

LONGSHOREMEN AND SHIPPERS TALK OVER THE WAGES QUESTION

The Shippers Present Case in Detail, and Some Questions and Answers Are Given With Warmth--Suggestion of Threatening Letters Sent to Stevedores.

The meeting of the board of trade, shipping representatives, and members of the Longshoremen's Association, Tuesday evening, to discuss the question raised by the men's declaration that forty cents per hour should be their rate of wages, was without any decision one way or the other.

Mr. Schofield, president of the board of trade, presided. S. Schofield was present, also Alfred Porter, representing Wm. Thomson & Company; W. E. Golding representing Geo. McKean; W. M. Jarvis, McLaughlin, and others.

After the chairman had explained the purpose of the meeting, S. Schofield, in behalf of the shipping interests read the following statement: St. John, N. B., May 10, 1905. H. B. Schofield, Esq., President St. John Board of Trade.

Dear Sir--Having requested you to call a special meeting of the board of trade for consideration of the ship labor question, we now beg to submit the following information on the subject: The present current rates of longshoremen's wages at other neighboring ports are as follows: Halifax--Day, 20 cents; night, 25 cents.

The communication just read from the St. John steamship agents and shippers shows the wages current at the various ports with which St. John has to compete, and the necessity of adopting such wages and regulations here as will enable St. John from being handicapped in the trade.

reduction in the booking and the giving of half the preference to the regular crew. S. Schofield argued that there would be no serious scarcity of work if a moderate wage rate was asked.

Mr. Catherine, making the observation that a "wage sentence" was not going to solve the difficulty, retired. D. J. McLaughlin was called on and said what he had to say from the standpoint of the private citizen.

ENQUIRY INTO N. B. TELEPHONE CO.'S AFFAIRS

Senator Thompson and Dr. Stockton Testify Before Parliamentary Commission.

Ottawa, May 11--Senator F. B. Thompson, Fredericton, the managing director and treasurer of the New Brunswick Telephone Co., gave evidence before the parliamentary telephone committee this morning.

Senator Thompson said the New Brunswick Telephone Co. was independent of the Bell system. He stated the company began business in 1888. It had bought out the Bell interests in several cities and towns and had built its own lines. It now has a complete and first class system. It has located exchanges in most of the towns and long distance lines connecting them.

The Bell company was given \$25,000 paid up stock and \$25,000. The total stock of the New Brunswick company was \$304,050. The Bell had \$65,100 stock.

In answer to a question whether the company had purchased or otherwise connected with the Bell system, Senator Thompson said the New Brunswick company was independent of the Bell system. He stated the company began business in 1888. It had bought out the Bell interests in several cities and towns and had built its own lines. It now has a complete and first class system. It has located exchanges in most of the towns and long distance lines connecting them.

THINKS BODY MAY BE THAT OF HER HUSBAND

Mrs. Frank Guilett of Marsh Road Fears Worst from Maine Despatch.

The following despatch appeared in Wednesday's Times: "Rumored Fall, Me, May 10--Information was received here today from Bangor that the skull, breast and leg bones of a human being had been found in Rangley Lake. No clothing was found other than a belt fitted with rings, such as lumbermen wear. They were believed to be the remains of one of two river drivers named Guilett who went out four years ago in a canoe and were captured."

Mrs. Frank Guilett, of Marsh Road, said yesterday that her husband had been absent for the last five years. The only thing she knew for a certainty was that he had gone to Maine, and she thinks from the similarity of names that the remains may be those of her husband.
