HANDS OFF THE TARIFF SAY BOARDS OF TRADE

Vote Was 97 to 18—E. J. Davis Another of the Insurgent Liberals.

By a vote of 97 to 18 the Associated Boards of Trade, before the close of their convention in the city hall yesterday afternoon, passed a strong resolution protesting against the ratification of the reciprocity agreement with the United States.

The resolution was moved by R. S. Gourlay, president of the Toronto Board of Trade, and seconded by Hon. E. J. Davis, a member of the Ontario Liberal Government.

Mr. Gourlay said the reciprocity question was one that should be discussed by boards of trade. He did not wish the members to deal with it in a political way.

The resolution was a lengthy document. It stated, in substance, that the present unexampled prosperity of Canada is the result of the policy pursued in the development of her trade

and natural resources, involving the expenditure of millions of dollars upon railways, canals and other means of transportation between the east and the west.

If the reciprocity agreement went through, further development along these lines would be handicapped and the present expenditure would be to a great extent lost.

Reciprocity with the States would greatly tend to check the growth of trade between the various parts of Canada and of the rest of the empire, and it would be a disturber of trade and commerce generally.

There were also the million or more foreigners to consider. If such an agreement went through they would in time become in sympathy with the United States, and it would become more and more difficult to preserve the autonomy of Canada.

An Unequal Fight.

In introducing the resolution, Mr. Gourlay said he hoped the duty could be taken off natural products without affecting other interests. Any disturbance of duties that took away from the trader was to be deplored. So far as barley was concerned, it could be laid down here for 58 cents a bushel. The results would not justify the roars of expectation.

"We are not trading on equal terms," said the speaker. "They have a population of 100,000,000, whereas we have but 8,000,000. They have a vast market who can come into our market for every one we can send into theirs."

An amendment, stating that the reciprocity question had now become a political one and should not be discussed by the Associated Boards of Trade, was moved by Mr. Stewart of Guelph and seconded by A. J. Young of Halleybury. The latter said that the subject was purely political and in balloting every man would line up as Grit or Tory.

Mr. Ryan of Guelph, supporting the amendment, said that the question had not been discussed by the Guelph Board of Trade and therefore he should not vote on the question as their representative.

Mr. Somers, vice-president of the Toronto board, said that the question was placed on the agenda decided upon at the November meeting, and every board represented at the convention had received notification of the proposed resolution from the secretary.

The amendment was lost and amid much enthusiasm the resolution condemning reciprocity carried by a vote of 97 in favor and 18 against.

Ontario Must Be Watchful.

Justice Riddell was then introduced by President Gage. His honor delivered a masterly address on the resources of Ontario, both old and new. He warned the members that it behooved them to further the conservation of these national assets that Ontario might derive the full benefits from our own province. Upon motion of Sir Edmund Walker, a hearty vote of thanks was rendered to Justice Riddell for his splendid address, containing, as it did, so much valuable information and advice.

A vote of thanks was also tendered President W. J. Gage, R. S. Gourlay, R. Home Smith and others for their interest and assistance in making the convention such a decided success.

At the morning session a resolution was passed urging the Dominion Government to proceed with the deepening of the Welland Canal at as early a date as possible. Extension of the Tomkinsburg and Northern Ontario Railway was also discussed and the associated boards were unanimous in their advocacy of the extension of the line north two hundred miles to Port Nelson and also east and west.

Civic Luncheon.

The city council tendered a dinner to the delegates at McConkey's at 1.30. The mayor and most of the aldermen were in attendance, and there were enough delegates present to comfortably fill the tables, which occupied the

greater part of the large ballroom. Mayor Geary presided, and seated at the main table with him were Ald. Maguire and the president and vice-presidents of the Associated Boards of Trade.

At the conclusion of the dinner the health of the King was proposed by the mayor and duly honored, after which the mayor briefly welcomed the delegates. He expressed the opinion that the meetings were productive of greater good than the mere exchange of commercial views. The benefit to be derived by the members from different sections of the country becoming acquainted and thus gaining a greater knowledge of the land in which they lived, could not be estimated.

President W. J. Gage of the association thanked the mayor and city for the courtesy shown in giving them the use of the council chamber for their meetings, as well as for providing such an excellent banquet.

Similar expressions of gratitude came from Dr. H. T. Reason of London and W. P. Nickle, M.L.A., and then the delegates had to hasten to the city hall to be on hand for the afternoon meeting.

A catchy page of Music—words by Anita Owen—called "In a Canoe With You," and printed in colors, will appear in this week's Sunday World. Order now, as the edition is limited.

COUNT APPONYI COMING IS APOSTLE OF PEACE

Ex-Minister of Education in Hungary Has Commanded World-Wide Attention.

His Excellency the Count Albert Apponyi, ex-minister of education in Hungary, who is to speak in Convocation Hall on Saturday afternoon, is one of the remarkable men of Europe. His connection with Toronto dates from the meeting of the Medical Congress at Buda-Pesth two years ago, when he was chairman of the reception committee for that function, and was exceedingly hospitable to Canadians who attended. Toronto men were anxious to be able to repay his kindness and his visit is in some measure due to this. He is, however, the guest of the university.

He comes as a messenger of peace, and is very well known in Europe as an advocate of the great cause. He only arrived in New York on the 7th inst., where he had a most enthusiastic reception from his Magyar countrymen, which was specialized by distinguished

guished hospitality shown by prominent New Yorkers and at Washington and elsewhere. In fact all the great men of America have been paying court to the eminent Hungarian.

In appearance the count is most striking. He is six feet four inches in height and of magnificent physique. His grey hair and broad beard show traces of his sixty years and his deep-set grey eyes and military nose give him, it is said, a most regal air.

What is more to the purpose, he is a splendid speaker, possessing fluent English, and his views on the peace movement are practical and authoritative. He will speak next Saturday on "The Menace of War as Europe Sees It." He is leader of the Independents in the lower house of parliament at Buda-Pesth, altho entitled to sit in the Hungarian House of Peers, a privilege he has foregone for 25 years. He is also now chairman of the Hungarian Interparliamentary group, and a member of The Hague Tribunal for International Arbitration.

ASK HEALTH OFFICER TO RESIGN

Outcome of Typhoid Troubles—Move for Government by Commission.

OTTAWA, Feb. 22.—The typhoid troubles of Ottawa have raised considerable criticism of the board of health and the medical health officer. There is an acutation of the dereliction of duty of both regarding the entrance of pollution in the water supply. Outspoken public opinion was responded to by a proposal by the board of health agreeing on its own efficiency and proposing to raise salaries all round in the department. This was the last straw, and the city council, after a warm debate, asked the board of control to reorganize the discredited department.

The controllers have asked for the resignation of Dr. Law, medical health officer, around whose head the storm has raged.

Meantime there is a serious move in the city towards government by commission, owing to many acts of the aldermen recently. On this point one newspaper has taken a piousette which gives 98 per cent. in favor of Ottawa being made practically a federal district under a commission.

Feet Tired—So Tired?

TIZ Makes Sick Feet Well No Matter What Ails Them.

TIZ acts at once and makes tired, aching, swollen feet remarkably fresh and sore proof.

It's the sure remedy, you know, for everything that ails your feet and for corns, callouses and bunions, too.

"For years I have been troubled with sore and tender feet, suffering excruciating pain, which would not leave me without TIZ. It has made my feet well, and I am now able to walk without pain."

All it requires is to be known to be universally used.—A. F. Dreutzer, Chicago.

TIZ is not a powder. Powders and their like tend to clog up the pores of the feet, drawing out all poisonous excretions which bring on soreness of the feet, and is the only remedy that cleans out every pore and glorifies the feet—your feet.

You'll never limp again or draw up your face in pain, and you'll forget about your corns, bunions and callouses. You'll feel like a new person.

TIZ is made only by Walter Lather, Duggan & Co., Chicago, Ill., and is for sale at all druggists, at 25 cents a box. Distributors: Nat. Drug & Chemical Co., Ltd.; Lyman Bros. Co., Ltd.

The Stomach Needs Help

The Liver, Kidneys and Bowels Must Be Kept Active to Ensure Health

DR. CHASE'S Kidney-Liver Pills

Not one person in a hundred can get along at this time of year without using something to enliven the action of the liver, kidneys and bowels. Too much eating of heavy artificial foods, too little outdoor exercise, this is the explanation.

The liver and kidneys are overworked in their efforts to remove the poisons which are in the system. They fail and become torpid and clogged. The bowels become constipated and stomach derangements follow.

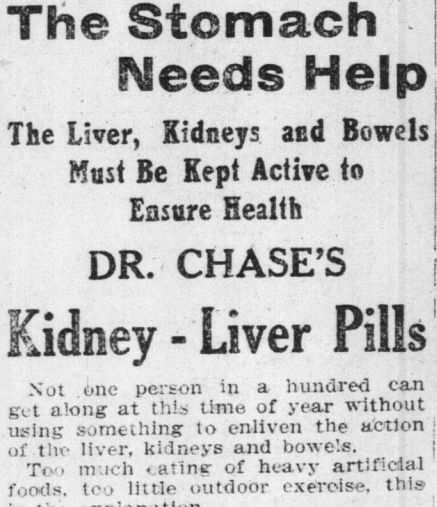

There is one medicine which will overcome this condition more certainly and more quickly than any other, and this is Dr. Chase's Kidney-Liver Pills.

This medicine gets the bowels in action at once and by awakening the liver and kidneys ensures the thorough cleansing of the filtering and excretory systems.

With the poisonous obstructions removed, the digestive system resumes its healthful condition, appetite improves, pains and aches disappear as well as irritability and depression. You cannot imagine a more satisfactory treatment for biliousness, constipation, headache and kidney disease than Dr. Chase's Kidney-Liver Pills. One pill a dose, 25 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.
