

Exhibition Drew Crowd Of More Than 11,000

Third Day a Big One — Good Weather Added To
Pleasure of Visitors — Full Programme With
Great Fireworks Display—Results of Judging

The last doubts regarding the success of the provincial exhibition were removed by the attendance yesterday. Great crowds, estimated at more than 11,000, visited the fair and enjoyed the many attractions. The main building, the wings, the poultry house, carriage halls and live stock buildings were all crowded in the afternoon and evening; the midway was packed with pleasure seekers and the grandstand was filled for the afternoon and evening performances.

The motor polo games were thrills yesterday. In the afternoon two cars were put out of commission and the games finished with the two others. In the evening an accident to one of the players brought the first period to a close and when the second was started two cars crashed together, damaging both and hurting one of the players. Cars and players expect to be ready for the game again this afternoon.
