RURAL GUARDS ARE JOINING INSURGENTS

Guerra Refuses to Accept Cuban Government's Offer of Armistice -Bridges Blown Up-

Havana, Sept. 7:-All peace overtures are blocked by the refusal of Guerra, the insurgent leader in the province of Pinar del Rio, to enter into an arrangement for an armistice. Guerra's answer to the government's announcement of its readiness to grant a ten; days' armistice is the blowing up of two bridges on the Western railway, cutting off railway communication beyond Pinar del Rio, and an attack on

The fact that other insurgent leaders are willing to agree to an armistice can have little effect as long as Guerra is determined to prosecute the war. Guerra can control the situation in his region. His force is reported recently as from 1,000 to 4,000 men, all well mounted and some well and some indifferently armed. The government has sent a second committee to him regarding an armistice, but it cannot reach him before to-morrow. The fact is Guerra refuses to accept an armistice except on condition that the last presiand congressional elections shall be annulled. LETTER READ FROM WINSTON CHURCHILL

Change of Government Does Not Imply Any Weakening of Affection Towards Canadians.

Toronto, Sept. 7.-Hamar Greenwood, M. P., read to-night at the banquet given him by the directors of the Canadian National Exhibition a letter written by Winston Churchill, under secretary for the colonies, which is in the nature of an official greeting from the imperial government to Canada.

> Colonial Office, Downing Street, S. W., August 20, 1906.

My Dear Greenwood-I am very glad indeed that you are going to spend the autumn recess in Canada. In your double position as a Canadian by blood and bone, and as the representative of of a famous English city, you may find some opportunities of helping forward the measured but irresistable march of imperiaal consolidation. Your own gifts and your work at the colonial office will enable you to turn these opportunities to good account. For the last twenty years the Conservative party of England has been inseperably assoclated with the symbols and apparatus

of imperial administration. "The British Government" (in the colonies) has for so long implied the Conservative party that the terms had become almost synonymous. Canadian and Australian statesmen have been accustomed to deal only with that set of British politicians, and alike by their wise detachment from our party day there will be still two distinct controversies and by their loyalty to schemes before the aldermen, one ex- the mother country they have come insensibly to regard a particular political party as having an especial claim Mayor Morley and supporters, and the upon their confidence.
