BEER* IS A FOOD

LAGER is a mild appetising product of malt and hops, with less alcohol than sweet cider, which cannot ferment in the stomach. It is specially suited to women as a dinner drink.

ALES as brewed in Ontario are so rich in the food elements of malt that they rank above milk as an item of diet, and are far purer than most milk is when city-dwellers get it.

PORTER differs from ale in that the malt is roasted (like coffee) in the brewing process, and this makes porter so nourishing that it is a real specific for anemic and run-down people.

STOUT is the richest and most strengthening of malt beers; it contains nearly as much nourishment as eggs, and digests easier. Thin people will find it builds healthy flesh.

BEER, used with meals and before bedtime, increases digestive power, gets you more good out of the food you eat—and is itself a food.

¶ Beer does not contain enough alcohol to react upon the system — just enough to induce the stomach to do its work better.

¶ Beer is not an intoxicant—it is a beverage with definite value for almost every grown person.

¶ Ask your own doctor whether it wouldn't be good for you and the adults of your household.

*BEER is a term which covers lager, ales, porter, and stout; and, in the practice of Ontario brewers, implies beverages made under most hygienic conditions from Ontario barley (the best in the world) malt, hops, and pure water.

PROTEST FREIGHT RATES.

New Tariff Discriminates Against Manitoba Points.

WINNIPEG, Nov. 15.—(Special). — The board of trade sent an emphatic protest to the railway commission against the proposed tariff of freight rates out of Winnipeg.

The council find that the rates out of Winnipeg to Manitoba points, under the new proposed tariffs, are increased, while to most points in Saskatchewan and Alberta slight reductions appear. Also that the rates on commodities to Kootenay points will be very heavily increased.

The Telegram asks that any reduction of freight rates out of Winnipeg should be done on the basis of the rates out of St. Paul and Minneapolis to Minnesota and Dakota, and should be no higher than those rates.

POWER FROM EUGENIA FALLS

Company Offers Owen Sound 3000 Horsepower at $20.

FLESHERTON, Nov. 14.—(Special).—The plant of the Georgian Bay Power Company, situated at Eugenia Falls, was inspected by a committee from the Owen Sound Council and Board of Trade. The company is said to have offered Owen Sound 3000 horsepower per year at a cost of $20 per horsepower per year. This is on the condition that the town build the power line to it, but, as the right of way has been purchased already, this is not such a costly undertaking. It is estimated that the total cost would not exceed $60,000.

HAD THIRTY-TWO BOILS ON HIS BACK AT ONE TIME.

TWO BOTTLES OF BURDOCK BLOOD BITTERS CURED HIM.

Boils are simply evidence of the bad blood within coming to the surface.

Just when you think you are cured of one, another seems ready to take its place and prolong your misery.

The only way to rid yourself of boils, pimples, and all skin blotches and blemishes, so that they will never return to bother you again, is to have the blood thoroughly cleansed of all of its impurities.

For this purpose there is no other blood medicine to equal Burdock Blood Bitters.

It has been on the market for over thirty years, and in that time we have received thousands of testimonials stating positively that it will cure the worst known cases of boils.

Mr. James Combs, Eden, Ont., writes: "I think Burdock Blood Bitters a great medicine for boils. I had them so bad I could not work. I had thirty-two on my back at one time. I used only two bottles of B.B.B. and they completely cured me. I cannot recommend it too highly.

THREE CENT FARE FOR CLEVELAND

Street Railway Co. Will Try the Experiment For Six Months At Least.

CLEVELAND, Nov. 15.—(Special.)—The Cleveland Electric Railway Company Thursday morning submitted to the mayor and city officials a proposal to make a six months' test of three-cent fare on all its lines within the city.

Briefly, the offer of the company is: To surrender all its city grants, under which it is enabled to charge a five-cent cash fare and sell tickets at the rate of eleven for 50 cents. In return the company asks for new grants for twenty-five years covering its entire city system. The rate of fare to be charged to be determined after a test covering a period of six months.

During the period of the test the fare to be three cents on all lines within the city limits, and the authorized fare in existing grants outside of the city. The books of the company are to be open to a board of expert arbitrators.

If these experts find that three cents has produced 6 per cent. on the cost of reproduction of the property, including pavements, foundation and special improvements, then the rate of fare shall continue to be three cents during the life of the new grants.

If a three-cent fare is not sufficient to produce such 6 per cent., then the rate of fare shall be fixed so that it will return the required 6 per cent. During the period of the test, it is agreed, the city shall have control of the operating schedules of the road and of the routing of the cars.

Mayor Johnson flatly refused to consider for a moment the Cleveland Electric's arbitration suggestion included in its communication. The mayor made this announcement immediately after the clerk had finished reading the letter.

"You," said the mayor, addressing the council, "have been appointed a board of arbitration by the people, and have already fixed the rate of fare."

The council finally adopted a resolution declining the company's proposal, and calling on the company to make an early report to the council as to what action it intends to take when its franchises on Detroit-avenue and other important west side rights expire in February.

PERCY, THE OPTICIAN.

When a young man of proven ability starts out for himself in business, he should be commended, for he adds another factor to the industrial life of the community. Thus it is with W. M. Percy, optician, who on Saturday opens his new store at 705 Yonge-street, where he will meet the public and cater to their needs as an expert spectacle-maker and advisor. Most modern machinery is being installed for surface-grinding lenses, toric lenses, and the famous chryptoc invisible bi-focals will be supplied on short notice. He leaves Charles Potter after six years' continuous service, where he has had charge of the spectacle department. Most friendly relations exist between him and Mr. Petry of Mr. Potter's. Besides his optical goods, Mr. Percy will carry a full line of kodaks, photographic supplies, and will do developing for amateurs. Altogether, Mr. Percy's new venture promises to be most successful, for in the old days Mr. Percy was a professional photographer.

Christmas in England.

The White Star Line SS. Oceanic (18,000 tons) will sail from New York on Dec. 17 for Plymouth, Cherbourg and Southampton, arriving on the other side on Dec. 24, thus enabling passengers to spend Christmas at home. The Celtic (21,000 tons) sails on Dec. 12 for Queenstown and Liverpool. These steamers are two of the largest and finest on the North Atlantic and the second and third-class accommodations are unexcelled, single passengers being booked in three and four berth-rooms and married couples in two berth rooms. The third-class passengers have the privilege of a reading-room, with piano, which adds greatly to the comfort, especially of women and children; also a spacious and well-ventilated smoking-room for the gentlemen. Second and third-class passengers have ample space on the upper decks. Persons desiring to spend Christmas in the old country could not do better than secure their accommodation on one of these mammoth liners, and as there will be a large number going for Christmas this year, intending passengers should lose no time in having reservations made.

Full information as to rates, etc., can be had on application to H. G. Thorley, passenger agent for Ontario, 41 East King-street, Toronto.

"CANADIAN AGRICULTURE."

The members of the Canadian Institute will hold their usual meeting at the library, 198 College-street, on Saturday evening, at 8 o'clock. Professor C. A. Zavitz, B.S.A., will read a paper entitled, "Canadian Agriculture."

The public are cordially invited.

It may not be known to most people in Toronto that a work has been in progress at the Agricultural College, Guelph, perhaps unsurpassed in any part of the world. The work of seed improvement and plant development has been carried on under the direction of Prof. C. A. Zavitz, for nearly twenty years. A most interesting and entertaining address is certain from one who has contributed so much to the prosperity of this province.

TOWN WANTS THE FINE.

A deputation from Essex Centre, headed by J. A. Auld, M.L.A., waited on the government yesterday to request that the $25,000 fine imposed by Justice Riddell on the Michigan Central Railway, after the fees are paid, should be handed over to the town, which suffered so much damage from the recent explosion. Hon. J. J. Foy said there is little doubt that they will get part, if not all, of the fine. Otherwise it would go to the provincial treasury.

THERAPION No. 1—The Sovereign Remedy for discharges, superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2—The Sovereign Remedy for primary and secondary skin eruptions, ulcerations, pains and swelling of the joints, and all those complaints which mercury and sarsaparilla are popularly but erroneously supposed to cure.
