## MOYES MUST TELL OF MANY THINGS

"It is His Duty to Explain," Says Railway Board Chairman.

### "ABSURD STATEMENTS"

T. H. Lennox Will Call Witnesses to Refute Many Allegations.

Before the Ontario Railway Board adjourned the investigation into the Ontario and West Shore Electric Railway yesterday, T. Herbert Lennox, appearing on behalf of John W. Moyes, the promoter, announced that he intended to call two engineers and Mr. Moyes himself to prove what he termed the utter absurdity of the statement that only \$214,000 went into the road.

"I wish to be as fair as possible," said Chairman McIntyre. "This investigation will not close until Mr. Moyes has had an opportunity to explain something which I think it is his duty to explain. Having regard to the same measures as if he were in perfect health. Under those conditions I should summon Mr. Moyes and if he declined to attend I should make an order for commitment. I think this investigation should not close until all possible evidence is in."

William Proudfoot, K.C., on behalf of the Township of Ashfield had previously requested the board to compel Mr. Moyes to produce the bonds and deposit them with the board because he held that Mr. Moyes had no right to them.

Never Left the Bank. The evidence taken yesterday of A. J. Pattinson developed the fact that the cheque given to him by Moyes to hold at the organization meeting of the Ontario and West Shore Company had never left the bank. Mr. Moyes has simply placed the \$125,000 to the credit of Mr. Pattinson after he had used it for the purposes of the meeting.

From the evidence of Neville Munro, of the Dominion Bank, it appeared that Mr. Pattinson had an overdraft at the time the cheque was made out, and Mr. Munro's opinion was that there must have been an agreement with the bank to allow it.

In reference to Mr. Moyes' statement that he had produced a certificate at the organization meeting showing that he possessed the \$125,000 required by law, Mr. Munro knew of none such coming from the bank.

The investigation is to go on some time next week, the day to be agreed upon when Mr. Lennox is ready with his further evidence.

## NO QUORUM WHILE STUDHOLME SPOKE

Hamilton Member Says Members of Legislature Are Discourteous.

### OTTAWA'S WATER

Hon. W. J. Hanna's Bill Will Compel City to Take Action.

While Allan Studholme (East Hamilton) was making his speech in the house yesterday on his eight-hour bill, William Proudfoot, who was leading the opposition in the absence of Mr. Towell, called the attention of Speaker to the fact that there was not a quorum on the floor of the house. A count was made and only seventeen members of the required twenty were found to be on hand, whereupon the Speaker acting as he thought, under the rules adjourned the sittings. The entrance of three members, however, made up the required number once more, and Hon. Mr. Hearst and others on the government side questioned the Speaker's action in ordering an adjournment. With the consent of the acting opposition leader Mr. Studholme was allowed to resume.

"This is not the first time there has been no quorum while I was speaking," declared the East Hamilton member, "and I think it is discourteous of the honorable gentlemen to make a practice of retiring whenever I have anything to say."

Mr. Studholme continued his speech on his bill until 6 o'clock, and proposes to continue when the house resumes its sittings. His measure is a revival of A. E. Fripp's bill, first introduced in 1909, and providing an eight-hour day for all classes of wage-earners outside of farm labor.

Ottawa's Water. Hon. Mr. Hanna introduced for its first reading a bill in connection with the Ottawa water situation, which he explained was not to be regarded as a government measure, but as a means of bringing the situation to the attention of the members so that they might appreciate what was involved. He stated further that he had no intention of bringing the new bill up for its second reading until the bill now before the private bills committee was disposed of. Hon. Mr. Hanna's tentative measure provides that the Currie water filtration scheme, if approved by the board of health, goes into effect at once, and failing approval, the Binnie scheme, calling for an eight-million dollar expenditure, must be adopted.

## SNIDER EXPENSES WILL BE DEBATED

Wm. Proudfoot Will Bring the Subject Upon the Floor.

The Ontario opposition are threatening to spring another sensation in the legislature. Following their failure to gain certain facts from the public accounts committee yesterday, Wm. Proudfoot of Centre Huron stated that Snider's relations to the Scott Act campaign in the counties of Welland, Huron and Peel on the floor in debate appeared in the press about his visits, and what they meant, and attempted to cross-examine Mr. Snider before the committee.

His efforts, however, to examine the inspector regarding his work during the month of January, 1914, were effectively shut off by the chairman's ruling, that only matters of public account for the year 1913 could be gone into.

Mr. Proudfoot thereupon moved that in view of representations alleged to have been made by Snider in reference to the attitude of the government and the statements of the provincial secretary in the house and in the press, the committee request from the house power to investigate Snider's salary and expenses from Nov. 1, 1912, to April 1, 1914.

Chairman Ferguson ruled Mr. Proudfoot's motion out of order, and on the latter's appeal the ruling was sustained by a vote of 9 to 4.

Mr. Proudfoot finally requested that the examination of Snider stand over until he could bring the matter before the house.

C. M. Bowman (North Bruce) undertook to find out from Aubrey White, deputy minister of lands, forests and mines, the particulars of the sale of

certain timber limits in the Townships of Thistle and McWilliams by the government to the George Gordon Lumber Company and the Georgian Bay Lumber Company for \$147,500. His motion that the deputy minister be required to furnish the committee with estimates of the quantity of timber on the limits was ruled out by a vote of 8 to 5.

STEAM ENGINE CAUSE. A steam engine truck caused a delivery horse of Groves Bros., grocers, 169 Wilton avenue, to run away and injure Easy Forno, 307 East Queen street, on Wednesday. A flying piece of paper was not the cause, as reported.

## NO MORE POISON FUMES IN GASES

Situation in Western Ontario Towns and Cities to Be Improved.

The provincial government is taking a hand in the clearing up of the gas situation in Western Ontario, and all these cities in the Brantford region which have suffered from poisonous ingredients in the gas furnished by the Dominion Gas Company are about to experience some relief. A special sub-committee of the legislature, presided over by W. S. Brewster of Brantford, prepared a radical amendment yesterday which will mean that people must hereafter be assured that the gas they breathe is pure and the government was

announced to have tacitly given approval.

Mr. Bain, the solicitor of the company, expressed the intention of the company to purify all the gas they delivered and claimed that negotiations were now under way by which a special plant would be erected to do this work. In four months, he thought, the people would be begin to benefit.

Geo. Pattinson of South Waterloo put up a strong protest against the action of the company. They had been arbitrary and had said that if Brantford did not take the gas as they found it they could leave it also. He found Mr. Bain stated that a change had been made in the management and that now the company were desirous of satisfying their customers.

Mr. Brewster, however, was sceptical and wanted something that would not leave the city at the mercy of the company.
