"The Serbian army, assured of the efficacious aid of the allies, will fight to the last man. Its chiefs are confident of the future, despite the efforts of the adversary, attacking on three fronts."

Both Teuton and Bulgarish armies invading Serbia are making headway in their advance toward Nish. Today's official German war office statement does not, however, give details of the advance made in the last 24 hours. It reads as follows:

The Austrians say their forces have advanced east of Vishegrad.

According to a Salonica despatch British forces have effected a junction with the Serbians. The French forces are reported to have had a few unimportant skirmishes near Rakiovo, south of Strumitza. This indicates that Strumitza is still in the hands of the Bulgarians.

The morale and spirit of the Serbian army are described as excellent in a Reuter despatch from Nish, which adds the army is intact and the retirement if is being made in good order.

"It is not too late to send assistance," this despatch says. "Even with small elide reinforcements the Serbians will be in a position to hold the Germans for a forthight."

The following statement was received by the Montenegrin legation today:

The Montenegrins attacked the Austrians energetically at Gora, inflicting leary fighting along the Drima and at Grahovo.
