ANOTHER MERTING OF COUNCIL HELD YESTERDAY.

To Appointments Aunonneed—It is Said that Big John Haggart will Get the Postoffice Portfolio—4 Sensational Report—Col. Oliver's Probable Successor. OTTAWA, July 5 .- There was a meeting o

Council this afternoon, but no anno of appointments was made. There will be no meeting again until Saturday, which will probably be the last for some time, as Sir John is expected to leave on Monday or Tuesday for the Maritime Provinces, and nearly all the other ministers who have not already role will be off in a few days.

Although no official announcement has been nade it is generally understood that Mr. Dewducy has been appointed Minister of the Interior and Mr. John G. Haggart, M.P. for Lanark, Postmaster General. The latter was in town yesterday and left for home last night in good spirits after an interview with Sir John.

night in good spirits after an interview with Sir John.

Mr. Patterson of Essex has been here for a couple of days and had a long talk with Sir John after Council. He assured The World that there was no truth in the rumors that he was about to enter the Ministry, but gave no hint as to white may happen latter in the year.

It is generally understood that Major-General Cameron, son-in-law of Sir Charles Tupper, has been appointed to succeed Colonel Oliver as Commandant of the Kingston Military College. General Cameron acted as official secretary to Sir Charles on the Fisheries Commission at Washington, and the probability of his either succeeding Major-General Middleton, in command of the forces or Colonel Oliver at Kingston was mentioned in The World some months ago.

It is understood that it has been definitely decided that when the new Departmental Building is finished and the attic occupied by the model, room, the patent office will be entirely divided from the Department of Agriculture and made a branch of the Department of the Secretary of State.

The Journal to-night gives currency to the tollowing outdoors a present of a present of the properties of the properties of a present of the properties of
