at remunerative prices. Stocks at present are light, and expected arrivals are only an average.

SALT-Is much firmer. Transactions during the past week have not been so large as previously, but considerable found purchasers. Holders are now firm in their demands at 671c for Liverpool Coarse, and 87 c for Fine.

SPICES-Continue in good demand, though without change in price for last week. Nutmegs have been more especially enquired for, and full prices have been paid.

LaRiviére & Bourdeau, Morland, Watson & Co, Mulholland, & Baker, Robertson, Jas. Round, John & Sous. Waddell & Fearce.

FAIR business has been done during the past week, but of a quiet character, which can hardly be designated as active. There has been a steady demand for small parcels of goods from country parts generally, but few transactions for large lots have been reported.

Pig Iron is now very quiet, the demand from the Western States having fallen off, and there being no Canadian demand worth speaking of.

Bar iron is in full stock, and well assorted, and has had a fair share of attention.

Cut Nails are nominally unchanged in price, but manufacturers are rather more anxious to take orders than for some time previously, and would be willing to sell on rather better terms.

PLOUR.—The market during the week has been somewhat irregular. Supers for a time advancing to a range of \$6.50 to \$6.75, but again falling back, and closing quiet at \$6.25 to \$6.50 for ordinary to good samples, with exceptional sales of strictly choice at some advance. Other grades have been comparatively little affected, being in small demand, and mostly nominal. Bag flour meets but a slow and dragging sale, and rates have varied with supers closing dull at \$3.15 to \$3.20 for good to strictly choice.

OATMEAL —The demand continues of a purely retail character, and prices have been gradually giving way. Best Upper Canada is offered at \$6 without finding buyers to any extent, and Lower Canada ranges down to \$5.50 according to sample.

CORNMEAL.—The demand is restricted and very fitful, only an occasional hundred being taken as orders come to hand. The supply is much in excess of de-

mand and even current rates could not be secured if sales were pressed.

GRAIN .- Wheat-Prices have again fallen; closing quiet at \$1.45 to \$1.471 for car loads. A cargo of Choice in harbour brought \$1 50, which may be considered exceptional. Pease-There are none now offering in first hands, and the several parcels formerly in stock have been concentrated mostly in one hand, \$1 per 66lbs is asking rate, but only accoded to as shippers are covered to fill freight. Coarse grains of the several kinds are purely nominal.

Provisions - Pork-Is extremely quiet, but except in cases where sellers are urgent no abatement from late rates can be noted, holders being mostly content to await the demand as it may arise. Butter -The inten e heat prevents any movement beyond the merest consumptive wants; rates are nominally unchanged, but sales are for the time impracticable. Many recent arrivals have been ruined by the intense heat, and it will be well to avoid forwarding till a change to cool weather is experienced

ASHKS .- Pots have met a steady demand till toward the close, when the ord us in hand being completed, buyers hold off for lower rates. Pearls .-Several lots have latterly sold at \$5.50, and sellers are still willing to accept this figure, but as the demand for a let git of time has only been actual orders, and none being now in boud, they are again for the time unsalcable.

TRADE SALE OF GROCERIES.—At the trade sale yesterday at the stores of Messrs. John Boyd & Co., there was rather a slim attendance in the early part of the day and budding was not very lively, but during the afternoon buyers came in, the bidding became active, and by the close of the day a very considerable amount of goods was placed at fair prices. The audience was principally composed of city men, and included the best retailers in this market; there was also a fair representation from the country. Altogether, both in respect of the quantity of goods sold and the prices obtained, the sale was quite up to the expectations of principals, and was therefore entirely satisfactory. Mr. Edward Lawson was the auctioneer, of whom we ought to say that he is becoming very popular with the trade in this capacity, having a thorough practical knowledge of the grocery business, and being able. For this reason, to place the goods before his audience in the most advantageous manner. We hear that he is engaged for two other sales shortly to come off.—Toronto Telegraph.
