the system. With such change those complaints, disappear. For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to pro-duce the effect of a drastic purge. For **Suppression a** large dose should be taken as it produces the desired effect by sympathy. As a Dinner Pill, take one or two Pills to pro-mote digestion and relieve the stomach. An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often ad-vantageous where no serious derangement exists. One who feels tolerably well, ofter finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the diges-tive apparatus. **B. J. C.
