Here and There

All previous records set by the Manitoba Telephone System, a provincial all-government owned and operated utility, were surpassed in July, when net earnings for the month were $15,754. A surplus of $100,000 was predicted for the present fiscal year.

According to an estimate made by Quebec Automobile Club from data supplied by transportation companies and garages, 200,000 tourists have already passed through Quebec this year. This, it is explained, is an increase of twenty per cent. over the total for the whole of last year.

Building permits issued in Winnipeg since the beginning of the current year to date have topped the three million dollar mark, being $3,034,840 for 1,704 structures. For the corresponding period of last year the total was $2,289,450 for 1,733 buildings, an increase in value for this year of $745,390.

Heavy shipments of this season's crop of potatoes in Fredericton, N.B., are now being made to the Cuban market from the potato belt on the Upper St. John River, according to the provincial superintendent of the crops and soil division of the Department of Agriculture. There have been large consignments from Carleton and Victoria counties.

Greater Montreal's population is now estimated at 1,028,000, according to the 1925 issue of Lovell's Montreal Directory just published. Population of the city proper is estimated at 987,500. Population in the suburbs and surrounding country is given as 120,500. The last estimate of Greater Montreal's population, by the same authority, gave the population as 979,027.

A party consisting of twelve Chinese students from Hong Kong and Peking arrived in Montreal recently to take up temporary positions in departments and shops of the Canadian Pacific Railway, in order to familiarize themselves with the railway situation in Canada. They will remain a few months and then return to China to make practical use of the information they acquire.

Among the notable personages who arrived in Canada during the first week in September from Europe were Princess Patricia, Sir Thomas and Lady Grattan, and the Earl and Countess of Mar and Kellie, all of whom were on the Canadian Pacific steamship Mountroyal; James Oliver Curwood on the Empress of Scotland and Baroness Orczy on the Montnairn, of the same line.

Calgary, Alberta. — The No. 4 Royalite well (Imperial), continues to amaze geologists. Its naptha production increased July to 546,135 gallons, 78 degrees Beaume, an increase of 25 barrels daily over the June production. The production continues to increase and the flow of gas at 20,000,000 cubic feet a day is being maintained. This flow will shortly be harnessed to supply Calgary.

Preparations are under way for the holding in Montreal in June next year of the annual convention of the American Association of Railroad Superintendents. J.K. Savage, General Superintendent, Canadian Pacific, was elected chairman of the arrangements committee, and plans were made for the organization of a complete committee to go ahead with the business of making the convention a success.

A despatch from London states that in the past three weks more than 20,000 boxes of Quebec-made cheese have arrived and been sold in London at good prices, the quality, it is said, being of the best. It is pointed out that if Quebec products are to obtain the position they deserve here it is necessary to keep continuous supplies coming, in order to make them known to the general public, rather than to make either isolated or occasional speculative shipments. Along this line, some 7,000 boxes of Quebec-made cheese went forward from here to the London market during the past week.

ALBANY

September 19th — Your Scribe attained his 89th birthday yesterday, the 18th and was greeted by cards and the presence of his son and wife, Mr. and Mrs. W.R. Whitman; also his daughter, Mrs. Leonard Whitman and family Andrews — These spent the time in good cheer and loving wishes for the future.

The Outlook extends felicitations to ye honorable scribe and trust he may be spared for many more years of usefulness. We deeply appreciate your kindly interest appreciate your community through your dillgents and painstaking contributions, from which many a younger person in many a district might take a lesson from. Thank you, kind sir, for your valued budgets.—Ed.

We are sorry to have to report Mrs. Maynard R. Oakes as seriously ill.

Miss Annie S. Fairn and Mrs. A. B. Fairn are visitors of Mr. and Mrs. Fred Fairn, of Yarmouth.

Mr. Charles Connel, of Albany Cross is superintending a crowd of men, who are road-making on the road from here to Nictaux.

The Albany Sabbath School held their picnic recently. They were glad to welcome a goodly number from Lawrencetown, Williamston and Inglisville schools.

Mr. and Mrs. Phineas Whitman spent a very enjoyable day with Mr. Whitman's cousin, Harris L. Oakes, last Monday.

We regret to report Charles Whitman in very poor health.

Very welcome visitors at the home of Lemuel Murray were: Dr. I. B. Oakes and Mrs. Oakes of Wolfville. They were special visitors of Albert Oakes and wife.

Our farmers are greatly cheered by an abundant grain crop. One farmer, Harold Oakes, excells the rest and reports 66 bushel to the acre; another 50 bushel to the acre.

We have in our community Mr. and Mrs. Joseph Whitman, the parents of 16 children, all living and all bright robust lot. This father and mother are pictures of health. Come on Mr. Somebody and beat it if you can.

WE'LL NOT FORGET

We'll not forget you, never fear;
Wherever you may go, my dear,
However far you have to stray,
However long you have to stay,
The friends of old, the friends you knew,
Will think of you.

We'll not forget you, friend of ours,
The flow'rs fade, but who the flow'rs
Plucks? Their sweetness, after all,
When winter comes we still recall,
And we who know your sweetness,
too,
Will think of you.

We'll not forget you. Do not praise
Our loyalty. A thousand ways
You leave yourself engarved upon
The hearts of friends wren you are
gone.
Because of all you used to do
We'll think of you.

We'll not forget you. Others' grace
Shall bring the memory of your face,
And others' kindness shall remind
Our hearts of someone who was kind.
When we behold the good, the true,
We'll think of you.

OBITUARY

Archibald McLeod

There passed away in the Middleton Memorial Hospital, July 2nd, Archibald McLeod, aged 73 years.

For thirty-seven years Mr. McLeod followed the hard life of the sea. He retired eight years ago to take up his residence at South Farmington. He was born on Prince Edward Island.

He leaves to mourn their loss, Ruby, Yarmouth, in the West; four sons Frank, in the West; Charles, Houlton, Me; Walter, (address unknown); Boyd, Digby; and two daughters, Flora, New York and Middleton.

The funeral service was held in the Middleton Baptist Church, July 4th, at 2 p. m. and was conducted by Rev. A. A. MacLeod, of Kingston, assisted by Rev. W. D. Wilson, of Middleton.

Interment took place in the Middleton Cemetery.

Classy Printing. Quickest Service in Nova Scotia

"---Not only the Annex"

The Central Christian Church of Charlottetown had a Fawcett Pipeless Furnace put in their new annex. Recently the Vice-Chairman of the Board of Trustees, C. L. McKay, reported: "so satisfactory has been the capacity for heating that we have not only heated the annex, but we have heated the main auditorium of the Church as well."

Very good. But the latest model of the Fawcett Pipeless will do even better. For one thing, the casing has been enlarged to a depth of 2½ inches giving freer circulation both of the warm air going up and the cooler air coming down.

Fawcett

Furnaces-Stoves-Heaters

SACKVILLE, N. B.

Another Victory for Fawcett

At the Vancouver Exhibition, just closed Fawcett received the Gold Medal for furnaces and for ranges. This is not merely a tribute to the 70 years of supremacy they have enjoyed, but also to the improvements in the latest Fawcett models—Pipe and Pipeless furnaces, coal and wood burning, heaters, coal, wood and gas ranges. Catalogue on request.

Fry Pan Free

Send 10c. to cover postage and we will mail you the Fawcett Fry Pan—cast in one piece of solid cast iron. A small size, everlasting fry pan, handy for frying one egg, melting butter, etc. Tell us at the time you write how your house is heated.

Win This Prize!

The other day a request came in for a part belonging to a Fawcett stove that we hadn't manufactured for over forty years, accompanied by a letter to the effect that the fine old stove had played such a part in the life of the family that they wouldn't like to part with it under any circumstances. There must be many more such "human interest" stories.

For the best account of an incident relating to a Fawcett Furnace, Heater or Range, or the Fawcett Pipeless, we will send free this handsome Baby Grand Range. Although its top is only 9¾ by 14½ inches, and its height over all 17, it is a real steel range in every respect, beautifully enamelled, completely equipped. A splendid toy (think of it as a Christmas present to a little girl!) that will actually cook. Remember—free to the best account (not over 200 words) relating to Fawcett goods or the lack of them. The event is more important than the language—don't hesitate to tell about it. Answers must be addressed to Charles Fawcett Limited, Sackville, not later than Oct. 31.

"---We are in Florida"

"Just at the present time we have too much heat in the house. I am obliged to shut all the drafts, and still we could image we are in Florida at times, the whole atmosphere being so warm. I must admit that all my fears have vanished, and the heat reaches the farthest rooms." J. L. Landry, M. D., written in mid-winter, 1923, from St. Philippe de Neri, Kamouraska, Que.

Is there one room you can't use in Winter? Do you hate to go upstairs at nighttime? Are your halls like artic corridors? Let our engineers prescribe the size and style of furnace for your home and ever after you'll be able to enjoy Florida weather throughout the Winter.

After 25 Years

"I am enclosing a snap-shot of my double house, built twenty-five years ago. At that time there were two Fawcett Furnaces installed, which have been in use ever since and now giving perfect satisfaction in every way. I find them very economical on fuel and can cheerfully recommend Fawcett Furnaces to anyone."—Harold A. Blackadar, Weymouth, 1924.

It is a fact that although there are thousands more Fawcett furnaces in actual use than any other Maritime made ones, Fawcett repairs are far less.
