The London and Lake Erie Transportation Company has offered to sell the city its whole line for \$420,000, or the between London and St. Thomas ranged for next week.

The letter from President G. Woods was 14t discussed today. It was laid over for consideration.

The communication referred to the co red for next week. The communication referred to the offer that had been made to sell the whole road for \$420,000. The city had referred the question to the railway commission, and it in turn to the hydro commission, and the latter had placed a scrap value of \$268,000 on the road. This was after deducting a sum for the taking up of certain rails and relaying them in other parts, so that this price would be about \$50,000 less than the real scrap value.

The board of control got some lessons on high finance this morning, when a statement as to the financial settlement between the city and the utilities commission was presented for consideration.

The discussion was marked by the mayor reiterating his statement that the water department of the city is not paying its way. Controller E. S. Little agreed with this, and said that the discounts should be reduced to increase the revenue.

Part of the communication, which brought forth numerous smiles from the controllers, asked the city forward a check immediately for the amount on the controllers, asked the city to forward acheek immediately for the amount of the controllers.

Impossibility to pay the money to the city as soon as it was determined. The commission could pay it by November. The city owes the electrical department \$285,000, and the department owes the city \$267,710.24. The balance in the utilities favor is \$17,283.76. It suggested that the city pay this amount, so that it would have a working capital. As to the \$20,000 for the site for the Utilities building, it was willing to pay this off in installments, and pay 6 per cent interest and taxes.

The city owes the electrical department owes the city \$267,710.24. The balance in the cit tion was made of the fact that there would be two special ordinations, those of Sergt. E. Garrett and William D. Davis. The article, while quite true as to facts, did an injustice to Mr. Davis, for while it is true that he has yet a few subjects to write off in order to obtain the college testamur, yet mention was not made of the fact that Mr. Davis has been taking the combined course in Western University and Huron College. Owing to circumstances brought about by the war, it was not until the new year that he decided to present himself for ordination, and although he has done well in the many subjects which he necessarily had to take up, he has still a small balance to wipe off before receiving the testamur. As Mr. Davis is the only candidate of the ordination class who was taking an arts course, he has in reality a higher academic standing than the other members of the class
