## NEW ART FABRICS

They Make Striking and Attractive Summer Draperies.

NOVEL COLOR SCHEMES USED  
Black and White Designs Carried Out In Geometrical Patterns So Fine They Look as if Etched—Novel and Attractive Gift Boxes.

Cretonne is a fabric we could ill do without in these days of brown bungalows and black furnishings. It gives the note of brightness and airiness to the somber and simple interior.

The importance of these fabrics in our furnishing scheme is due to the popularity of the rattan, reed, willow and wood sets with which we are adorning the summer porch and furnishing the summer home. Custom calls for cushions on the airy chairs and settees, and what material so useful as gay cretonne, which may be easily cleaned when soiled?

Seldom have these materials attracted so much attention as this season. They come in a wide range of colors and designs, but the fad is for the new art patterns, for which we have the German and Viennese schools to thank.

Black and white, dark blue and white and dark green and white are favored by the artists to whom the creation of the color schemes and patterns of these fabrics is an important matter. Each minute part is worked out with infinite care. The designs on some of these stuffs are as fine as though they had been etched there.

Flowers in their natural forms or in conventionalized shapes are the favorite motifs. Quaint uses are also made of birds and animals. One of the most remarkable of these fabrics is adorned with a forest scene in which deer, foxes, birds, etc., are cleverly intermingled. With such art are these interesting animals arranged that at a distance it looks like a Persian pattern.

Striped and square patterns are favored in these fabrics, which are carried out in geometrical lines, even when nature subjects are used for the backgrounds.

Not only is furniture for the summer upholstered with such art materials, but the fabrics are used for hangings, couch and table covers and for porch or hammock pillow covers.

They are useful for creating the many fancy articles which are usually fashioned with cretonne, their novelty making them especially popular.

In Paris the large dressmaking houses are giving away boxes covered with new art fabrics and handsomely upholstered with such art materials, but the fabrics are used for hangings, couch and table covers and for porch or hammock pillow covers.

are made according to a formula in use nearly a century ago among the Indians, and learned from them by Dr. Morse. Though repeated attempts have been made, by physicians and chemists, it has been found impossible to improve the formula or the pills. Dr. Morse's Indian Root Pills are a household remedy throughout the world for Constipation and all Kidney and Liver troubles. They act promptly and effectively, and

a sufficient finish.  
These cretonne sets are not only nice for breakfast use, but they are very appropriate for summer and seaside cottages.

If one would not care to crochet, a buttonholed scallop done in colored mercerized floss or a narrow braid could be used as a finish for the edge.  
Every girl enjoys having dainty boxes in which to keep her belongings, and the handy needlewoman can easily make the chintz and cretonne covered boxes not only for herself, but as gifts for her less ingenious friend. Boxes of this kind can be made any size or shape, although the oblong ones are more easily constructed.

### HOME HINTS

It is always pleasant to be remembered, but especially so when shut in a sick room, away from the bustle and delights of active life. Women certainly ought to realize this, and yet they miss many opportunities to give happiness to another at slight cost to themselves.

A graceful behavior toward others is a constant source of pleasure; it pleases others because it indicates respect for their personality, and gives tenfold more pleasure to ourselves.

Keep clear of personalities in general conversation. Talk of things, objects, thoughts. The smallest minds occupy themselves with personalities. Personalities must sometimes be talked, because we have to learn and find out men's characteristics for legitimate objects; but it is to be with confidential persons. Do not needlessly report ill of others. There are family boards where a constant process of depreciating, assigning motives, and cutting up of character goes forward. They are no pleasant places. One who is healthy does not wish to dine at a dissecting table. There is evil enough in man, God knows; but it is not the mission of every young man or woman to detail and report of it. Keep the atmosphere as pure as possible, and fragrant with gentleness and charity.

Home life is the source of exquisite blessings. There is nothing more attractive, refining and uplifting than its simple joys and fireside pleasures. The world has pleasures gay and bright but nothing exceeds the joy of home and bliss of our own fireside. It is the place of gladness where burns the firelight bright. We cross the doorsill and enter its threshold to find the garden of Paradise. We cannot be indifferent to the sweet attractions, simple pleasures, pleasant conversation and sweet song of the family circle. None are more bright, more pure and none more like the love of highest heaven. It is more like heaven than any spot on earth.

### How To Get Rich

Live up to your engagement.  
Earn money before you spend it.  
Never play at any game of chance.  
Drink no kind of intoxicating liquor.  
Good character is above all things else.  
Keep your own secrets if you have any.  
Never borrow if you can possibly avoid it.  
Keep yourself innocent if you would be happy.  
When you speak to a person look him in the face.  
Make no haste to be rich if you would prosper.  
Save when you are young and spend when you are old.  
Avoid temptation through fear, you may not withstand it.  
Small and steady gains give competency with tranquility of mind.  
Your character cannot be essentially injured except by your own acts.  
When you retire to bed think what you have been doing during the day.  
If your hand cannot be usefully employed, attend to the cultivation of your mind.  
If one speaks evil of you let your life be so that none will believe him.

### Newspaper Laws

1.—A postmaster is required to give notice by letter. Returning the newspaper does not answer the law, when a subscriber does not take his newspaper out of the office and state the reason for its not being taken. Any neglect to do so makes the postmaster responsible to the publisher for payment.  
2.—If any person orders his paper discontinued he must pay all arrearages or the publisher may continue to send it until payment is made and collect the whole amount whether the paper is taken from the office or not. There can be no legal discontinuance until payment is made.  
3.—Any person who takes a paper out of the post office, whether directed to his name or not, or whether he has subscribed or not, is responsible for the pay.  
4.—If a subscriber orders his paper stopped and the publisher continues to send, the subscriber is bound to pay for it if he takes it out of the post office. This proceeds upon the ground that a man must pay for what he uses.  
5.—The courts have decided that refusing to take newspapers or periodicals from the postoffice or removing, leaving them uncalled for, is prima facie evidence of intentional fraud.  
"How is your Shakespearean club getting on?"  
"Splendidly. We learned two new steps last week."

### Abolish Sulphur Matches

It is an excellent sign that the safety first movement, launched by the great public service corporations, has been taken up by municipalities. Buffalo and Cleveland have inaugurated safety first days with the object at present, of lessening the number of street fatalities caused by carelessness and recklessness.

Eventually it is proposed that the campaign be widened to include such problems as smoke nuisance and kindred evils that menace the health of the city. Meanwhile why not carry the safety first campaign into the home? There is hardly a day passes but what newspaper reports tell of some tragedy in the home that might have been averted had safety been a first consideration. In many cases children are the sufferers. Loaded weapons and poison left within reach of little ones are responsible for many accidents that have plunged a household in deep sorrow.

But statistics show the match to be responsible for the largest percentage of accidents by which children are injured or killed. The rapid and widespread introduction of electricity for heating, cooking and lighting is greatly lessening the necessity for the use of matches, and in time it will largely disappear, but at present, it is a necessity, and too much stress cannot be laid upon the importance of considering it a dangerous, if useful, member of the household.

That they should be kept out of the reach of small children goes without saying. But fire isn't the only thing to guard against. Within a few weeks, right in this province, two infants have expired as a result of eating the tops off sulphur matches. Here is an opportunity to exercise safety first. Because of its cheapness the old fashioned "eight day" match with its poisonous, distressing fumes is still preferred to the non-sulphurous safety lucifer. Otherwise, the use of this pest is indefensible and, as shown by the cases mentioned, may be a dear economy.—Advertiser.

### Dust Causes Asthma. Even a little speck too small to see will lead to agonies which no words can describe.

The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest and health. It relieves the passages and normal breathing is firmly established again. Hundreds of testimonials received annually prove its effectiveness. m

### Lambton Farms Wanted

A fifth list of farms for sale in Lambton County will be published by the Lambton Publicity Association on the 15th of August, 1914. Farms that appeared on the last list will reappear in the forthcoming list if request be sent to the Secretary before above date and present price of farm stated. These lists will have wide circulation at Canadian National Exposition, Toronto, and other places of concourse.

Those who have farms for sale will please send a full description, the price and post office address of owner to the undersigned, in order that the parties inquiring may be brought into personal touch with those who have land to sell.

There will be no charge or commission of any kind, and the parties furnishing descriptions are not bound in any way. Give details as to situation, acreage, roads, improvements, soil, distance from churches, schools, towns, railways, telephone service, etc., that would be of interest to prospective purchasers from a distance. When sale of farm takes place please notify secretary so that it may be struck off the list. Parties offering large farms, suitable for fruit growing would do well to offer them in lots of 15 to 50 acres. The Publicity Association exists for the purpose of advertising Lambton County and for no other purpose. It consists largely of the members of the County Council and the expense of the advertising is paid by the county.

The information is wanted for the purpose of placing a list of farms in the hands of those who wish to buy and who have written to the Secretary in answer to general advertisements and descriptions of Lambton which have been published in various newspapers in Canada, the United States and Britain.

The description may be sent by mail to R. Stirrett, Petroler, secretary of the association, not later than Saturday, August 15th, 1914.

An oil for all Men.—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subdue lumbago and overcome rheumatism, it has no equal. Therefore, it should have a place in all home medicines and those taken on a journey. m

lined. The boxes hold gifts and may be used for the accessories of the toilet, such as neckwear, corsage bouquets, necklaces, etc. Some of them are large enough to be used as hat boxes.

Cretonne sets are useful for the table. They are easily made, and if the cretonne is of a cool pattern in blue or one of yellow and the centerpiece of yellow or blue flowers to match a most attractive result will be obtained. Mark the plate size with the largest dinner plate and either crochet an edge to these or apply one of Irish crochet that can be bought for very little a yard at any of the shops.

Most attractive breakfast sets could be made of cretonne with a crocheted edge. The different sizes wanted are cut out of the cretonne. The edge is slightly rolled and worked with double crochet. Any desired edge of simple construction can be added.

Any particular color scheme can readily be carried out in these mats, and a simple crochet scallop would be
