

A Letter from the Author

Dear Girls and Boys:

You have spent two more years practising penmanship. Your writing should be very good now.

Next year you will be given a new Writing Manual—a large book containing many pictures and many lines of penmanship.

Do you always write with Muscular Movement? Do you hold your penholder lightly and allow the hand to glide on the finger nails? Have you learned to sit erect in a healthful, comfortable position while you write?

Give samples of your writing to your teacher who will send them to the Author. If the writing is up to the standard, and if it is done with a free, easy, muscular movement, you will receive a MacLean Method Writing Certificate.

Wishing you every success in your writing.

Yours faithfully,

H. B. MacLean
