Lord Milner Declares Germany Stands Today at Climax of Her Power.

BRITAIN INCREASES ARMY

Field Since Battle Began.

London, June 14.-Viscount Milner, tary of state for war, speaking at YM.C.A. headquarters, said it was an uplifting thought that in the fiercest trial the country ever experienced we were more united and national No connection with any other firm using then we had been in memory of any the Matthews name. than we had been in memory of any ving person. In Germany the war ords had made the issue clear. The military party had all Germany un-der its feet. Her ideal of the future of mankind is a central European block of irresistible strength supported by giant industries drawing raw tials from the rest of the world on Germany's terms-a peace with servile states working for the profit of a paramount empire. This, he said, is illustrated today in the case of Russia and Rumania. It is cer-tain the object is not attainable.

They will fail as has every attempt o subjugate the world by a single bul failed from the Roman Empire

ay we are at the climax of and our great and noble French allies are fighting today with every ounce of strength until the great reserve which the cause of freedom still poss has the time to fully mobilize The German war minister has been sneering at those reserves, saying they are not to be considered. He laughs t who laughs last. I think he will we to regret those sneers. I am connt of help coming from other uld tell you of the numbers we ave put in the field since the great ttle began, the numbers which we are now putting in and shall put in immediately, the numbers would asnish you. But this isn't enough. rt can be great enough where verything we hold dear is at stake." In concluding, Viscount Milner warned against criticising the allies or former allies. Nothing was more unreasonable than abuse of Russia.

The moral unity of the allies is based on the root and greatness of our on cause," he said. "It is our ost precious asset."

### THE WEATHER

Meteorological Office, Toronto, June 14.

—(8 p.m.)—The eastern disturbance has almost disappeared, and fair weather now prevails from Ontario to the Maritime Provinces. The weather has been very warm today in Saskatchewan, and heavy thundershowers have occurred in northern Alberta in the vicinity of Edmonton.

MOST CRITICAL POINT IN FORTUNES OF WAR

London, June 14 .-- Speaking at funcheon at the Aldwych Club today, any's power," declared the war duncheon at the Aldwych Club today, eary. "We are in the right, ex-Premier Asquith said there was no use in cloaking the fact, or minimizing its gravity, that the allies had reached a most critical point in the fortunes of war.

But nothing that had happened on the western front since the last week of March, he added, would in the slightest degree weaken British al-legiance to the great purpose for which the British people were fighting, or their determination to press especially from America II I on to the final accomplishment of their aims.

Mr. Asquith evoked cheers when, in speaking of the strain of the present period, he said that this afforded opportunities for the "cruder forms of sensation mongering which found a ready market among people of low intelligence and high credulity."

The V. A. D. Nurse.

The subject of the V.A.D. nurse came up, as it has in other sessions, but this time in the form of a resolution moved by Dr. Patterson and seconded by Mrs. Huestis, asking for recognition of the training and standing of the V.A.D.'s and suggesting a badge or pin as a mark of the same. Miss Gordon of Kingston and others spoke of the great service the V.A.D.'s had rendered, Mrs. Boomer of London saying that a V.A.D. should not only have a badge, but he covered with them. Mrs. Plumptre regretted that the word "nurses" had been used in give you a clear complexion the exthe resolution, and Miss Gunn thought that the holding of a St. John Ambu-

ports to government authorities here indicated that she was breaking up. There were nine passengers aboard, and all were taken off safely with the crew.

ARE

able to meet what they term "nice girls."

In Toronto the movement has been tigation. There are now between 40 and 50 women doing volunteer patrol work. The organization which at first had worked under the Y.W.C.A., is now working independently in co-operation with the social service department.

Endorsed by Miliatry.

The movement has the endorsation of the local military authorities of Toronto. The important work now before it is the formation of clubs. The women who engage in the work should have many qualities to adapt them to its needs, the chief of which is to have the grace of God in their hearts. Later might be found the opportunity for women police, the netessity for which might arise. In United States "punch" was given to the movement by having the government behind it.

In speaking to the same resolution Mrs. Plumptre described the girls friendly society, which did work in line with that of the patrol movement, inasmuch as it worked for the protection of all classes of girls. She emphasized the opinion that supervision should also be extended to the boys of the community for the general welfare.

The unanimous endorsation of the

boys of the community for the general welfare.

The unanimous endorsation of the meeting went to the resolution.

Reasons advanced for the resolution asking that Ottawa be formed into a federal district were that there would be better civic government if it were removed from the field of politics and managed by a commission, and that at present there was no justification for spending the money needed to make it a befitting capital.

A System of License.
