

Some of the Newer Problems in Abdominal and Pelvic Surgery in Women. By Chas. P. Noble, M.D., Philadelphia.

Diagnosis and some of the Clinical Aspects of Cyroma and Endothelioma of the Ovary. By Mary A. Dixon-Jones, Brooklyn, N. Y.

The Sensory Nervous System in Diagnosis. By Chas. P. Hughes, M.D., St. Louis, Mo.

The Necessity of Complete Extirpation of Tumors, and the importance of rapid cicatrization of the wound. By Frederick Holme Wiggan, M.D., New York.

PUBLISHERS DEPARTMENT.

ACCURATE ADMINISTRATION OF LITHIA.

Wm. R. Warner & Co.'s original Lithia Water Tablets (3 and 5 grain.) admit of an accurate dosage of Lithia not to be obtained in any natural Lithia Water.

These tablets are securely packed so as to maintain their permanency, in consequence of which, when a Lithia Water Tablet is placed in a glass of water it quickly dissolves, effervescing in so lively a manner as to excite the interest of the patient to such a degree that the unpleasant thought that he is about to take a medicine does not arise. Now that Lithia has become a valuable remedy for Rheumatism, Lithemia, Goutt Gravel, Bright's Disease, etc., these tablets are without doubt the most convenient method to administer it, as enough Lithia Water Tablets may be carried in the pocket to make $2\frac{1}{2}$ gallons Lithia Water of definite strength.

THE DECADENCE OF OPIUM.

Wendell Reber, A.M., M.D., Pottsville, Pa., Oculist and Aurist to the Children's Home, under the above caption in the *Buffalo Medical Journal*, writes: "We would not banish opium. Far from it. There are times when it becomes our refuge. But we would restrict it to its proper sphere.

"In the acute stage of most inflammations, and in the closing painful phases of some few chronic disorders, opium in galenic or alkaloidal derivatives is our grandest remedy—our confidential friend. But here, the application should cease; and it is just here that the synthetic products step in to claim their share in the domain of therapy.

"Among the latter, perhaps none has met with so grateful a reception as anti-kamnia, and justly so; for among all the contributions of pharmaceutic chemistry, none so fully merits our confidence as this one.

"Given a frontal-temporal-vertex or occipital neuralgia growing out of an uncorrected ocular defect, it will almost invariably arrest the head pain, until such time as the ocular trouble can be corrected with glasses. In the terrific fronto-parietal neuralgia of glaucoma, or in rheumatic or post-operative iritis, it is of signal service, contributing much to the comfort of the patient, and, I have sometimes thought, exerting an undeniable influence over the ocular disease. In this last group of cases I have seen the most benign effects follow the hourly administration of ten grs. of anti-kamnia until the pain is relieved. It will seldom be necessary to exceed sixty grains of the drug.

"Its range of application is wide. It is of positive value in certain forms of dysmenorrhœa; it has served me well in the pleuritic pains of advancing pneumonia, and in the arthralgias of acute rheumatism; on several occasions, I have been able to allay with it the lightning, lancinating pains of locomotor ataxia; but nowhere do I employ it with such confidence as in the neuralgias, limited to the area of distribution of the fifth nerve." Here its action is almost specific, surpassing even the effect of aconite over this nerve.

"PLEASURES OF OUT-DOOR LIFE."

Live while you live. Get all the legitimate pleasure you can. This is a beautiful world. Don't miss a large part of its pleasure by going through life blindfolded, as many people do. The outdoor world is poetic, pleasing, instructive. There's a wealth of pleasure in roaming over the hills, across the fields or through the woods. All nature is harmony of music to the attentive ear. Birds, plants, flowers, ferns, mosses, insects, the beauty of minerals, yes even stars above are strains in this harmony. Get in closer touch! Take *The Observer*, Portland, Conn. Sample 10 cents. One year \$1.
