WOODVILLE.

We cannot report much work done on this Mission during the past year. The people have been somewhat unsettled, and have decided not to make this their home. They have not forgotten their nomadic habits. Many have been away from the Mission during the whole of the summer, only returning for a few weeks for their annuities. After receiving them they started for their fall and winter hunt, consequently the school has been closed part of the time. Public service, class meeting, and Sabbath-school have been regularly sustained and well attended whenever the people were in.

Owing to the failure of the fishery in this lake, and this being a heavily-timbered section, the Government agents thought it advisable to place them where farming would be more practicable.

In accordance with a resolution passed at the last District Meeting, authorizing me to secure a Mission site with the Stoneys on one side of the Mission, and the Crees on the other, settled as near the school as possible, I am preparing to build a Mission and school house. The Indians are working zealously, getting out rails and building timber, making for themselves permanent homes. I hope in another year to report some work done for the Lord. Members, 20.

JOHN NELSON.

VICTORIA.

The settlement at Victoria has enlarged greatly during the past year. In consequence of this a new appointment has been opened up at what is known as the Upper Settlement. Two new appointments have also been taken up among the Indians—one at Egg Lake and another at Wahsalenow. This has entailed considerable additional

labor, but the present, and the ment of our w been seasons of encouraging. the children hav
