One of Two Things

Is certain in this uncertain weather—it will either rain today or else it won't.

But, if it doesn't rain today it will some other day. With a good Mackintosh to protect your clothing you can afford to have a good suit.

\$12,000 Award In Cheesman Suit

The case of Cheesman vs. the Canadian Pacific Railway was concluded in the supreme court yesterday afternoon. In this case, Laura H. Cheesman, the plaintiff, brought an action for damages against the railway for loss of her husband's life, who was killed while working as an engineer in the employ of the company. In answer to questions submitted by Chief Justice McKeown the jury found that the accident was caused through the negligence of the defendant company in having a deficient brake on one of their cars, and at the same time found that there was no negligence on the part of any of the employees. Had there been negligence on the part of any of the fellow employees of the deceased, the case would have come under the Workmen's Compensation act, the maximum damages under the act being \$2,000. The case was tried in the alternative, D. Mullin, K. C., who appeared for the plaintiff, relying on both the Workmen's Compensation act and the common law procedure, in the latter case the damages not being limited. The jury, in their answer to the questions submitted by the chief justice brought the case within the scope of the common law, and awarded damages to the amount of \$12,000.

F. R. Taylor, K. C., who appeared for the defendant company, asked his honor to reserve the entering of a verdict as there were several points in connection with the jury's finding that he would like to argue. His honor granted Mr. Taylor's request. The following were the questions submitted by the chief justice and the answers given by the jury:

10. At what do you assess the damages?

(a) Under Workmen's Compensation act? \$2,000.

(b) Under chapter 79, section 2, Consolidated Statutes of New Brunswick, \$12,000.

(c) Under chapter 79 how would you divide the amount?

Ans.—Laura H. Cheesman, widow, \$4,000; Frederick H. Cheesman, ten years, five months of age, \$1,000; Thelma M. Cheesman, eight months of age, \$2,000; Evelyn E. Cheesman, five years, ten months, \$2,000; Della E. Cheesman, four years, five months, \$2,000.

KAISER'S CALL FOR A CONFERENCE PUZZLES THE UNITED STATES

Washington, July 12.—Conjecture here as to the purpose of the conference between Emperor William of Germany, and the neutral ambassadors and ministers, which was announced on Monday morning, ranged all the way from new peace proposals to threats of drastic action against the north European neutrals in the event that they should yield to the United States and refuse to continue to supply Germany with food and raw materials.

The general belief is that the emperor is making it plain to the Scandinavians that if they allow their territorial waters to be patrolled or mined by the Entente Allies, or refuse to continue to exchange goods with Germany, he will regard the action as a breach of neutrality and as an act of hostility towards Germany.

The reported conference, taken in connection with President Wilson's proclamation establishing a licensing system for exports, has caused quite a commotion among the diplomatic representatives of the neutral states. Some representatives on the subject already are believed to have been made to the state department.

Shipping Losses.

The sinking of fourteen British merchantmen of more than 1,000 tons is reported in the weekly summary of shipping losses. Three merchantmen and less than 1,000 tons and seven fishing vessels also were sunk.

MORNING NEWS OVER THE WIRES

Sir Henry Drayton, chairman of the Dominion Railway Board, has returned to the government a check for \$15,000, which was sent to him in payment for his services as a member of the Drayton-Ackworth Smith commission, which investigated the Canadian railway situation.

Master Alfred Bell of Grand Falls, while riding on the running board of an automobile, was thrown off when the car struck a rut, and struck on his head. He is in a very critical condition. Fracture of the skull is feared.

The pattern storage building of the International Engineering Works, Amherst, was totally destroyed by fire yesterday morning. A. G. Robb, the general manager of the plant, was unable to account for the cause of the disaster. The loss was estimated at \$100,000.

The steamship Parthenia, which visited St. John on many occasions some years ago, on the route between this port and Glasgow in the Donalson line service, is reported torpedoed. The crew were rescued.

During Tuesday night, a baby girl was left at the home of Chester Purdy near Oak Bay, Charlotte county. It was left in a washbub in a porch. A note declared the child six years old, her name Gladys Loreen and asked the finder to take good care of the little one till the mother called for her. A stableman says that on the C.P.R. line

How Any Woman Can Remove Hairy Growth

(Beauty Culture.)

It is not longer necessary for a woman to visit a beauty specialist to have superfluous hairs removed, for, with the aid of a plain depilatory paste, she can, in the privacy of her own home, remove even a stubborn growth in a very few minutes. The paste is made by mixing some water with a little powdered delatone. This is applied to the hairs and after 2 or 3 minutes removed and the skin washed, when it will be left clear and hairless. Be sure you buy real delatone.

food. At a meeting of the executive held in the rooms of the Royal Standard Chapter L. O. D. E., the subject was discussed and it was decided to ask all hotel and restaurant proprietors to print a notice on their menus asking all patrons not to order more food than they actually desire and thus do away with waste. It was also decided to hold a tag day in the fall, the proceeds to be devoted for the benefit of the Children's Aid Society.

Cocoon Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulified cocoon oil (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and because the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulified cocoon oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

FIVE WRECKS TOO MANY.

A disconsolate group, comprising three sailors and a dog, passed through the city yesterday on their return to their homes in Nova Scotia. They are the survivors from the British schooner Unique, which struck Tuesday morning off Tucker's Shoal, Nantucket Sound. Forty-eight hours without food or sleep, the men reached Boston Tuesday night almost in a dazed condition. All of their money and possessions were lost in the wreck, but a kindly cabby soon had a message on its way to John B. Masson, of 84 Massachusetts avenue, Cambridge, the British vice-consul in Boston.

Thomas Kendall, the steward, declared that five shipwrecks in as many months were of sufficient excitement to last a man a lifetime and he was through with the sea.

Torpedoed four times in thirteen days while on deep-sea ships, Kendall declared that he had shipped in coastwise trade for a rest.
