A Tength has been discovered an infallible and invaluable remedy for the cure of the most obstinate chronic and common cases of Gonorhea in five days. The dangerous and useless remedies which have hitherto been offered to those who have unfortunately incurred the above troublesme disease, is a subject which has justly merited the censure of the faculty, and produced in many cases, very serious and alarming effects. To guard against these abuses, Eustace & Temple have been induced to prepare a preparation which is attended with no danger whatever, and is active and efficient in curing the disease, with little trouble to the patient. The proprietors have been studious in this particular, as many persons cannot spare the time, or suspend business, to undergo a regular course of medicine and regimen—this preparation will entirely obviate this necessity. The course to be, pursued is exceedingly simple, and will not interfere with the regular duties of business; and if the medicine is used according to the directions, it will effect a speedy cure in five days. As to its decided effeccies, we will barely remark, that since its use in this city, cheer has not been a failure in a single case, and there are many both of the faculty and otherwise, that have already testified with pleasure to its decided superior qualities. Its taste is perfectly agreeable, and persons of the most delicate stomachs have used it without any inconvenience whatever.
