AMERICAN COMMANDER HONORS CANADA'S DEAD

On the occasion of his recent visit to Montreal to receive a degree from McGill University, General John J. Pershing, Commander-in-Chief of the United States Army, paid a graceful tribute to Canada's soldiers who gave their lives in the Great War. At the end of the day, as he went to his private car in the Windsor Street C.P.R. Station, General Pershing took occasion to pay a visit to the bronze group erected to the memory of eleven hundred C.P.R. employees who died in the service of King and country.

At a Canadian Club luncheon during the afternoon, General Pershing had said:

"I think no army that served in the world war suffered more than the Canadians; none were more gallant; none came home with greater laurels than those American representatives from north of the 43rd parallel. I do not wish to draw any comparisons, but out of those 450,000 Canadians who went overseas to fight for liberty and justice about half were casualties. No army has a better record than that, and it is something of which Canadians and Americans are justly proud—for we are all Americans in a broad sense."

As the General approached the statue he stood to attention and saluted, and later on, with the greatest of good nature, agreed to pose in front of it for the benefit of the press photographers. General Pershing is accompanied by Colonel J. J. Large (right), and Major Marshall, his aide-de-camp.

BARNARDO BOYS ARRIVE ON MELITA

Fifty Arrived at Montreal Yesterday — Many More Coming to Canada.

Quebec, May 15.—The Canadian Pacific steamer Melita, from Antwerp and Southampton, arrived at Quebec this morning at 1:30 o'clock with 152 passengers, 814 cabin and 465 third class in the cabin, one half comprised returned Canadians and the other half British with a sprinkling of French and Germans. Among the cabin passengers were Major Gen. A. N. Esau, of Jersey, England, on a visit to Canada; Col. G. Newcombe Copple, of the 1st-Can. B. L. Wayland, Vancouver. The Melita left Antwerp May 10th and Southampton the following day, thus making her quick passage across the Atlantic. The voyage was made under ordinary conditions and the passengers were unanimous in their expressions of the present trip and the excellence of service.

The third-class passengers were landed at Quebec, and conducted to the immigration buildings for inspection. They are, in the most part, British, with a sprinkling of French and Germans. They are, in the most part, British, with a sprinkling of French and Germans. They are, in the most part, British, with a sprinkling of French and Germans.

One of the interesting features of the new arrivals was a party of fifty Dr. Barnardo boys and girls brought out in charge of Mr. and Mrs. W. Hobday, and included twenty boys, twenty-two girls, everyone a beautiful child, destined to grow up good Canadians. The girls were taken to Barnardo home at Peterboro and the boys to Toronto.

Mr. Hobday, in an interview, said that when the ship reached Father Point he had received a list brought by the pilot boat from people in the west anxious to care for three times the number of children he had with him. Many, however, will be disappointed, said Mr. Hobday, as the children he has with him have all been placed. Continuing, he said after next month all the Dr. Barnardo children brought out to Canada will be placed in the new memorial hall built for their accommodation at Toronto. This memorial hall has been built in commemoration of the Barnardo boys who joined the Canadian Expeditionary force and fought with the British and the Allies during the late war, out of which number five hundred and thirty-one made the supreme sacrifice. These Dr. Barnardo boys were decorated, and one was recommended for the Victoria Cross, but to retain the boy died before it was presented. We have now in England in the various Dr. Barnardo Homes over five thousand children undergoing training and who are destined to be sent out to Canada.

Meeting Of The West Side League

Many Matters Discussed — Organization Meeting Will Be Held on May 29.

At the meeting of the West Side Improvement League, held last evening, a general discussion of the situation on the West Side took place, but owing to the small number present it was decided not to organize until Monday, May 29, and in the mean time an effort will be made to interest the citizens and get them to turn out in force. A letter will be sent to every taxpayer on the West Side explaining the present situation and the matter will be taken up with the different organizations as well.

W. H. Scully was in the chair and in the absence of the secretary, S. J. Olive, that office was filled by P. J. Legge, who read Mr. Olive's report. This showed that a small balance was on hand after all bills were paid.

SATURDAY'S KNIGHT.
Pastor (looking up from his newspaper)—I say, Jim, what is the Order of the Bath?

Nector (embracing the opportunity)—Well, as I've experienced it, it's first the water's too hot, then it's too cold; then you're short a towel, then you stop on the soap, and finally the telephone bell rings.—Life.

Have you a Twenty Pay Life Policy?

A Policy on your life will do much towards carrying out your intentions—whether you live or die.

Nothing can absolutely replace your life—but a policy will in some measure offset the financial loss which will come to those who now look to you for support.

It may pay off the mortgage, supply food and clothing for your family, keep the children at school. It may be all that is left of your life work—to keep you in comfort in your old age.

But—your Policy must be large enough.

The Twenty Payment Life
policy is selected by many for the following reasons.

Premiums cease in twenty years—therefore your policy will be fully paid for before you reach later life—when your earning power will have declined.

Cash values increase year by year, and after the third annual premium the policy cannot lapse as long as sufficient value exists.

Dividends are paid during the twenty years and as long as the policy remains in force thereafter.

After one year the policy is indisputable, and you may reside or travel in any part of the world, or engage in any occupation (except aviation) without affecting your insurance.

A twenty pay life policy will provide an amount in event of death equal to twenty or thirty times the annual premium, and produce an estate of \$2,000, \$5,000, \$10,000, or more as arranged.

An Easy Savings Plan
These active progressive years of life in which you are earning the most money are the years in which premiums can be most easily met.

Twenty years is a convenient period and premiums spread over that length of time are moderate and easy to handle.

If You Are Insurable
—do not delay decisions on this important matter—delays are dangerous.
