

AGREED

TO A MAN

"The efficacy of the Antitoxin Treatment of diphtheria has passed beyond the experimental stage, and is settled beyond all doubt. Antitoxin, where generally employed, has reduced the fatality from diphtheria at least 50 per cent. Thousands of lives have already been saved by its use, and countless thousands will be saved in the future."—
WILLIAM H. WELCH, M. D.,
before Conference of Health Officers, Baltimore, U.S.A., February 17 and 18, 1887. All agree regarding the high potency of

Mulford's Concentrated Diphtheria Antitoxin

It has received the highest endorsements everywhere, is uniform in strength, possesses the highest degree of potency, and has to its credit the largest percentage of recoveries wherever comparisons have been made. The Physician uses a strictly reliable product when he uses MULFORD'S.

Send for "The Present Status of Diphtheria Antitoxic Serum."
This is an Entirely New and Valuable Brochure.
