Indeed some of the agricultural stalwarts declare that they have a fair chance of being elected to power, by returning more dandidates than either of the old-line parties.

As an outline of the U. F. O. aspirations, it is pointed out, that they have already placed, in unofficial nomination, candidates for 65 of the 111 seats in the the United Farmers of Ontario make no more selections to be nominated on

Mineola, Oct, 8.—Lieut, J. B. Maohle, in a De Haviland 4 machine, equipped with a Liberty motor, was the first to get away in the coast-to-coast air race from Mineola to San Francisco and return at 9:15 a.m. today. Sergt. Jess McClure accompanied him.

Prior to the start of the race, Gen. William Mitchell, chief of training and operations, took a short flight, and pronounced the weather conditions almost appearance on the steps of the First Presbyterian Church, just as the clock in St. Paul's strikes 8:30. For a week he appeared sans clothes and sans shame until he caused Park avenue at that time in the morning to be almost deserted. Some say that, previous to his posing act, he has been nature dancing a la Ruth St. Dennis, and that shortly after the cathedral clock tells the school children that they have but a half hour to get to their studies, he retreats to his home—lif such place he has.

This back-to-nature resident is not a quiet man by any means. As citizens pass by he beats his breast, making a noise in order to attract their attention. Reports of these occurrences have been received by the police, but those sending them have been too late to do any good. The authorities say that if they had been notified while he was exposing himself, they could have arrived on the scene in an automobile in a San Francisco, Oct. 8.—Lieut. J. P. NO INFLUENZA HERE: **BAD LAST OCTOBER**

Great Contrast Shown Between 1918 and 1919.

London is now entering upon the first anniversury of the Spanish "flu" outbreak. Medical Officer of Health Dr. W. S. Downham said today that he had not had a single case of this disease reported to him this year, and that as far as he knows the city is entirely clear of it. The prospects for the city is passing through this period without a recurrence of the epidemic are, therefore, good. By the middle of October last year the "flu" was at its height. Theatres and public places were closed and every precaution against contagion was being taken.

Health reports would indicate that the influenza had its beneficial effect on the city as well as a detrimental.

MARRIED AT CHURCH

Wedding Service of Presbyterian Church Performed by Family Pastors.

[Special to The Advertiser.] Toronto, Oct. 8 .- The flying of the Royal Ensign, the Lion Rampant and the Scotch Standard over the tower of Old St. Andrew's Church this afternoon announced that the first wedding in 41 years of a daughter of a lieutenantgovernor in office was being solemnized that of Miss Enid Strathearn Hendrie, daughter of Sir John Hendrie, lieutenant-governor of Ontario, and Lady Hendrie, to Col. Hugh Owen, O.B.E., of

The very beautiful choral service was taken by the Rev. Dr. Sedgwick of Central Presbyterian Church, Hamilton, pastor of the Hendrie family, assisted by the Rev. Thomas Eakin of St. Andrew's. Dr. Norman Anderson presided at the organ and played a most artistic program—music by Grey, the third act of Lohengrin, the Swedish, Norwegian and the Mendelssohn wedding marches. The Scotch wedding service was intoned and sung by the white-robed choir for a processional as the bride entered the church, "The Voice That Breathes O'er Eden," was followed by the 67th Psalm, and in benediction "Oh, Perfect Love" was rendered.

An Effective Background.

German Industries Are on The Verge of Bankruptcy

London, Oct. 8.—Reports reaching this city from Germany relative to the Leipsic fair throw light on Germany's economic position. According to the secretary of the exhibition there were 7,000 foreign buyers present.

Conversations with exhibitors gave observers the impression that many German industries were near bankruptcy, owing to the shortage of coal and the loss of export trade, their only hope being to trade with neutrals and America. Fear was expressed that the continued hostility of the British would prevent trade in England.

REDS EXPECT TO WIN

The World's Greatest Baseball Battle May Be Staged Today at Cincinnati.

GOOD WEATHER FORECASTED. Cincinnati, Oct. 8.—Good baseball weather was in prospect early today for the playing of the seventh game of the world's series championship between the Chicago White Sox and Cincinnati Reds at Redland Field. It was fair and not so cool as yesterday morning. The Government weather forecast for the day was for fair weather.

Cincinnati, Oct. 8.—Fighting with their backs to the wall, but hopeful despite their four defeats, the White Sox will meet the Reds today in the seventh game of the world's series. The Reds and the 32,000 fans who witnessed yesterday's ten-inning battle felt confident that the contest would be the decisive one, and that before night the men of Moran would be proclaimed baseball champions of the world Before the game started it was believed that Manager Gleason of the White Sox would send Eddie Cicotte, rated as the master pitcher of the American League, to the mound, to face the Red Legs. Cicotte tried to stop them twice and falled, but Gleason has every confidence that he can master the Reds if his arm is in perfect condition. It is possible, however, that "Big Bill" James may be Gleason's eleventh-hour choice.

Supporters of the Reds believed that "Silim" Sallee would be Manager Moran's pitching selection. Sallee scored the Reds' second victory of the series, and is declared to be ready to take his turn on the pitching mound again. All Cincinnati is getting ready to celebrate the expected victory of Reds.

Gleason is Confident.

After winning yesterday. Manager Gleason declared that the Sox had at last hit their championship stride and, although beaten in four of the six games were far from out of the race. The Sox seemed to be fired with a new fighting sipirit which they hoped would turn the tide of defeat into victory.
