ONE CENT

CONFESSES THE MURDER OF A SIXTEEN YEAR OLD GIRL.

Henry Becker, Under Arrest on
Suspicion of Killing Amelia
Stafford, Admits His Crime
—He First Said a Com-
panion Was the Guilty One.

NEW YORK, May 26.—Becker, the man arrested on suspicion of murdering sixteen year old Amelia Stafford, today made a full confession of his crime.

His first statement in which he said he saw a companion assault the girl was subsequently retracted.

Today he was taken to the scene of the crime and was identified by Miss Emily Simonsen, as one of the men who was seen at the pump in her yard on the day of the murder, also told of picking up in the Simonsen yard the handkerchief which was later found on him.

Becker was then asked about the second man that he had been talking about in connection with the case, and for the first time admitted that he never saw this man before he was about to go into the Simonsen yard and after that the two washed their hands together at the pump.

The stranger then disappeared.

Becker was taken back to jail, and during the ride from Simonsen to Long Island, he told detectives, it is alleged, the most important and shocking part of the story. He said that he would feel better if he told the whole truth. He described how he had been sleeping in the fields and saw the girl enter the lot in search of candelabra.

"I went up to her," it is asserted he said, "and tried to get up a flirtation, but she told me to go away. I can't remember, somehow, just all that happened, but I know I took hold of her, then I hit her in the back of the head with a stone. After that I struck her once or twice with a knife."

After washing his hands at the pump he said he went toward Corona as fast as possible, and there, near a railroad crossing, threw off his outside shirt, which was stained, tore it to shreds and threw it into the bushes. He said a man in Flushing had given him two shirts a week ago.

A policeman named Williams reported several days ago that he had given two shirts to a young tramp bearing Becker's description.

There are many features in Becker's story that he could not explain in a way to conform with obvious evidence the police have. He will be arraigned in Flushing Wednesday and at the same time unless something develops to change the entire complexion of the case, he will be formally charged with murder in the first degree.

A man who said he was Thomas Blouski, 45 years old, was arraigned in the Tombs today on suspicion of being implicated with Henry Becker in the murder of Amelia Stafford, in Elmhurst last Wednesday. He was remanded to police headquarters.

STEPHEN PAYNE'S HOME TOTALLY DESTROYED

Residence Formerly Occupied by Stephen
Glasier, at Lincoln, Was Burned
Yesterday.

FREDERICTON, N. B., May 27.—The handsome residence of the late Stephen Glasier, situated at Lincoln, five miles below the city, with three valuable barns, was completely destroyed by fire yesterday afternoon. The fire broke out about 1.30 in one of the barns and spread rapidly to the surrounding buildings. The house was occupied by Mr. and Mrs. Stephen Payne, Mrs. Robert Payne and Miss Payne, who were all at home at the time.

Most of the furniture was saved and the live stock with the exception of two pigs rescued with difficulty. All the farm machinery with hay, oats and farm products was lost. The origin of the fire is a mystery. The house was built about forty years ago at a cost of \$2,000 and the barns at a cost of \$200 and the latter for \$200. The buildings will be rebuilt at once.

HINDUS SEEK JAPANESE AID AGAINST BRITAIN

LAHORE, British India, May 27.—Those who have been agitating the Hindus in India to the victory of the Japanese over the Russians find confirmation of the belief in documents found in the possession of a Hindu lawyer and a companion arrested here in connection with the recent riot at Bawalindi. The documents show that the men taken into custody were on their way to Tokyo to solicit intervention in behalf of a native revolt against British rule.

St. George's basketball club will give a concert in City Hall, West End, tomorrow evening.

MEAT PACKERS REFUSE TO PAY FOR DISEASED CATTLE

Commission Men Demand Their Money
and Chicago Prices Will go
Away Up.

CHICAGO, May 27.—Meat prices in Chicago may jump skyward this week. The packers notified the commission firms that beginning today they would no longer stand the loss on diseased cattle and in order to protect themselves they had found it necessary to refuse payment on "cows" until it had passed the government inspectors.

"During the latter part of last week thousands of letters and telegrams were sent out by the commission men to their customers notifying them of the action that had been taken by the packers and advising them to withhold all shipments of cattle to the big markets controlled by the trust until the difficulty is adjusted. This is expected to cut the meat supply tremendously before the week is over, and prices are expected to go up correspondingly.

Commission men declare it is the intention of the packers to enforce the rule with regard to "cow stuff" now in the hope that similar action may be taken with reference to their purchases of sheep and hogs.

Some of the leading commission firms and shippers have communicated with the Secretary of Agriculture at Washington with regard to the action on the part of the packers and it is said assurances have been given that an attempt to delay payments on live stock by packers would result in the withdrawal of the inspection services.

DOG ROBS POLICEMAN, BUT ESCAPES ARREST

Resisting His Regulation of Street Traffic,
Animal Seizes Baton and Bolts.

PARIS, May 25.—"Toutou," "Ki-Ki," "Noble," or whatever name he permits himself to be called, is only a dog, and therefore not always discriminating. When on duty "protecting the boss," atop the big truck, he barks at a weakling just as furiously as he would at a bearded man who entered his own home uninvited. Furthermore, he means to make a point of it. The dog, in this case, was on duty in the Rue Royale, the "boss" the reigning sovereign and he, the loyal, vigilant army guard, all frontiers at once against a myriad of supposed foes.

He was alert as usual yesterday afternoon when the truck was being driven through the Rue Royale. He saw a crowd of people and an endless stream of vehicles passing, and barked away as many of them as he could count. He knew as little as he cared about street traffic regulations, and when a policeman held up a baton and the truck came to a stop he did not understand that it was all as peaceful as the Hague intentions. It so happened that the policeman stood quite near the truck, and the gallant guard, who had consequently stood as near the policeman as possible, a fact on which the latter did not count, when the dog, in a flash, seized the baton and bolted.

As he did so he turned his back on the truck, and the dog, seeing the baton and bolted. Then it was that the guardian of the law bolted after the dog and the driver of the truck bolted after both. The baton was eventually restored to its owner, but the dog, having treated it as a limb of his worst enemy, did not get back.

A BOY AND A PISTOL; THE SAME OLD STORY

MONCTON, May 27.—Newton Wilbur, aged 15 years, last night found an old revolver lying in the back yard. He began experimenting with the weapon, to find out whether it was any good, and he was so successful that he shot at his feet. He found that the weapon was in pretty good working order, for as he pulled the trigger there was a report and the bullet entered his right foot. The revolver was 32 caliber.

The Lake Manitoba arrived at Liverpool at six p. m. yesterday.

Miss Margaret LeLachur, daughter of Mr. J. LeLachur, sr., leaves tonight on the six train for the West. She will reach Seattle Saturday, June 1st, and during the following week will be united in marriage to Mr. John Robin, a wealthy shingle manufacturer of Castle Rock, Wash. They are to make an extensive tour of the West, including Portland, San Francisco, Yellow Stone Park and other points of interest. After September the will be at home in Castle Rock.

HALIFAX TIED UP BY LONGSHORE STRIKE

Having Taste of What St. John
Has Often Gone Through

Plant Line Steamer Lylg Idle at the
Wharf—Men Want Flood Agreement
for Five Cent Increase.

HALIFAX, May 27.—The longshoremen's strike is now on in real earnest and the men are about on Water street determined that if the five cent increase is not given them they will turn to some other branch of labor for a livelihood. For the moment the number of men giving up employment is not very large, probably 200 or 300, as there are only a few cargo steamers in port and they are not large ones. The Plant Line steamer, arrived last night from Boston and was to have sailed today for Charlottetown, but she is held up because of lack of labor to discharge her. Mr. Chipman offered to give the increased wage to the men, but the men refused to accept it, and the men asked for an agreement by which the Plant Line would undertake to give the increase unconditionally. Mr. Chipman did not feel at liberty to make such an agreement, and so matters stood at that, the steamer is unloaded so as to get away for Charlottetown and keep up with her schedule, and was willing to abide by the general action as to subsequent wages.

But the men asked for an agreement by which the Plant Line would undertake to give the increase unconditionally. Mr. Chipman did not feel at liberty to make such an agreement, and so matters stood at that, the steamer is unloaded so as to get away for Charlottetown and keep up with her schedule, and was willing to abide by the general action as to subsequent wages.

It was about the head of the wharf in groups. A representative of the Montreal longshoremen's Union is in the city, but he did not take any part in yesterday morning's meeting. It is understood that it is favorable to arbitration but he had not up to this morning made his position known generally to the men. As G. S. Campbell's wharf there was nothing doing and the men were about the head of the wharf in groups. It was about the head of the wharf in groups. It was about the head of the wharf in groups.

PHYSIQUE SINKS LOW ON VEGETABLE DIET

Extraordinary Degeneracy of Some German
Peasants Attributed to Want
of Meat.

BERLIN, May 25.—Some curious statistics come from Southern Baden. During the recent enrollment of recruits in the Linde and Altpfle districts, out of 94 young men liable for service, only twenty were found who were up to the physical standard required by the military authorities. 217 were placed on the doubtful list, and the unusual number of 87 were put aside as wholly unfit for active service.

It seems that the peasantry in those districts was at one time among the most robust in the empire, but owing to the first place to the fact that milk, which was one of the staple articles of food, is now carefully collected for cheese factories, their physique has sunk to a level scarcely above that of the potato and skimmed milk.

DOWIE'S SUCCESSOR HAS TROUBLES OF HIS OWN

Zionists Organize a Campaign Against
Volva—Police Called to Keep
Order.

CHICAGO, May 27.—Following a riotous meeting in Shiloh Tabernacle at Zion City yesterday, in the course of which Volva Glenn Volva, John Alexander Dowie's successor as head of the Christian Catholic Church, found it necessary to call for police intervention to restore order, 300 opponents of Volva last night united to overthrow him at the September church council.

FIRE IN ROCHESTER DOES \$100,000 DAMAGE

ROCHESTER, N. Y., May 27.—Fire which did at least \$100,000 damage broke out in the top floor of the building occupied by Oaks & Calhoun, Main street east this morning. Every fire company in Rochester was called out to fight the flames but the fire is still burning although under control. Although the fire was confined to the building occupied by Oaks & Calhoun the top floor and attic of the National Clothing store and several neighboring buildings suffered from smoke and water.

ANOTHER REBELLION HAS BROKEN OUT IN CHINA.

WILD BEASTS AT LARGE,
BUT CAPTIVE STILL

Most Wonderful Zoological Garden in
World is Opened by Famous
Hagenbeck.

HAMBURG, May 25.—Herr Carl Hagenbeck's wonderful Zoological Gardens at Stellingen, near Hamburg, of which much has been heard during three years of construction, were officially opened recently.

Though entirely a private enterprise this "Zoo" contains the largest collection of wild animals ever seen in one place of the kind, and the design is unique. These important attractions brought to the opening inspection of the complete spectacle a distinguished gathering of Germans and the directors of most of the Zoological Gardens of Europe.

It is the daring arrangement of the animals—held in the open air in a captivity of which there is no visible indication to ordinary observers—that makes the great impression. This more scientific and humane treatment is the outcome of fresh ideas conceived by Mr. Hagenbeck in his observation of the old-fashioned "Zoo's" throughout the world.

Imagine a park of twenty-six acres. You enter by a shaded avenue. Suddenly a panoramic view of over 600 members of the animal kingdom bursts upon the vision. They are disposed in lakes and plain and mountain range; no houses, no restraining bars or wire cages. On the spacious lake immediately in front of the waterfowl is a natural home. On a mound just beyond many hoofed animals, such as zebras and buffaloes, are ranged in a range of artificial mountains, displaying eight peaks, are inhabited by mountain beasts, who roam at will, so it seems, but they are safely confined to their definite quarters by a series of hidden ditches, twenty feet wide, and twelve feet deep.

The most daring idea in the park is perhaps the immense structure formed by boulders resembling a tremendous iceberg. At the base is a basin for seals, sea lions, penguins, cormorants, and seagulls. Above are the polar bears. Visitors may mount from one side to the top, obtaining a grand view of the entire "Zoo" and toboggan down the other side to the plain.

"My idea," Herr Hagenbeck said, "has been to erect a 'Zoo' in a perfectly natural manner. Surely animals held in the open air are of more educational value, than when housed and held behind iron bars. It has been the intention of my life to build a 'Zoo' after my own ideas; here I have accomplished it. You see here thirty-five tigers, from 2 months to 3 years old, seven Bengal tigers, twenty-four elephants, six bears, four Indian rhinoceroses, two hippopotami and deer, antelope, reptiles and birds. I do not exaggerate when I say that these animals represent a value of \$200,000."

VEVUSIUS SENDS OUT POISONOUS GASES

Fissure Opened in the Side of the
Mountain—One Man Suffocated.

NAPLES, May 27.—At Rosettocasse on the southern declivity of Mount Vesuvius, a fissure suddenly opened yesterday, from which a flow of poisonous gases continued. A peasant who happened to be near the fissure, was killed and nine others who rushed to his rescue and fell asphyxiated, were saved with difficulty. The gas from the new fissure rises to the height of five or six feet and carabineers have been posted in the vicinity to prevent persons going within the danger zone.

HAMBURG-AMERICAN CO. TO START NEW SERVICE

LIVERPOOL, May 27.—The Hamburg-American Steamship Company has definitely decided to establish a line between Liverpool and New York. Other developments are expected to follow this move. Herr Ballin, director general of the Hamburg-American line has appointed the Messrs. MacIver, Liverpool, shipowners, as the company's agents. This firm has for a long time been connected with the Cunard line. The move of the Hamburg-American line is considered to be an offset to the competition of the White Star line at Southampton and may have an important bearing on the plans of the Cunard Company.

HAMBURG, May 27.—The appointment of MacIver & Co., the Liverpool shipowners, as agents of the Hamburg-American Steam Packet Company at that port has led to a misunderstanding of the aims of the German company there. Director Ballin of the Hamburg-American line today stated that this company had no intention of establishing a direct service between Liverpool and New York.

Peasants, in Revolt, Have Murdered Many Officials— Disaffection is Spreading and Conditions are Serious —Britain Sends Gunboat.

SWATOW, Province of Kwantung,
China, May 27.—A rebellion has broken out at Wong Tung in the Taping district of the Chinese Prefecture. All the civil and military officials at Wong Tung have been assassinated and their remains buried.

The local revolutionists who were joined by several of neighboring provinces, concentrated for their attack on the officials without being molested by the populace.

The military commander here has mustered the station guards and started for the scene of the outbreak. Steps are being taken by the local police to prevent excesses here.

The Chinese bankers have organized a steam launch patrol of the coast to prevent piratical attacks on the part of marauders from seaward.

Chincheu, or Tienchenou, is a marine district of China comprising parts of the provinces of Kwang Tung and Fokien on the south west coast. It is inhabited by a hardy and industrious people who furnish the majority of the men who form the crews of the Chinese imperial international navies.

According to advices received by German Cable Company from Shanghai disturbances have also broken out at Pakhoi and Tsium. There as well as at Lenchow it is apparently serious.

BERLIN, May 27.—According to dispatches received here from Shanghai and Hong Kong, native rioters have destroyed the German mission station at Lien Chow, near Pakhoi. The missionaries escaped. The German gunboat Albatros re-inforced by 25 marines from the gunboat Tsig Tan has left Hong Kong for Pakhoi and it is expected that a British gunboat will also be sent to that port.

PREPARING PLANS FOR A NEW CANAL SYSTEM

Engineers Figuring on the Means of
Expending \$10,000,000 on Canals
Required for Iron Industry.

CHICAGO, May 27.—Engineers working in the interest of New York, Pittsburg, Chicago and Indianapolis capitalists are completing plans for an extended line of canals from Indiana harbor to a point between Gary and Moberly City. The first surveys provide for waterways fifty miles long to cost \$10,000,000. The system is held necessary to the development of the steel and iron industries.

The main channel will be 250 feet wide with lateral canals 200 feet wide. The system is to have a uniform depth of 24 feet.

Turning basins, 500 feet in diameter will be dug at intervals of 2 miles. It is estimated that it will take ten years to complete the work.

THOMAS E. KENNY IN A CRITICAL CONDITION

MONTREAL, May 27.—Thomas E. Kenny, of the Royal Bank, had a slight relapse again yesterday. Today he seems to have regained the lost ground, but the frequent relapses are causing grave anxiety.

The G. T. R. traffic earnings, May 15 to 21, for 1907, were \$883,659 and in 1906 were \$722,391, an increase of \$161,268.

Little Lillian Crookshanks, three years old, strayed away from her Golding street home, Saturday, and was found by the police in the east side ferry house and taken back home.

Joseph Rogers, John McGloin, Fred Sullivan, James Thomas and Glover Bennett and Joseph Doody have been reported by the police as being members of a disorderly crowd.

The funeral of the late Charles R. Ritchie took place at 2.30 this afternoon from his late residence, Adelaide street, Rev. D. Hutchinson officiated, and interment was in Cedar Hill cemetery.

The funeral of the late Miss Mary McLaughlin took place at the Cathedral at 2.30 this afternoon from her late residence, Erin street. Rev. Father Lockery read the burial service, and interment was in the new Catholic cemetery.

FOR SALE HEAP—One Top Buggy, also single set harness. Apply, 77 St. Patrick Street 27-54
