43 East 22nd street, which she has in charge.

"Dr. Copeland's statement that women are becoming longer lived, and that sanitarians for nervous people have not received an unusual number of patients are, of course, not a scientific basis for the deductions which he makes," the young physician continued more calmly.

"I do not think high heels or corsets are a cause of premature death. They merely lower efficiency. The woman who wears them is merely less alive. She is 75 per cent. alive instead of 100 per cent."

"Hardly a respectable foot has been examined at the health centre, and scarcely a girl with good posture. The type of shoe and corset worn has been largely responsible for this pathetic fact."

"The girl who begins to get plump around the waist and hips, instead of exercising a little justifiable vanity, and

"This was the comment on Dr. Florence L. Meredith, on reading an account of an interview with Health Commissioner Copeland, in which he defended wearing high-heeled shoes, corsets, thin silk stockings and the use of rouge, on the ground that these things have not shortened the lives of women and are not harmful.

Has Had Wide Experience.

Dr. Meredith is a girl health expert. She has made physical examinations of 12,000 girls in her experience, including four years of incoming freshmen of Wellesley College, the employees of a large factory in Boston and 700 business and professional women examined at the Y. W. C. A. Health Demonstration.

CITY OF ST. JOHN. SEALED TENDERS will be received by the City Engineer for the construction of a sewer for water mains and sewers for Douglas Court and Alexandra Heights. St. John, N. B. until 10 o'clock.

THURSDAY, THE ELEVENTH DAY OF DECEMBER, INST. at 11 of the City of St. John, N. B., for excavating and backing trenches for water mains and sewers at Douglas Court and Alexandra Heights. St. John, N. B., according to plans and specifications to be seen in the office of the City Engineer.

The City does not bind itself to accept the lowest or any tender.

No offer will be considered unless on the form supplied by the City Engineer and to be had in the Engineer's Office.

Cash or a certified check for five per centum of the amount of the tender must accompany each tender. This will be returned to all rejected bidders, but the City will hold the deposit accompanying the successful bid until the satisfactory completion of the work.

Dated at St. John, N. B., December 4th, 1919.

JOHN B. JONES, Commissioner W. & S. ADAM P. MACINTYRE, Comptroller. 105678-12-9

at the same time making profit for her figure from the sugar shoddy, keeps on with her indolent habits and self-indulgent eating, depending on the question of thin clothes, provided the health is not such that the body can keep itself warm. And if the health is not such it should be made so. My objection to very thin clothing is entirely a moral one.

Responsibility of Dress.

"Most women have very vague ideas about their responsibility in the matter of tempting men away from what their own ideals would have them cleave to. They still believe in the old theory that perfectly innocent and unoffending girls are seduced by depraved men, and will admit what they could observe with

the greatest ease, that a good percentage of hitherto innocent and well-meaning boys have been carried to the point of loss of self-restraint by girls who did not, perhaps, know better, but should have.

"The word of countless men of every kind and variety is to the effect that clothes which women wear, or do not wear, make clean living a thousand times harder than it need be.

"Returning to the other question of the aesthetic appeal of incorrect clothes to men, I think most men, especially since the war, have got a different interest in women and girls, and I think they realize that if women have not visible health they are of very little use in any sphere of life.

"And I think the best type of girl generally feels that if she has no way of interesting men except by deforming her feet and her figure and painting her face, she will go husbandless—believing singleness would be a blessedness in comparison to living with a man who could stand such a woman.

"Only the man who has low ideals for women and who does not care how far they get in life or how much comfort they get out of living—a somewhat hard-hearted and soft-hearted man—a short-would care for such a girl."
