DISCUSSION ON SUNDAY LAW

Debate on Lord's Day Observance Bill in the Ottawa House.

MR. BOURASSA'S ATTACK

Sir Wilfrid Laurier Answers the Objection of Member From Labello.

OTTAWA, June 28.—The bill respecting the Lord's Day, as re-drafted by the special committee, started upon its thirteenth day through committee of the whole on Wednesday.

There are few persons in this country who object to the principle of the day of rest. The Christian Sabbath is generally observed throughout Canada, and the people are all the better for it.

Some Necessary Exceptions—These are certain callings or industries throughout the country which require continuous operation, and an effort has been made in the bill to provide for these.

ST. PETERSBURG, June 28.—The campaign which the opposition elements in parliament are waging to compel Emperor Nicholas to dismiss the Gorevitch cabinet and accept the principle of a responsible ministry, has been successful.

When the Emperor's cabinet was formed, the Emperor's eyes opened and the court began realizing that there was an error in their judgment.

It transpired today that all three battalions of the Prohresky regiment (The Majesty's Own) announced its solidarity with parliament and its agrarian programme in the big camp of the guard regiments at Krasnoe Selo.

The government's sudden fear of affronting public opinion after finding the army infected with the revolutionary propaganda is shown in the hurried grant of a new trial to seven men condemned to death at Riga.

The news from the provinces shows that a state of general anarchy is growing. The efforts of the agitators to induce the peasants to strike are meeting with success.

The only conservative group in the lower house of parliament, headed by Hayden has at last bowed before the storm of radicalism and has declared in favor of practically the whole of the constitutional democrats' agrarian programme.

How would this operate at harvest time in the country? Or in connection with big hotels, or hospitals, or asylums? The member for Labelle continued in this strain for some time, and incidentally had a passage at arms with Mr. Ralph Smith. The latter wanted to know why the workers in places of amusement should not get a rest, and domestic servants as well, and was answered that for ten who worked on Sunday, there would be thousands who would get recreation.

LITTLE JOKER IN LORD'S DAY BILL

Surreptitious Amendment Would Provide Just Solution of the Question.

SENATE TALKS FORESTRY

Precedence of Consuls Causes Some Friction in Official Circles.

OTTAWA, June 28.—(Special)—A curious fact developed today that an amendment of Mr. Piche's which was inserted in the Lord's Day bill last night as members were leaving their seats to go home will have the effect of exempting the province of Quebec, or for that matter all provinces, from the operation of the bill as soon as that province adopts legislation regarding the Lord's Day.

In the subsequent discussion the British Columbia members took an active part. Mr. Ralph Smith reminded Mr. Piche, M. P., of the fact that the Trades and Labor congress of Canada, that that congress had repeatedly declared in favor of the day of rest.

The Case of Smelter Men—Mr. Dugan Ross brought up the case of the men engaged in the smelters. Continuous operation of the smelters would be well taken to the men engaged on Sundays.
