

2. Destruction of buildings covered by the definition of a "chemical weapons production facility"

- The word "building" shall include underground structures.
- All specialized and standard buildings shall be physically destroyed.
- "Specialized building" is:
 - . any building containing specialized equipment in a production or filling configuration;
 - . any building which has distinctive features which distinguish it from buildings normally used for chemical production or filling activities not banned by the convention.
- "Standard buildings" means buildings constructed to prevailing industry standards for facilities not producing super-toxic lethal or corrosive chemicals.

3. Facilities for producing unfilled chemical munitions and specialized equipment for chemical weapons employment

- Facilities used exclusively for production of: (a) non-chemical parts for chemical munitions or (b) specialized equipment for chemical weapons employment, shall be declared and eliminated. The elimination process and its verification should be conducted according to the provisions of Article V that govern destruction of chemical weapons production facilities.
- All equipment designed or used exclusively for producing non-chemical parts for chemical munitions shall be physically destroyed. Such equipment, which includes specially-designed moulds and metal-forming dies, may be brought to a special location for destruction. International inspectors shall be present during the destruction process.
- All buildings and standard equipment used for such production activities shall be converted to permitted purposes, with confirmation as necessary through consultations or challenge inspection.
- Permitted activities may continue while destruction or conversion proceeds.

D. Activities related to temporary conversion to destruction facility (to be developed)

E. Activities related to former chemical weapons production facilities ^{1/}

^{1/} All provisions dealing with "former" chemical weapons production facilities need to be reviewed once the definition of chemical weapons production facilities is agreed. In this connection, how to deal with chemical weapons production facilities that have previously been destroyed should also be discussed.
