EAST OF THE CITY LIMITS.

Presentation to Mrs. Ruttan of Norway—Young Man's Proof of Gratitude.

Consequent on the announcement that a year's leave of absence had been granted to the rector of St. John's, Norway, Mrs. Ruttan has been presented by the Woman's Auxiliary with a beautifullly illuminated certificate of its life membership and a Winchester Cross of solid gold. Mrs. Ruttan has deeply influenced the work for church and social interests in the parish during the 24 years she has lived in it. Many of the institutions of Norway Church owe their success to her fostering care and among them the choir, one of the strong points of its services. The keen sympathy Mrs. Ruttan has with children has been fully reciprocated by them and unconsciously it cemented to an immeasurable degree the ties binding the rector to his people.

The corner played by Mr. Kew Williames has been permanently added to the Sunday evening musical service of St. John's, Norway.

Items of Interest.

A supper and dance were given by the York Citizens' Band at Little York on Monday night. The committee, composed of Messrs. J. Ruse (chairman), G. Peck, B. Curtis, G. Corby, G. Empringham, jr., and H. Blaylock made admirable arrangements for an evening of pleasure; and so it proved for the large number of guests present. Yates' string band furnished the music and Mr. Empringham the supper, which, in the quality and number of its dishes, was a veritable feast.

The Township of York has paid Undertaker A. Hunter of Little York $5 towards the settlement of his bill of $20 for burying William Johnston, the ex-druggist of 75 years, who ended life as a farm laborer. Johnston was saved from going into a pauper's grave by the appearance of a young fellow by the name of Martin, a saw worker of the city, who said that he was indebted to the old man for much of his education.

A young fellow by the name of Wellington Bruce made a plucky capture of a runaway bakery wagon yesterday. The horse had been frightened by a street car and was tearing down the Kingston-road through Norway, when Bruce sprang on behind and, crawling forward upon his stomach, finally placed a hand upon the lines.

Fecundity at Scarboro.

York farmers have complained all winter over the scarcity of money, but there are other things among them that are not to be classed as such. A Scarboro' lady, the wife of a farmer, gave birth a few days ago to twins, and a sister of hers, married to a Markham tiller of the soil, went one better the following day by presenting him with triplets. The last comers were two girls and a boy, but the boy died shortly afterwards.

East of the Don.

A number of the young people of St. Matthew's last night held a surprise party at the residence of an old church member, Mrs. Loaring, 42 Temperance-street. The young folks, who were totally unexpected, made themselves merry with cards, dancing and games in the spacious hall of the building till an early hour. After supper had been served, a special car conveyed the party beyond the classic river.

AROUND THE BAY.

News of Harbor and Island—Centre Island Wharves Blocked by Ice—Notes of a Trip Across Yesterday.

Many citizens who make the Island their place of residence during the summer months went over yesterday to see how their property had fared during the winter, and the ferry steamer McEdwards was at times crowded.

The wharves at Hanlan's Point are clear of ice, but the little bay in which the Centre Island wharves are located is still icebound. Yesterday a channel wide enough for the boat was sawn out, and passengers landed and embarked from the ice, which is still nearly a foot thick.

The little ferry steamer Ada Alice, which was sunk last fall at Hanlan's Point, has been raised. It is considerably damaged in consequence of its submersion.

The waterworks dredge is now at work in Blockhouse Bay.

Winter gales have left traces all over the Island. The ground is strewn with willow branches, and the big flag-pole at the Point is on the ground. Many windows which were not boarded up are broken.

The only place where the lake has encroached to any considerable extent upon the beach is east of the Lakeside Home, where it is washed away to the sidewalks.

The walks are in many places covered with drifted sand to a depth of from one to three feet.

The lawn surrounding the Lakeside Home for Children has been graded and levelled, earth for that purpose having been taken over from the city during the winter.

The improvement made during the season at Island Park is very marked. This summer there will be a largely increased area suitable for games.

The Island ponds and lagoons are now covered with flocks of gulls, and many bars of ducks are to be seen in the harbor and Ashbridge's Bay. A number of citizens whose sporting instincts are stronger than their fear of the law are disposed to take advantage of the opportunity to shoot ducks, and occasional shots are to be heard. The size of the bags made is a matter of conjecture.

The Lakeside will be in from St. Catharines this morning.

One Dismissed, Other Committed.

Before Magistrate Ellis yesterday George Murray of New Toronto was charged with stealing the tops off posts from property belonging to Mr. G. R. R. Cockburn, M.P. The case was dismissed.

Edward Green was charged with breaking into the house of William J. Hill, Reeve of the Township of York, and taking therefrom a sewing machine, two revolvers and several articles of clothing. After considerable evidence was taken, Green was committed for trial.

NEW YORK WHEAT GOSSIP.

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from their head office in New York: Wheat ruled strong again to-day. Speculation was on a broader scale than it has been for some time. Cables all reported higher markets abroad, but advantage was taken by some of the foreign houses to market long wheat that had a profit in it. Clearances were again large, amounting to 175,000 bushels. The stock of wheat in New York will hardly decrease so much as last week, but we think it will show a decrease of at least 400,000 bushels. The news from the Northwest is that a material let up in receipts from farmers' hands may be expected owing to the large amount of work farmers will have to do to get in their crops, as ploughing, etc., is very much behind. Export demand was light here to-day, only about three loads being worked. Bradstreet's report shows a decrease in the visible supply in this country of 1,286,000 bushels, and an increase in Europe of 136,000 bushels, or a total decrease in the world's supply of 1,150,000 bushels.

Corn showed some strength, reflecting mainly the influence of the advance in wheat. Exporters look for about 4 loads for shipment, but export trade is very much restricted by the stringency on spot, which is increasing rather than otherwise.

TIPS FROM WALL-STREET.

The feature to-day was Tobacco, which sold down about 5 per cent.

Jersey Central to-day declared a quarterly dividend of 1¼ per cent.

The earnings of C.C.C. for the fourth week of March decreased $58,000.

Chicago Gas is strong with good buying. Washington houses bought Sugar.

The most active stocks to-day were: Tobacco 50,000 shares, Sugar 18,100, St. Paul 6400, R. I. 2700, N. P. 17,100, Mo. P. 1600, L. & N. 11,100, Burlington 6800, Atchison 1700, C. Gas 3100, Manhattan 1700, G. E. 2600.

McIntyre & Wardwell send the following despatch to their branch office in Toronto: Tobacco has been the feature of this afternoon's market, declining sharply to 83⅜. There were rumors that the recently declared dividend would be enjoined, that Stock Exchange authorities were taking steps to investigate the company's management, and that long stock was being marketed. The last was probably true, for the selling was by brokers who recently bought heavily for one of the company's officials, who is very ill. Union Pacific was the strong feature of the market. The favorable outlook for the refunding bill made it active and higher. Sugar was strong. The Manhattan R.R., it is stated, is to submit plans for extensions both up and across town to the mayor. The demand for sixty-day money at 4½ per cent., the rate at which foreigners hold their funds, seems to have been filled, but there is not much inquiry for foreign exchange. No gold bills have apparently come on the market against the $800,000 gold shipped to Europe to-day by the Messrs. Heidelbach. At the close the general market was very dull and irregular.
