Another Appeal in Time of Need.

NANKIN, Dec. 27, 1894.

We have just had our December letters from the Executive Committee, and there comes the most unwelcome news, that we must be satisfied with reduced salaries for several months to come. This is hard enough on any one of the missionaries, but most especially trying for anyone who has not only his own support to provide for, but the support of a boarding school beside. The prospect is exceedingly poor, viewed from a business standpoint, but we are very grateful to know that we have a constituency who never forsake us. All that is needed is a gentle reminder. Last year when I found myself and my work in this unpleasant predicament, I sent a reminder, headed "The Last Resort," and without delay the means came, and my work was saved. Every dollar that I have used within the last year has been given directly to my work. Now if the same friends will continue their support we shall be able to go ahead with our school. If as many more will lend a helping hand, we shall be able to organize what we have desired to have for a long time, viz: an industrial department, and thereby increase the efficiency of our school for good many fold. An era of great progress is just about to dawn upon China, and there will soon be great demand for the fruitage of just such work as we are doing. We wish to have a hand in the reformation, that we may help to make it Christian. I shall confidently expect a liberal response to my appeal. Please send all contributions to A. McLean, Box 750, Cincinnati, Ohio, for Christian College, Nankin. Fifteen dollars will pay for the food of one boy for a year or more. F. E. MINGS.

P. S.—Please publish the enclosed statement of our school account in connection with the above. The account covers seven months of 1894.

F. E. M.

CHRISTIAN COLLEGE, NANKIN.

Received.

Table with columns for date and amount received. Includes entries for May 1, 1894, June, July, Aug, Sept, and Miss Lyon.

Disbursed.

Table with columns for date and amount disbursed. Includes entries for May, June, July, Aug, and Sept 1894.

Table with columns for month and amount. Includes Oct, Nov, Balance, and Total.

The above account is kept in Mexican dollars, which are worth only 60 cents in gold. To make the statement in gold at this rate, the total amount received is \$504.10, the total expenditures \$318.19, and the balance on hand, \$185.91. Of the expenditures in Mexican dollars, \$192.50 is for teachers' salaries, \$77 for helpers about the place, and the remainder for the support of the boys. When all expenses are considered the average cost of keeping one boy is \$2.60 (Mexican)=\$1.56 gold, per month. This pays only board and tuition. There are other expenses for apparatus and repairs, but you will perceive that the school is very economical. When our industrial school is well under way we expect to be able to still further reduce expenses. We expect the school to grow, but the expenses will be no greater in proportion.

F. E. MINGS, Principal.

A Straw From Japan.

C. E. Garst writes that the agent of the Bible Society has permission to scatter Bibles and tracts among the soldiers and in the hospitals at Hirschelms, where the Emperor and forty thousand soldiers are. It is not long since the edict was in force: "The evil sect of Christians is prohibited"

Recently, when some missionaries were leaving Japan, one of the editors of a daily paper said, among other things, this: "Look all over Japan. Our forty millions to-day have a higher standard of morality than we have ever known. There is not a boy or girl throughout the empire that has not heard of the one-man, one-woman doctrine. Our ideas of loyalty and obedience are higher than ever. And when we inquire the cause of this great moral advance, we can find it in nothing else than the religion of Jesus." The world moves!—Guide.

Labor Rewarded.

In 1721 Hans Egede went from Denmark to Greenland as a missionary, where he toiled fifteen years in the frozen regions, but he saw no fruit and left the field in bitter disappointment, preaching a farewell sermon from the words of the prophet: "I have labored in vain, I have spent my strength for naught, yet my judgment is with the Lord and my work with my God."—Isaiah xix. 4. He was succeeded by John Beck. One seed of Scripture from his lips—the story of the Saviour's agony in the garden, fell into the heart of a savage by the name of Kajarnak. The stolid savage became a Christian, the Christian an evangelist. His dull heart kindled with glow, while with flowing tears and resistless tenderness he recited to his countrymen the story of the cross.

Kajarnak proved a flower growing out of the very icebergs of frozen Greenland. Dr. Kane tells of discovering a little violet blooming at the base of an iceberg in the polar regions. Its presence in that unexpected region touched his heart, and he wept like a child. It was a burst of beautiful life amid eternal solitary death. Kajarnak was the first blossom of the rose of Sharon appearing in the frozen fields of Greenland. This rose has touched many hearts. We may plant flowers of beauty where now is only death, if we will.

Rheumatism is primarily caused by acidity of the blood. Hood's Sarsaparilla purifies the blood, and thus cures the disease.

Cincinnati Conservatory of Music

THE LITTLE ONES. Printed in Colors. This is a Weekly for the Primary Department in the Sunday-school and the Little Ones at Home, full of Charming Little Stories, Sweet Poems, Merry Rhymes and Jingles, Beautiful Pictures and Simple Lesson Talks. It is printed on the tinted paper, and no pains or expense is spared to make it the prettiest and best of all papers for the very little people. TERMS—Weekly, in clubs of not less than ten copies to one address, 40 cents a copy per year, or 30 cents per quarter.

Our Quarterlies are printed from electrotype plates, and can be furnished in any quantity, at any time, never being "out of print." They are printed on good paper, with best quality of ink, and considering the high character of the contents, they will be found to be the cheapest Lesson Helps now published.

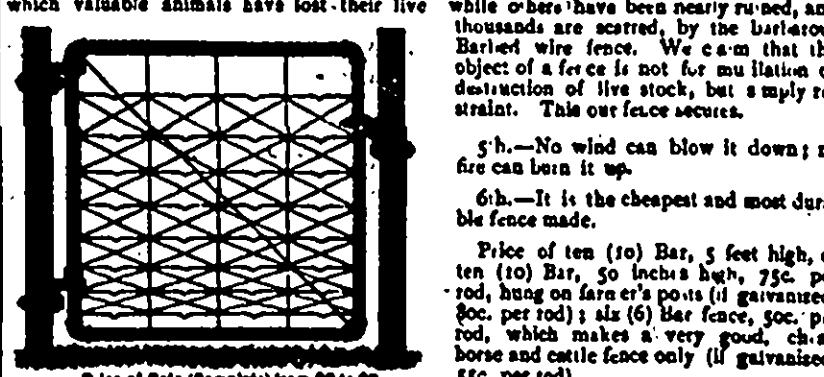

Christian Publishing Company, St. Louis, Mo.

LAND'S PERFECTION SPRING-STEEL WIRE FENCE

FARMERS!

We beg to draw your personal attention to our Perfection Fence, which will commend itself in the judgment of all intelligent and enterprising men. We claim for it superiority over all other fences made. This may seem a surprising statement but a careful examination will convince you of its merits. It is correctly named the Perfection Fence, fulfilling the old condition of being Horse Tight, Bull Strong and Pig Tight, as well as being light and practically indestructible. It is in a degree of superiority: 1st.—It is made of the best material known for fencing, viz., extra hard steel wire. 2nd.—The horizontal wires are crimped every foot to allow for contraction in winter and expansion in summer; whilst frost and heat have always been so destructive to all other wire fences. 3rd.—The upright wires are composed of No. 14 Galvanized Annealed Wire; this is wound three (3) times around each horizontal wire alternately in opposite directions, thus making it a solidly impervious for the horizontal wires to sag or shift. 4th.—It will not injure your stock in the least. It is needless to mention instances in which valuable animals have lost their lives while others have been nearly ruined, and thousands are scared, by the barbed or twisted wire fence. We claim that the object of a fence is not for mutilation or destruction of live stock, but simply restraint. This our fence secures. 5th.—No wind can blow it down; no fire can burn it up. 6th.—It is the cheapest and most durable fence made. Price of ten (10) Bar, 5 feet high, or ten (10) Bar, 50 inches high, 75c. per rod, hung on farmer's posts (if galvanized, 90c. per rod); six (6) Bar fence, 50c. per rod, which makes a very good, cheap horse and cattle fence only (if galvanized, 55c. per rod).

Farmers, please call and examine this fence at Jas. Brayley's wrought iron works, Nos. 58 and 60 King William St., or at 58 1/2 King William St., where you can see the fence in the different stages of manufacture and be convinced of its merits. You can save 50 per cent. on posts, as only one-half (1/2) the posts used in ordinary fencing are required. This fence is guaranteed to turn stock with posts from 16 to 30 feet apart.

LAND & CO. (LAND'S PATENT), 58 1/2 King Wm. St., Hamilton, Ont.

P. S.—Any person desiring any further information, please send for circulars and Testimonials. (Please mention this paper in answering advertisement.)

THE CANADIAN MAGAZINE

\$2.50 per annum. This Magazine should be read by every Patriotic Canadian, and should find a place in homes where pure literature is appreciated. What the press says: "Worthy the hearty support of all sections of the Dominion."—The Globe, Toronto.
