SOUTH AFRICAN VETERANS — WE will loan a reasonable amount on warrants or pay the highest price, spot cash, for same. Mulholland & Co., 34 Victoria-street, Toronto, Ont. hand, however, to consider seriously polar gateway to its sweep of the nor-thern ice at midnight. From the end of the necessity of an early return. Nearly half of the food allowance of the polar night, late in February, to the first of the double days and midnight suns we had forced a trail thru darkness, blood hardening temperature and over leg breaking irregularities of the many port of the state of the many port of the first of the double days and midnight suns we had forced a trail thru darkness, blood hardening temperature and over leg breaking irregularities of the many port of the first of the food allowance had been used. In the long marches supplies had been more liberally used than anticipated, and now our dog teams were much reduced in numbers. A hard necessity had forced the cruel.

and over leg breaking irregularities of an unknown world of ice to an area 200 law of the survival of the fittest, for miles from the pole. To this point our destinies had been guarded very well, and ultimate success seemed within grasp, but we were not blind to the loss useful dogs were fed to the steady working survivors. Owing to the food limits and the advancing season, we could not prudently continue long line of desperate effort still required to push over the last distance.

Nowe had the sun unmistakably at ht, and its new glory was at ht, and its new glory was four days. Including delays and the cruel law of the survival of the fittest, for the less useful dogs were fed to the steady working survivors. Owing to the food limits and the advancing season, we could not prudently continue the outward march a fortnight longer.

We had dragged ourselves 300 miles over the polar sea in twenty-four days. Including delays and the cruel law of the survival of the fittest, for the less autematic, and does not at any time enter as an active part of the stery. As we now run along over seemingly endless fields of ice, the physical appearances come under a careful scruting. I watched daily for possible signs. Of dangerous failure in strength, for serious disability now meant a fatal termination.

A disabled man could neither continue or return, but every examinawe had the sun unmistakably at this new glory was an intentive to our life of shivers. Observations on April 8 placed campat taltitude 86 degrees 36 minutes, longiated 184 deg. 2 minutes. In spite of what seemed like long marches, we had seemed like long marches, we had only advanced 96 miles in nine days. The same average advance which we had made on the pack would take us the outward march a lotting to 300 meant a fatal termination. A disabled man could neither continue nor return, but every examination and are in our gourse. There remained an unknown line of 160 miles of every fibre and cell. The bard work which followed, under an occasional burst of burning sunbeams, brought intense thirst. Much of our hard work was lost in had made on the pack would take us to the pole in thirteen days.
