San Francisco 19th. The Hong Kong newspapers denounce the Cooly trade as practiced by the Portuguese. They state that personal punishment is often inflicted by them on Chinamen who refuse to ship and that other undue means are used to make them change their determination.

They also give instances of kidnapping of girls and women who are carried off in various ways for infamous purposes. Men are violent in carrying off and shipped to South America as Coolies.

At the recent sitting of the Circuit Court in Albert, the trial of Tingley Pye, for the murder of Freeman Tingley on board the "Ottawa," on the 10th March last, occupied attention for two days. The Jury retired, and, after an hour's absence, agreed on the following verdict:—

"The Jury find the prisoner guilty of shooting Freeman Tingley on the 13th March last on board the vessel "Ottawa," but they acquit him of any felony on account of his being in sane at that time."

The Standard.

ST. ANDREWS, JULY 24, 1867.

THE SPECIAL SESSIONS held on Friday last, in the Court House, was the largest and best attended meeting which we have seen for many years. The old, the new, and recently fledged Justices were present, and we may state that the Bench was well represented.—

The questions for consideration affected in most instances the welfare of the County, sectional and general, and were as follows:—

1st. To adopt measures to meet the liabilities incurred by the School Committee of the Town District in St. Andrews.

2d. To provide means to pay the expense of procuring information to be submitted to the proper Authorities, with a view of influencing the construction of the Intercolonial Railway by the Frontier route.

3d. To assess the Parish of St. David for the erection of a Town Hall.

4th. To provide a sum of two hundred and fifty dollars for the survey of the line of Railroad from the St. Andrews line to the boundary of the Province towards Houlton.

Justice Cotterell, was appointed chairman, and filled the position with much ease and credit. The subjects were then taken up seriatim. The following Justices present:—

Justices Watson, Stevenson, S. H. Whitlock, Russell, Smith, Crilley, Smart, Gore, Donald, McElroy, Bradley, Hibbard, Callinan, Johnson, Magee, Rierdan, C. E. O. Hatheway, Hanson, Gillmore, Lynott, McCallum, Moore, Simpson, Murdoch, Mealy, Chipman, Rose, Stevens, Boyd, Stickney, King, Young, Street, Dick.

It was ORDERED.—That \$400 of the Town fund be paid over to the School Committee of District No. 1, St. Andrews, to meet the liabilities incurred them in providing School accommodation for said District, and the assessment now ordered for School purposes in the District when collected to be paid over to the Justices, the same to be done within twelve months.

Whereas, it is of great importance to the whole County of Charlotte, to procure the most complete information to be laid before the Parliament at Ottawa, in reference to the best route for the Intercolonial Railway, therefore

RESOLVED.—That this Court viewing the great benefit that would accrue to the County of Charlotte if the Intercolonial Railway should go by the Western route, deem it advisable, that the Grand Jury to meet in September next, be asked to recommend an assessment of \$1,000 upon this County, and that the necessary legislation may be had therefor, that the same may be expended in procuring information to be laid before the Parliament at Ottawa; except \$250 thereof to go in aid of individual subscription for the purpose of surveying the Branch Railroad from the St. Andrews Railway to the boundary of the Province towards Houlton, and that a Committee of Justices be appointed to expend and make due return of such expenditures.

On moving the above Resolution Justice Watson entered at length into the history of the Houlton Branch, and urged immediate action with reference to obtaining such statistical and other information as would have a bearing upon the Parliament and Govern-

ment at Ottawa, to induce them to decide upon the Western route for the Intercolonial Railway. Mr. Watson's earnest manner and desire to benefit his native County, together with the convincing arguments he used, and facts which he adduced, gained him an attentive hearing, and frequent applause. After some few observations from other Justices the resolution passed unanimously with the exception of one voice, whose feeble opposition is scarcely worth alluding to. The meeting was harmonious, and one of the best we ever attended.

ORDERED.—That there be assessed upon the Parish of St. David, the sum of \$300 towards the building of a Town Hall, in accordance with the Act of the Legislature providing for such assessment.

We have been furnished with the following comparative statement, and have much pleasure in publishing it, as it shows a most respectable increase in the earnings of our Railway. The loss in January and February arose from the heavy snow storms. The traffic in June we notice exceeded that of the E. & N. Railway by \$2055.07! This speaks well for our Railway.

Table with columns for Month (Jan, Feb, March, April, May, June, Total) and various metrics like Gain, Loss, and Net Gain. Total Gain is \$7675 50, Total Loss is 1017 95, Net Gain is \$6657 54.

Statement of earnings for six months ending 30th June 1867, compared with six months ending 30th June 1866.
