking picture you have on the mantle! The only girl I ever loved." Chicago Journal.

"He—This record says you were born in 1850. —That's correct; how old would you say I am? —"Oh, about 30." —"What a horrible thing! I'm not 25 yet!" —The Spokesman-Review says: "One
